

BANKING OFFICE OF
GEO. MITCHELL,
FLESHERTON.

A general banking business transacted. Drafts and cheques cashed at usual rates. Money always available for legitimate business enterprise. Office two doors north of Richardson & Co's.

Vicinity Chips.

Characteristics of the Past Week Carefully Culled for the Curious.

Dundalk fall fair was held yesterday (Wednesday).

Mr. E. Nanzant is up at Warton this week placing a monument.

BOY WANTED—A good stout boy to make himself generally useful. Apply to H. FLESHER.

Mr. John Stewart offers a good 100 acre farm for sale. It is a bargain for some one. See advertisement elsewhere.

Boys' Boots, all leather and not shoddy—the kind you want for your boys, at M. Richardson & Co's.

Rev. Mr. Tonge will, on Sunday evening next, preach a sermon for the special benefit of young men. His subject is: "Signal Lights from Bible History."

S. J. Dixon, the rope-walking photographer of Toronto, will walk the tight rope in Owen Sound on Wednesday next, Oct. 15th.

Mrs. John Chard, of Toronto, who The Advance noticed a few weeks ago as having been seriously ill, has recovered and is visiting her relatives in this vicinity.

I. B. Lucas, barrister, of the firm Bishop & Lucas, Owen Sound, is at the office of Wm. Lucas & Co., in Markdale, every Friday, and in Dundalk every Saturday.

Winter is Coming, prepare for it by getting an overcoat from C. J. Leitch, merchant tailor.

Mr. Wm. Sproule, of Maxwell, left for Winnipeg the latter part of last week to attend the sick bed of his son James, who has been dangerously ill of typhoid fever. Since Mr. Sproule left we learn that his son is slightly improved.

Three or four young men from Flesherton are down in Proton this week rabbit hunting. The weather has been somewhat damp for this sport and we do not anticipate that they will have a superabundance of fun.

Mr. D. McTavish, blacksmith, has taken in a partner, and will carry on the wagon making business. This is not official, however, and is not to be considered as an advertisement. We simply believe such to be the case.

Children's Boots that will not spoil with wear in muddy roads; just the kind your children need, at M. Richardson & Co's

Rev. G. H. Cobblestick, M. A., B. D., preached the educational sermons in the Methodist church here on Sabbath last. Owing to inclement weather the congregations were not quite so large as usual. Mr. Cobblestick's sermons were listened to with much interest. He is a young man of great promise.

Mr. Angus McLeod, of Flesherton station has secured the contract for building a frame barn 57x68 feet with an ell 30x30, for Mr. John Richardson, 19th con., Proton. This, we believe, will when completed be the largest barn in the township. The stone foundation is now in course of erection.

Mr. McCullough is now buying grain at the station. On Saturday last he purchased eighteen loads. Oats went up to 38c, but dropped to 36c. As high as 58c. was paid for peas. That was the result of competition and farmers are happy. It will be folly for any one to go to a foreign market this fall with the expectation of getting better prices than are paid at this point.

A friend writing from Proton Station desires us to insert the following notice. "If the parties who were caught in a certain cellar at Proton Station, about 3 o'clock on the morning of Oct. 2, do not come and apologize and make it right, they will be brought before the courts to answer to the same." The above is plainly stated and the parties interested will know exactly what is wanted.

Remember that the Artemesia fall show will be held in Briscoe on Tuesday and Wednesday next, Oct. 14 and 15. This show has been improving year by year, until last year, it almost rivalled anything in the county, and in the case

of horse flesh was ahead of anything we saw elsewhere. This year it promises to be fully up to, if not in advance of last year, in every respect. Remember the date, Tuesday and Wednesday of next week, Oct. 14 and 15.

Personal.
Dr. Boland and wife, of Atlanta, Ga., have been visiting with Councillor Boland, their cousin. Dr. Boland is practically an American, having lived on the other side for the past 28 or 30 years. He is the proprietor of a surgical institute in Georgia.

Boot and Shoe manufactures have had to advance their prices 20 to 25 per cent owing to rise in leather. M. Richardson & Co purchased a very large stock before advance went on. Customers will get the benefit while stock lasts.

