The Pub in the Hub to reopen tonight

Fred Walsh has a dream. He hopes to reinstate the Paisley Inn as the Pub in the hub of Bruce County.

As the new owner of the Paisley Inn, Fred and his family have been working around the clock to get the Inn back in shape for their Grand Opening tonight. The interior has been gutted and refurbished in a pub style setting. New carpet and a new dance floor have been installed and Fred plans on weekly entertainment with country, country rock and pop bands for your enjoyment. Wednesday evenings will be set aside for amateur night and an informal atmosphere will prevail.

The Grand Opening tonight will feature Paisley's own Jim Patterson with Ryder providing the backup.

Sunday Smorgasbords will be featured once again with Brian Woods and Mona McTeer creating provocative dishes for your dining pleasure. Fred says he has hired the best local staff he could find and service will be first and foremost.

Fred and his wife, Marlene and their two children, Mike and Linda will be living in town and hope to get to know the local people real soon. Fred spent 23 years with the Canadian Air Force and retired as a Captain about 3½ years ago. Since then he has worked for Ontario Hydro and plays with the band Ryder along with local boy, Brian Leslie.

Fred and Marlene invite you all out to the Grand Opening of the Paisley Tavern, where they hope good times, good food and good friends will prevail once again.
