The Safest

AND most powerful alternative is Ayer's Sarsaparilla. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly.

Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wiggs, Arkansas.

Proton Station.

From our own Correspondent.

Several are leaving this depot to indulge themselves in the gorgeous scenes of the great industrial exhibition.

Mr. George Binnie has laid his Armstrong reaper to one side and has taken to himself a binder.

Mrs. Coleman, of Detroit, is visiting at Mr. J. Wurts.

Miss Maggie Parks spent last week with friends in Feversham.

Messrs. R. & A. Neilson have increased their granary accommodations by elevating it.

Miss Maggie Duncan, who has been visiting friends in Muskoka for the past five months, has returned to her parental home. No place like home Maggie.

If opposition is as it is said to be "the life of trade," blacksmithing will surely become a leading industry in our little town in the near future when Mr. Howel, of Kimberley, gets his shop completed which is now under construction. The more the merrier D.

The happy home of Mr. John Sanders was recently made happier by another additional member, viz., a young daughter.

Mr. Jacob Still paid us a flying visit last week.

Two of our enterprising young lads living not further than the length of a thousand of bricks off the village, entered the woods one evening last week with the intention of constructing a dead-fall which they succeeded in doing after a brief scrutiny for the most available extremity of the bush. However the construction required more time than they had granted for it, and when it was completed it had grown quite dark. Shouldering their axes they started direct as they thought for the fields from which they had entered. After travelling a long ways in that direction and without effecting release from the intense jungle that surrounded them, they called aloud thinking some one might hear them and take pity on their mournful cries. Whoo-whoo-oo-whoo-oo retorted a shaggy old owl. The boys began to laugh all over their face, thinking they had got a reply, and started in that direction. Shortly they called again. Whoo-whoo-oo-whoo-oo, interrogated the owl a second time, and so emphatically that the fortunates identified their spurious guide and had to go it at random again, which they proved to be the best way, for ere many minutes elapsed they reached the fields, and glad enough they were of it, but sorely discomfited at the very idea of the baste.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp naming this paper, W. A. NOYES, 220 Powers' Block, Rochester, N. Y.

Inistige.

From our own Correspondent.

Mrs. Lonsway is much better at the time of writing, but her case is most critical yet.

Miss Emma Moore returned from Toronto on Friday last.

Mrs. Henderson, of Pricerville, paid her daughter, Mrs. Geo. Moore, a visit on Monday last.

A large number from here are taking in the exhibition this week.

Mr. Richard Ludlow, dentist, of Mitchell, Ont., who has been visiting his aged parents here, returned on Tuesday last.

There is a man in this vicinity who does a good deal of shooting during the hours of the night, he says, "to protect his orchard from apple thieves," but we say that he should be careful in what direction the muzzle of his gun is directed, as persons who may be passing, who don't know either him or his orchard, don't feel very safe when the buck shot is flying around their ears.

A few favorable days will make harvesting in this vicinity a thing of the past for another year.

Mrs. W. Northcott, who lives near McCrea's church, 10 con. Clarke, has lost her arm and will probably lose her life, through the scratch of a cat. It appears Mrs. Northcott was sitting in a chair with the cat on her knee, and in pushing it off received a slight scratch on the hand, which almost immediately began to swell. In a few days mortification set in, and the attending physician found it necessary to amputate the arm below the elbow. Mrs. Northcott is now lying in a very low state, it being hardly expected that she will survive the shock of the operation.