Tall Corn.
Mr. G. Mathewson, of Epping, brought in some corn stalks last week which were 10 ft. 6 inches in height. These, however, did not come up to some grown by Mr. John Osborne, who lives in this village. We measured some of his corn stalks, and they panned out 11 ft. 1 inch.

Big Potatoes.
Mrs. R. Bentham brought to this office one day last week a basket containing twenty potatoes of the white elephant variety, the total weight of which was 26½ lbs. Fifteen of the murphys weighed 2½ lbs. One weighed an even two pounds. Mrs. Bentham says their yield of potatoes is something abnormal—they never saw such a crop. It beat everything we ever set eyes on, and we rather think our potato story can do anything going the rounds this fall.

For fine ordered clothing try C. J. Leitch. Style and workmanship guaranteed.

Timothy.
A correspondent from Faversham sends us a budget of news, and signs himself Timothy. Now the news is all right, and we would be most happy to use it did the writer's correct name accompany it, but he has forgotten to send that. The Advance will publish nothing when the writer does not furnish his correct name, not of course for publication, but as a guarantee of good faith. We have explained this something less than a thousand times heretofore, but still some people appear to forget.

Teachers' Convention.
The teachers of the South Riding of Grey meet in convention here to-day and to-morrow (Thursday and Friday), and are aided in their work by Dr. McLellan who is recognized throughout the province as one of the leaders of educational thought. A public lecture will be delivered in the Town Hall to-night (Thursday) beginning at half past seven. We are unable to definitely announce the topic, but as the Dr. has the faculty of making both interesting and profitable the driest of subjects, no fear may be entertained on that score, moreover he is so well known here that an extended reference to his ability would be out of place. We congratulate the teachers on securing the most popular man they could possibly select and trust that they may be rewarded by a large audience. A number of musical selections and readings are also to be given.

Women's Boots, suitable for wet weather; just the thing for fall and winter. All sizes at M. Richardson & Co's.

Artemesia Council.
The Artemesia township fathers met in conclave on Monday, the reeve in the chair. There was very little business to be done, and two hours was about the extent of the session. Two or three bills for payment were presented and ordered to be paid, as follows: Wm. Watson, jr., for expenses in connection with funeral of Neil Kennedy, \$11.00; Wm. Davis, for loads of gravel, \$3.20; W. H. Thurston, printing, \$6.50; and W. J. Bellamy, quarter's salary as clerk, \$37.50. The following motions were carried:

Moved by Mr. Boland, seconded by Mr. Sharp, that Councillor Thompson and the reeve be a committee to examine Miller's bridge and report unless immediate danger exists, in such case to fix it, if possible, temporarily. Also Morey's bridge.

Moved by Messrs. Thompson and Sharp, that telegraph companies having poles interfering with new deviation now being constructed be notified to have them removed immediately.

This constituted all the business—it was an off mouth—and the councillors returned to their respective homes shortly after dinner.

Men's Long Boots, solid whole stock, handmade, warranted to wear and keep feet dry. M. Richardson & Co. are offering these goods at prices at which they cannot be replaced.

Thrashers can get the Cold Test Lubricating Oil at M. Richardson & Co's. Special low price per 5 gallon lots.

A Poor Unfortunate.

On Tuesday afternoon of this week, while Mr. J. H. Campaign was driving along the road leading north from Loucks' mill, his dog began making a fuss. Upon dismounting and entering the bush to find the cause, he discovered lying between two cedar trees the emaciated body of a young woman, probably 25 years of age. At first impression he thought her dead, and went for Mr. Loucks' assistance. Upon return, and after considerable effort, they succeeded in awaking her, when it was found that she was unable to walk. She was assisted to the buggy and driven to Mr. Loucks' residence and taken care of. It is supposed that she lay out in the storm all night on Monday, as her clothing was completely saturated. She gave her name as Maria Irwin, of Walter's Falls, and explained the cause of her terrible condition by saying that she lost her way, took sick and was unable to go further. Dr. Christie is waiting upon her.

A Car Load of coal oil just arrived for M. Richardson & Co. Another to follow next week.
