**Mount Zion.**  
From our own Correspondent.  
The time of festivals has come again. The turkeys and geese are being beheaded, and the little children are patiently waiting for old Santa Claus with a full stock of toys. I hope, Mr. Editor, you may enjoy yourself in abundance. We mean to do it here. Turkeys and geese are a good crop this year.

Municipal elections are being carefully discussed in this part. We believe Mr. Thompson is to have strong opposition in the coming election, but we think it would not be easy to get a man better qualified for the business than Mr. Thompson.

Waiter and Robert Taylor have secured a job of cutting wood from Will Love.

Mr. McCuaig, of Proton station, has purchased ten acres of swamp from Thos. Sheridan and is rushing business in his line.

Will Goodfellow, of Kleinburg, is visiting friends here.

The special quality of Ayer's Hair Vigor is that it restores the natural growth, color, and texture of the hair. It vitalizes the roots and follicles, removes dandruff, and heals itching humors in the scalp. In this respect, it surpasses all similar preparations.

**Vinegar Hill.**  
From our own Correspondent.  
Mr. Editor, I am not dead, but silent for the want of news.

R. J. Allen is returned home after being away for some time in the Northwest. We are glad to see his pleasant face again. He has comfortably settled on his farm near here.

Mr. John Fawcett has purchased another farm. We think he intends his boys to be tillers of the soil.

Mr. Kernaghan has been laid up with erysipelas, but, we are glad to say, is quite recovered. B. Wilton has also been very poorly for some time.

Master James Fawcett, son of Mr. Irwin Fawcett, killed a large raccoon that weighed 17 pounds. We wish that some of the many hunters that are tramping around would succeed in killing that wild cat that we hear so often. It makes the air resound with its awful cries.

**NOTICE!**

To young men desiring to learn the art of scientific cutting I have decided to open a night school for that purpose, to commence on the first day of January, lasting through the winter months. I will guarantee to learn any smart young man in from one to two months the art of cutting, so that he will be able to command from 30 to 40 dollars a week salary in any city in Canada or United States. Now, farmer's sons, everybody, don't miss this splendid chance. You will pay in the city \$100 and \$50 for board while learning to cut. I will make the price in reach of every young man. My system of garment cutting is the only complete system of actual measurement ever produced where every measure taken can be applied to the draft. As to my ability as an eminent scientific cutter I can give testimonials from some of the leading men in Canada and United States, having served a long term at the tailoring in England, in all thirteen years, having taken my diploma as a cutter in London, England, 7 years ago. I will defy any cutter in Canada to compete. Special terms with Tailors that have systems that don't prove successful. All intending to take advantage of this splendid chance would do well to come early or correspond by mail, as I will only take a limited number of pupils. Address all letters to
