Maxwell.

From our own Correspondent. We have been wishing for snow for some time, now we are wishing for a little less in places.

Quite a number in and around Maxwell are suffering from the grippe at present. Dr. Scott is very busy and we hope he will be successful in destroying the old fiend Grip, as he was when it visited us before.

The concert is over, about \$30 was made and everyone had a good time. The music given by the local talent was simply grand, and is a credit to those taking part.

Mrs. Shea and family arrived some time ago. We hope they will spend many happy days in Maxwell. Work is plentiful for Mr. Shea thus far and will be more plentiful as he does his work in first-class style every time.

Some of our boys are gone to work in the shanties, where they find a warm place at present.

Teacher and scholars have been very busy lately owing to the promotion examination.

A portion of the the roof of Mr. Emerson's house was burned last week, but the fire was put out before much harm was done.

The Presbyterian congregation are expecting a young man as their minister for a time.

Miss Brownridge, of Thornbury, has been visiting friends here for some time.

Mr. Andrew Blakely gave us a pleasant call last week.

[The above was storm bound last week—Ed.]

LATER.

Mr. Henry Field and Mrs. John Madill are dangerously ill at time of writing.

On Wednesday of last week Mrs. Williams and Mr. Wm. Couits were united in the bonds of matrimony. We wish them every success.

McIntyre.

From our own Correspondent.

As was reported in this paper last week Archy McPhail had received such injuries as would cause his death. His injuries were received from the sleigh upsetting and throwing a barrel of salt on him causing internal injuries which caused his death on last Thursday morning. He was about 39 years of age, and highly respected. The remains were interred at McIntyre on Saturday. The family have the sympathy of the entire community in their sad bereavement.

Miss Flora McIntyre returned from Toronto last week to visit her parents.

Miss Mary Robins is visiting at her uncles in Thornbury at present.

Mr. John Bason, from Essa, is visiting at his uncle's, Mr. Potts, at present.

Mr. James Potts has been appointed township auditor. People can rely on the accounts of Osprey being satisfactorily audited.

Inistioe.

From Our Own Correspondent.

Mr. and Mrs. Fowler, and Miss Hustain, of Swinton Park, were the guests of Mr. Walter Nicholls one day last week.

Mrs. Thos. Hutchinson is sick with the grippe. Dr. Greenlaw, of Dundalk, is in attendance.

Mrs. H. Gardiner, Salvation Army captain, of Orillia, is visiting her parents here, Mr. and Mrs. Walter Nicholls.

Mrs. Henry Armstrong, in company with her sister, Miss Boyd, and her daughter Maud, arrived from Owen Sound on Thursday last.

Mrs. Hugh Hunter's baby died last Wednesday. The funeral took place on Friday to the Inistioe cemetery. The Rev. G. Cobblestick was the officiating pastor. We are sorry for, and extend our sympathy to the bereaved parents in this their hour of loss and trouble. The flower that bloomed but for a season, has only been taken across the stream of death to bloom for ever in eternal day.

Mr. Joseph Strain sr., is dangerously sick, and ere this reaches the reader he may have passed to the reward of the righteous. He is however a little better this morning.

There will be an awful clatter of marriage bells in the near future. The river and Flesherton are concerned.

Feverham News.

From our own Correspondent.

In regard to the mill question, work is progressing very favorably. Mr. W. Ross arrived last Monday and is now busy pushing work, so that very soon we will have the mills running again.

We have so far escaped la grippe and we are glad to say that Mr. W. Mullen is some better.

We beg leave to offer objections to

Eli taking his teeth out on the street, thereby causing three ladies to look for safety on top of a lumber pile.

Mr. Boland, of Markdale, paid our town a visit last week and culled Joe's pile of lumber, which will enable Joe to size up his pile. Mr. Boland came very near having to go home without a robe as we understand that two young men borrowed it from the hotel stable, but our genial host went after the culprits and returned in triumph with the robe.

[Too late for last issue—Ed.]

LATER.

What a rush we are having in our town.

Mr. H. Hudson is fast nearing the end of his contract and we think he is making a good job, yet it would have paid the directors to had a proper waste gate, as we know for a fact, had there been one in the old dam it would have been standing yet, still five heads ought to be better than one.

Joe had a racket with Mr. Grip, and although he got a little the worst of it yet we are glad to see him at work again.

Rev. Mr. Ross is at present filling the vacancy caused by the translation of Rev. Mr. Hughes.

Mr. J. Taylor was instructed to make further arrangements for the keep of Margaret McInnes, indigent, and report at next meeting of council.

NOTICE!

To young men desiring to learn the art of scientific cutting I have decided to open a night school for that purpose, to commence on the first day of January, lasting through the winter months. I will guarantee to learn any smart young man in from one to two months the art of cutting, so that he will be able to command from 30 to 40 dollars a week salary in any city in Canada or United States. Now, farmer's sons, everybody, don't miss this splendid chance. You will pay in the city \$100 and \$50 for board while learning to cut. I will make the price in reach of every young man. My system of garment cutting is the only complete system of actual measurement ever produced where every measure taken can be applied to the draft. As to my ability as an eminent scientific cutter I can give testimonials from some of the leading men in Canada and United States, having served a long term at the tailoring in England, in all thirteen years, having taken my diploma as a cutter in London, England, 7 years ago. I will defy any cutter in Canada to compete. Special terms with Tailors that have systems that don't prove successful. All intending to take advantage of this splendid chance would do well to come early or correspond by mail, as I will only take a limited number of pupils. Address all letters to
