THE PRIME MINISTER AT NIAGARA FALLS: WITH HIS DAUGHTER, MR. CHURCHILL ADMIRES THE FAMOUS FALLS FROM THOMPSON'S POINT. HE WAS PROCEEDING FROM QUEBEC TO VISIT THE PRESIDENT AND MRS. ROOSEVELT.

The Prime Minister, accompanied by his daughter, Subaltern Mary Churchill, visited the famous Niagara Falls on August 12, on their way to the President and Mrs. Roosevelt at Hyde Park. On his arrival in the western continent's most popular honeymoon resort, he drove through the beautiful gardens which overlook the Falls, our picture

showing him and his daughter admiring the view of the whirlpool from Thompson's Point. Asked if they looked as they did in 1900, when he last visited them, Mr. Churchill uttered a characteristic "wise-crack." "Well, the principle remains the same," he observed; "the water still keeps falling over."
