

FLESHERTON ADVANCE.

"TRUTH BEFORE FAVOR."—"PRINCIPLES, NOT MEN."

VOL. XI., NO 477.

FLESHERTON, ONT., THURSDAY, AUGUST 21, 1890.

W. H. THURSTON, EDITOR & PROPRIETOR

WATCHES FOR THE MILLIONS.

ARMSTRONG BROS. The Flesherton Jewelers, have established a record for selling Watches of a quality and at a price which defies the competition of country as well as city dealers. We don't sell played out bankrupt stock. We are not bankrupting ourselves. We can charge a working profit and yet give our customers splendid value. Our rent is small and our working expenses are light. We buy the best goods for cash, and we share our exceptional advantages with our patrons. This is how we are benefited and how we benefit those who buy from us. These are the chief reasons why we sell our Watches, our Jewelry, our Wedding and Engagement Gem Rings at rock bottom prices and give splendid value. Our Watches are always phenomenally cheap, good material and splendid timers. We keep all the movements, Elgin, Waltham, Columbia, Illinois, Springfield, St. Thomas and other famous movements.

NO TROUBLE TO SHOW GOODS.

FOR BETTER OR WORSE

Is the obligation of matrimony. That's why the man had no show when he brought his wife back claiming that she was all worse and no better.

WE TAKE GOODS BACK

When they don't turn out as represented, but we are not troubled much that way as our goods are

ALL BETTER AND NO WORSE.

You may regret wedlock, but you will never regret trading with McDONALD & EVANS. The preacher asked him—will you, John Henry, take this woman, Matildia, to be your law ful wife.

Matilda said, will he take me! What on earth do you think I brought the little dude here for. Will he! You bet he will. She knew a bargain when she saw it and picked it up. That is the sort of women McDonald & Evans want to trade with.

If you know bargains when you see them come and examine our stock. We keep a well assorted stock at

GENUINE BARGAIN PRICES.

Best Clear Cut Bacon on Hand.

McDonald & Evans.

COUNTY AND DISTRICT.

A dancing bear was killed by lightning at Brougham a week ago.

The people of this village who have occasion to go along Centre street are devoutly thankful to Mr. Angus for having disposed of his dog, which made night hideous with his howlings.—[Beeton World.

Mr. John Howard, of Lucan, is the possessor of a hen that laid two eggs in one day last week, one of the eggs measured 7 1/4 x 6 1/4 inches in circumference, and the other 4 3/4 inches.

A barn belonging to Mr. Wm. Kearns, near Beeton, was destroyed by fire last week. The barn contained a large amount of grain and a steam thrasher, all of which was destroyed. The barn and contents were insured for \$1,200. There was no insurance to the thrasher.

Collingwood had another costly fire on Wednesday last week, which reduced to ashes the new town hall, recently erected and furnished at a cost of \$25,000, the old hall, the Central hotel stables, and a number of small buildings. The new hall had an insurance upon it of \$12,000.

While hunting in the woods near Hopworth on Thursday last a man named Ernest Nesbitt, in attempting to pull his gun through a thicket, caused the piece to be discharged. The bullet passed through his thigh, severing the main artery. He lived only ten minutes after the accident, having bled to death.

Councillor W. Foster, of Holland Tp., had a similar experience to Mr. Wm. Cram's in having a second crop of wheat this summer from grain sowed in the spring of 1889. Mr. Foster sowed Manitoba white wheat, which is a bald variety and the crop this year was bearded, but not as heavy as Mr. Cram's crop.—[Chatsworth News.

On Monday last, just after dinner, the dwelling house of Mr. Shepherd Boyce, of Glenelg, took fire from a defective stove pipe, and the fire spread so rapidly very little of the contents were saved. The barn was also in great danger for some time from the leaping flames. Mr. B's loss is estimated at over \$800. There was \$200 insurance on the house and the same on the contents.—[Standard.

There is trouble over the balloon ascension which took place in Orangeville on July 12th. The balloon, it will be remembered, fell upon the farm of Geore Hannahson in Mono. When Constable Hubbard went to recover it a quantity of rope belonging to the air ship was missing. Hannahson had removed this rope and he has laid information against Hubbard for trespass, while Hubbard gets back at his adversary by charging him with larceny. The case has been pending in the police court for some time past, and on Tuesday was enlarged by Police Magistrate Pattullo for another week.—[Orangeville Advertiser.

A young six-year-old son of Mr. Jas. Bunting had a miraculous escape from death on Thursday afternoon last. In company with a number of companions the young lad was playing near the residence of Major Leslie, on west Broadway, when he fell through the decayed boards on top of an old well. He dropped down 40 feet into about 7 feet of water. His companions ran to the court house, a block distant, and summoned Turnkey Bowles, but when the gentleman arrived on the scene the lad, with remarkable presence of mind, had climbed half-way up the boards with which the well was lined. He was assisted out by Mr. Bowles and seemed none the worse for his mishap. His escape was certainly a miraculous one.—[Orangeville Advertiser.

Joseph Slater, an employee of the Georgetown paper mills, fired three shots at his wife on Monday inflicting three serious wounds from which she may die. Slater is in custody.

Heligoland.

The relative value of national possessions is curiously illustrated by the fact that England, with her 9,000,000 square miles of the earth's surface, receives for this little island, which is not as large as Central Park, an indemnity representing about half a million square miles of African soil. Even this may prove less profitable, for Heligoland yields an annual revenue of \$40,000, while he would be a bold prophet to assert that any European power will make both ends meet in the administration of the Black Continent. But though as a mercantile exchange the British have received a questionable property from Germany, still it is a matter of congratulation for the civilized world that the two greatest Protestant nations of Europe, both belonging to the same Germanic race, and both rivals in the same industrial field, should have removed from between them the cause of what might at any time provoke a war. Heligoland became English after the defeat of Napoleon and his exile to Elba. At that time no one but Gneisenau dreamed of such a thing as a mighty German Empire, stretching from the ocean to the Russian frontier, and England had little difficulty in holding it by treaty. It lies adjacent to Germany's greatest seaport, and commands approach to the second in importance as well. If a foreign power should claim possession of Block Island or Fisher's Island, we could realize how Germans regard Heligoland in British hands. Or if we could imagine an island off the mouth of the Mississippi, or between Sandy Hook and Fire Island, the cases would be somewhat analogous, provided the British flag floats over them. Fortunately Heligoland has long since ceased to be considered valuable to England, while to Germany it has risen in importance with every increase in the German navy, every addition to Germany's merchant marine, and, above all, every indication of having to reckon with Russian or French cruisers.

Only 300 feet remain to be completed in the St. Clair tunnel, and, if no delay occurs the two shields should meet within the next ten days. As the work approaches completion the rules prohibiting outsiders from entering are more strictly enforced. The regulations are particularly stringent against newspaper reporters.

Finkerton's men have been using their revolvers rather recklessly at Albany, N. Y. Sunday several innocent persons were badly wounded by bullets. The Finkertons who did the shooting were placed behind the bars by the Albany police.

ADVICE TO MOTHER.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth. If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Dysentery and Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Syrup," and take no other kind.

All Men

young, old, or middle aged, who find themselves nervous, weak and exhausted, who are broken down from excesses or over work, resulting in many of the following symptoms: Mental depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensation about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eye lids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, wax and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with LEADEN CIRCLE, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Address M. V. LUBON, 50 Front St.

E. Toronto, Ont. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flashes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breastbone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 50 Front Street East, Toronto, Ont.
