## Tired?

Oh no; we are still young and hearty; able to eat three square meals a day. Although we may not be able to haul out the speckled beauties like our worthy Editor, or pop over the lively patridges like our much esteemed barber, we are able to throw Case and Bale of new fall goods up the steps of the store on the hill, and dance a jubilee around the beautiful articles which they contain without much trouble.

## Toot Our Horns?

Oh no; we haven't time when so much is to be done to get our goods on exhibition, carefully ticketed and placed where every one who calls can see them without exerting themselves.

## Left on Exhibition?

Oh no; first come first served. Everything has got to go but our scissors. We can't pay freight on goods to have them mould on our shelves. Buy as much as you wish, as little as you like, or don't buy at all, but come and examine, and the buying we will leave to your judgment.

The store that is built on a hill cannot be hid. Every place you go you will see indication of the light—some times dresses, sometimes boots, sometimes suits of clothes, and various other things. But never will you see an inferior article or hear that **McDonald** or **Evans** were too smart the time they sold me such an article.

### Come! Come! Come!

now is the time to get a good selection at a low price.

## McDONALD & EVANS

### Swinton Park.

From our own Correspondent.

Everybody is neck and heels into harvesting.

Nearly all the grain of this district has ripened simultaneously, thus causing a heavy pressure of work problem. However the tremendous improvements in the facilities of farming of recent years have reduced labor in this particular vocation to a minimum and Proton has not been behind in utilising those means which tend greatly to make agriculture a delightful and not a "repulsive pursuit."

A hunting party, composed of Messrs. Ball, McArthur, Allan, McArdle of Hopeville and Carrie of Mr. Forest, scoured the woods around S. P. for foxes last Wednesday. They succeeded in bagging four of the sly cunning enemies of geese, hens etc.

The Patrons of Boethville cheese factory shipped their July cheese, consisting of 238 boxes on Sept. 1st; price 8cts.

Mr. D. Ferguson, jr., has appealed against the departmental marking of his examination papers. We hope he may be successful.

Mr. Ed. and Miss Lizzie Cummings, of Dundas, are visiting friends in this vicinity. Ed. is a compositor on the Dundas Star.

Dr. Scott, of Maxwell, paid a brief visit at Mrs. Hardy's last week.

Mr. Pattison, of Osprey, made a brief stay at Mr. J. Patterson's, merchant, lately.

Mr. Briggs, of Hamilton, was visiting at his father-in-law's, Mr. James McDonald, last week.

A short time ago Mr. William McMurdo purchased a Patterson binder from an agent named Smith, the consideration being a horse. Everything went smoothly till last Wednesday, when Mr. McMurdo was much surprised by a visit from two officers of the law in the persons of constable Godfrey, of Mt. Forest, and sheriff Moore, of O. S., who were authorized by the Patterson Co. to take the binder away from its supposed owner. It appears the Co. is not satisfied with the deal, hence their action. However, Mr. McMurdo is likely to sue the Co. (and justly so) for damages, as the horse was not returned at the time the implement was taken away. The case is peculiarly interesting to farmers who would like to see it tested in the courts.

We are sorry to learn that Miss Sara E. Parslow is ill at present. We trust she may soon recover.

### WHAT WE NOTICE.

That Tom has got his peas pulled at last with help of another Tom. Nothing like experimenting with mowers, sulky rakes, etc.

That a new black-board is badly needed in the Academy. It is a wonder that the principal doesn't kick the end out the institution.

That the lazy men received a good lesson on Sunday evening at the Methodist church. The cap didn't fit our cranium.

### Maxwell.

From our own Correspondent.

Grain is nearly all cut in this part, and would be mostly all in only for wet weather.

Improvements still going on in Maxwell. Mr. Madill has made a platform at the hotel and Mr. Kerton is building an addition to his residence.

Mrs. Scott, of McIntyre, and her granddaughter Minnie, have been visiting at the Dr's for a time.

Contractor Jamieson and son are making an elegant job of the brick-work thus far.

The Rev. H. Brown visited his parental home in Mulmur a few days last week. He also disposed of one of his drivers lately for a good figure.

Mr. Kerton sr. has had a fence built in front of his premises lately which is both substantial and handsome.

Mrs. Kinner is still getting better. Mrs. Taylor, her daughter, is visiting her at present, and Mrs. Heron is visiting friends here also.

Mr. Strachan and family, from Wareham, have moved to Williams'

old stand, where they purpose following the mercantile business.

The Maxwell correspondent is always willing to be taught, and try if possible to learn something, but fears that under the tuition of one who makes as many mistakes as "Observer No. 2" could not learn much. Churches being closed before for the purpose mentioned by our observer, and also the principle referred to in discipline of the churches, are facts unknown to a great many. If they be true we must thank observer for the information as we were in the dark on that matter before. No. 2, however, made a good point near the end of his remark for which we give credit, and although all through we cannot say "sensible till the last," yet we can say "sensible at the last."

The Rev. Scobie occupied the pulpit of the Presbyterian church last Sabbath, owing to the absence of the Rev. Hughes. Mr. Scobie's remarks are pointed, and we believe there is a bright future for him in the work of the ministry.

### Opening Sideroads.

To the Editor of The Advance.

DEAR SIR.—Sideroads 30, 35 and 40, of Artemesia township, were originally surveyed for the purpose of making connection between concessions 12 and 14, but we must say those good intentions "have not borne fruit in deeds, but have perished in the blossom." And yet, after so many years, the people in order to travel from one concession to the next are obliged to go around nearly three times the distance necessary if those connecting roads were made passable. In the past when the township had but limited means, and there was no particular reason for the connections being made, the ratepayers forgave the omission, but now, when our township can afford to indulge in the luxury of two deputy reeves, we will be patient no longer, for in this case the virtue is worn out, and we ask that the necessaries are attended to ere luxuries are indulged in. There is a church on concession 14 which the people from concession 12 cannot reach. Then, on the other hand, there is a shoemaker shop and an excellent saw mill, the proprietor of which is Mr. Jacob Sloan, whom every one who has had intercourse with, is loud in his praises. His honesty and straight-forwardness in business are unsurpassed, but if we want our logs (of which there are many) sawed into lumber we have to go a distance of about six miles to a good mill which in reality is only 1½ miles from us; also one of the best blacksmiths in Ontario is only waiting for No. 30 sideroad to be opened, to set up a forge, and we should then have blacksmithing accommodations within reasonable distance. We think it is time this matter was attended to. Petitions have been forwarded in the hope of gaining redress for this long felt want. The Council is deaf to all entreaties, but if that Council would still retain the support of those whom this question concerns, it is respectfully solicited to attend to its duty at once and to-day.

Mr. Chas. Eagle, of Vail's Point, is to the fore with a wonderful barley crop this year. He took 300 bushels of number one barley off a five acre field. Talk about your Manitoba! There's nothing ahead of the five old township of Sydenham.—[O. S. Advertiser.]

S. J. Dixon wants permission to cross the St. Lawrence River to St. Helen's Island on a wire, wheeling a man in a wheelbarrow.

In one district of Manitoba a field of oats has yielded 100 bushels to the acre.

### CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. BROWN, 320 Powers Block, Rochester, N. Y. 13Mar2091
