Mount Hope Meat Heads

by Catherine Hammel

The fifth meeting of the Mount Hope Meat Heads was held at the home of Kathy Tedford on October 18, at 7:00 p.m., with nine members present.

First we did a crossword puzzle, reviewing what we have learned so far. Then we discussed factors that influence the amount and type of meat people eat. We learned that lamb is a favorite food in countries such as Australia, New Zealand and Great Britain.

We tested out knowledge about Ontario lamb and were given some tips on shopping for lamb and cooking it. We also learned many points about cooking meat in the microwave. We discussed the advantages of organ meats and learned a little about each. Kathy Tedford demonstrated how to make sweet and sour meat loaf in the microwave. Our leaders also made crispy liver strips on the barbecue. We ended our meeting by sampling the meat loaf and liver strips.
