THERE IS NO PATENT ON IT.

There is no patent on McDonald & Evans' method of doing business. Anybody can do as we are doing—give the most and best for the money—but it knocks the profits, and that is the reason we have no followers, but stand alone in holding out inducements and giving the biggest bargains possible, which cannot fail to tempt those who appreciate our extraordinary efforts in giving the best goods for the least money. Credit pays the dealer more money than cash, so he clings to the credit system, but CASH saves the customer more money. Look out for self and you will look in on us. Our prices save your pocket. Our profits save your purse. Our goods are the best you can buy, or that can be sold for cash. **THE DYNAMITE** we use to shake things up with is Condensed Prices and Small Profits. Now is the time to save money while we are giving away our profits. If you do not appreciate what we are doing now, we hope you will live to see your mistake.

TELL-TALE LETTERS.

The following letters speak for themselves. They were read by Sir Charles Tupper at Sarnia on Monday. Read them carefully:

TORONTO, April 22nd, 1889.
MY DEAR MR. WIMAN:

Our Ottawa man will send a good summary of your speech, so that on our account you need not go to the trouble of preparation. At present the C.U. movement is at a standstill. First of all, the Jesuit agitation, which is here to stay, has to some extent supplanted it. Secondly, the general belief is that the republicans would not listen to any such scheme. Thirdly, a very large number of people are inclined to think that we had better make for annexation at once, instead of making two bites of the cherry. Lastly the old parties here are rapidly breaking up, and when Sir John goes we shall be adrift without a port in sight, save annexation. Moreover, although the Liberals have taken up C.U., they are not pushing it with any vigor. For these reasons the Mail has, in the slang of the day, given the subject a rest. There is really no use in talking it up to a people whose politics are in a state of flux, and whose future is wrapped in doubt. I saw Mr. Hoar, while at Washington, and told him just what he says I did, namely, that the smaller forces favor annexation, and will favor it all the more if C. U. be withheld. It seems to me, and I have talked the thing over lately with Maritime members, as well with Manitobians, that C. U. would only delay the coming of the event those people most desire. Hence in the provinces referred to C. U. does not take hold, whereas annexation will always demand a hearing. In Ontario the Jesuit campaign has brought that aspect of things home to thousands who would not

the same results in sight. We must be very patient with the slow popular mind. If the Canadian public of farmers, artisans, lumbermen, miners and fishermen can be in three years argued up to the point of voting Commercial Union, and giving sanction to the movement in Parliament, it will be great progress. Slow as such movements are, the comforting thing is that they never go backward. To you personally it ought to be in your moments of reflection a consolation that long hereafter when this ball which you set rolling has gone on and on and finished its work, everyone may then look back and see and appreciate the services done to mankind by the hand that set it in motion. I shall look with interest for what you say at Ottawa. The *North American Review* article will have a powerful tendency to keep our public men from scattering away on annexation next winter, and I hope we can get the offer of Commercial Union formulated into law. I return the proof slips of the article and the letter of Mr. Farrer's. Verily truly yours,
(Signed) R. R. HITT.

P.S.—Just received yours of yesterday with Goldwin Smith's; it reads admirably.

Politics, politics; verily all conversation is political at present. The Grits of this ward have awakened from their years of slumber; they have organized and are also pushing the campaign with vigor. A large delegation of the aforesaid creed attended the convention at Durham on the 12th. On the 16th both the candidates for

KEEP OFF THE WOLVES

look at C. U. The littleness and half heartedness of the Liberals is also very disheartening. Then, again, the truth is that every man who preaches C.U. would prefer annexation, so that the party is virtually wearing a mask. Can't you come around this way and have a talk? Yours very truly,
(Signed) E. FARRER.

HOUSE OF REPRESENTATIVES,
WASHINGTON, D. C., April 25, 1889,
Erastus Wiman, Esq., 314 Broadway,
New York.

DEAR SIR,—I am greatly obliged to you for sending to me the proof slips of the "North American" article, and have been much interested also in Mr. Farrer's letter, which surprised me somewhat, as I did not think from his conversation, which gave me a very favorable impression, that he would be so easily discouraged. The reasons he gives existed before the Commercial Union movement began with greater force than to-day. The Republicans as protectionists, it was apprehended, would be against it. They are not. Their representatives vote for it, their newspapers have received it kindly, and often with warm approval. The Jesuit agitation, which has taken the place of Commercial Union in his mind, is largely sentimental and will probably not last long. The other, C.U., is a business question that concerns each citizen, and in a way which he does not understand at first, but sees more and more clearly the more he talks intelligently about it. There is some logic in what F. says, of not making two bites of a cherry, but going for annexation at once, but I think he is misled on that point in a way that often occurs. Where a man is thinking much on a point and discussing it, he is liable to narrow his horizon to those within his reach, and his own mind, and perhaps those he meets, having passed on by discussion to distant results, he takes it for granted that the wide world, which is so wonderfully slow, has kept up with him and has

From our own Correspondent.

Mr. David Graham and wife leaves here this week for Manitoba, he has rented his farm here. In this he has acted wisely, for if he does not like the great lone land he has his home here to return to.

Miss Sarah Allen, from near Durham, has been visiting her friends in this vicinity during the past two weeks.

Politics are all the rage now. Dr. Landerkin held a meeting here in the school house last Wednesday evening. Mr. John Blythe and a host of other speakers were present. The Dr. did not have it all his own way.

Carter's Prize Prolific Barley.

In February, 1890, the Government of Canada on recommendation of the Hon. the Minister of Agriculture, made provision for the importation of 10,000 bushels of two-rowed barley from England, to be sold to farmers in Canada for seed. This was imported in 5,000 bags of 112 lbs. each, the "Prize Prolific" being the variety chosen for the purpose, and this barley was offered at the cost of importation, \$4 per bag, the Government paying freight charges to the nearest railway

station to the purchaser. By this arrangement farmers in every part of the Dominion obtained the barley at a uniform price, but one bag only was available to each individual. This restriction was made at the outset so as to secure a wide distribution for the grain, and prevent a too rapid exhaustion of the stock, so that applicants from distant portions of the Dominion might not be disappointed. This limitation lessened the sales, and as soon as it was ascertained that the barley on hand would be more than sufficient to meet the demand on the basis of one bag only for each purchaser, the restriction was withdrawn. About 3,200 bags were sold to 2,600 purchasers, leaving nearly 1,800 bags on hand.

I am now instructed to offer the remaining stock at three dollars per bag, freight prepaid to the nearest railway station to the purchaser, with no restrictions as to the number of bags which any individual may buy. All orders must be accompanied by a remittance sufficient to cover the amount of the order. The applications will be entered as received and the orders filled in rotation as long as the stock holds out.

The germinating power of this barley has been tested from ten samples taken from different bags, the average vitality is 90 per cent. and the growth strong.

All communications should be addressed to the undersigned.
