B. G. Evans—The Store on the Hill.

Hopeville.

From our own Correspondent.

A meeting of the "Chosen Friends" is being held in the village to-day.

Mr. and Mrs. W. J. Blakeston were visiting at Mr. Richard Parslow's. Miss Ella Husband and Miss Jane Porter are also the guests of Mr. Parslow.

Mr. McCutcheon, principal of Hill-side Academy, has given up his charge and is to leave on March 17th. We are sorry it is so, as the pupils seem to like him, and in fact we have not heard murmuring from any quarter.

The section has decided to build a new school next summer. Mr. Geo. Parslow is the contractor. The site for the new school is still a bone of contention, but is, we believe, to be settled by a re-voting upon the matter by the rate-payers next Tuesday.

Mrs. McLean, sr., has received a severely bruised face, by being struck by a door which was blown shut by a gust of wind.

Mr. Robert Black, who for over two months been a prey to la grippe, is slowly recovering and is able to by around a little.

Messrs. David and Hamilton Allen, are intending to leave for the United States soon.

We learn Mr. Husband is going to commence a protracted effort in the M. E. church this week.

We noticed Mr. Archie McMillan coming in the village with a broken sleigh lately. Don't load as heavy next time Archie.

Mr. Ridal gave the young folks around the opportunity of enjoying themselves in a social gathering. The occasion being the birthday of host, which only comes once in four years, Feb 29th.

Mr. Cooper has rented the farm of the late Alex. McDonald.

Mr. Peter Fettes shows signs of being one of the most prosperous farmers of Proton. He has just bought the farms belonging to Mr. Beaton and Mrs. Graham which makes 500 acres now in his possession.

We notice the man with the big tin box going from door to door telling the people the value of their possessions and how much rent the municipality requires this year.

Mr. Henry Milner is taking out timber for a woodshed.

Miss Wilson is visiting at Mr. Milner's. Is there not a possibility that she may yet share the benefits of the woodshed?

Maxwell.

From our own Correspondent.

We are much pleased to know that Mr. Wm. Scott is improving; but sorry that father's Kerton and Morrison are not so.

Last time we were wishing for a harness maker, but instead we got a young doctor. Dr. Scott does not seem to feel alarmed about the opposition, but thinks he may be given extra work.

Mrs. Scott, Sr., of McIntyre, has been visiting with her son here for a time.

A Young Men's Conservative Association was organized here on Tuesday, 1st of March. Short addresses were delivered by Messrs. Kells, Bolton, Scott and Richardson. It was agreed upon to have a debate on two weeks from the night above mentioned.

We will have no early chickens this year. Why? Because Mr. R. comes from Flesherton very often and will not leave any eggs.

Mr. John Ross has purchased the Heron farm, and has now one of the finest farms in Osprey.

Mrs. H. A. Brown has been ailing for a time but has almost recovered.

Feverham News.

From our own Correspondent.

At a meeting of the directors of the Osprey Milling Company, it was decided to put in another water wheel for the sawmill. Messrs. Ross and Johnson are now busy completing the job. Mr. George Whewell secured the contract of placing the stringers

from saw mill to south bank for \$20. Last Sunday Mr. Sykes' horse got loose from the cutter and most of the harness, and started on a tour of inspection. He was caught before doing any damage.

Mr. G. Miller and Mr. W. Hollinghead have both lost heavy among their sheep through disease.

Mr. Williams, of the Collingwood Bulletin, paid a business visit to our town last Saturday. Things are a shade dull in his line.

Mr. Moore, of Owen Sound, was here last week looking up jurors.

We understand Mr. F. C. Bruce has purchased a hay scale. It is much needed.

Mr. R. T. McGirr's trotting horse, "Black Diamond," has been very sick. He is now about all right.

Our Priceville Budget.

From our own Correspondent.

We have heard several farmers remark that "feed" is getting pretty scarce with them. If so the numerous stacks of last year's hay will come very useful. No doubt hay will be a scarce article this spring as there has been a brisk and steady demand for it all winter, consequently a large quantity has been disposed of at a good price.

It was reported the forepart of last week that Mr. Donald Gilles, a West End resident, was dead. However upon investigation it was found that such was not the case as Mr. G. is still living and likely to live although somewhat under the weather lately.

We understand that widow Kennedy is in very destitute circumstances and has to depend entirely upon the charity of her neighbors for the necessities of life. However she has a son who could, if so inclined, earn his own living at least, instead of lounging around the street, a burden to the villagers and his mother.

Mr. Thos. Rossin received a severe blow on one of his visual organs, from a chip last week, resulting in causing him to quit work for a few days.

Mr. Hector McDonald is busily engaged in taking out timber for a barn, 45 x 75, for Mr. Robert Blakeston.

Miss Ella Husband is rusticated among friends in Proton this week.

Mr. and Mrs. W. J. Blakeston spent Saturday and Sunday of last week in Swinton Park.

Mount Zion.

From our own Correspondent.

W. H. Taylor's sale came off last Friday and was well attended, things going at a good price.

Mr. Henry Wright, of Wareham, will shortly move to the farm.

Mrs. Cornfield is a little better this week.

Mount Zion was represented in court in Flesherton by Messrs. Bolton and McNevin. We understand Mr. McNevin won the case.

Quite a number of people here are complaining of colds just now.

To the Editor of The Advance.

DEAR SIR.—Your article in last week's issue of The Advance, re increased grants to electoral district agricultural societies. I think is quite premature, and very unsatisfactory to me, however good your intentions might have been. I am quite selfish enough to take all the credit due me if we have succeeded in getting an increased grant to our society, and will feel a certain amount of pride for the officers of our society, the scheme having originated with us, and if your announcement be correct, we have pushed it to a successful issue. But you have given too much credit to myself and thereby ignored the credit due to other officers of the society who have been equally energetic in trying for this increase grant, and most especially our esteemed president, whose influence and perseverance in this matter cannot be too highly appreciated by the society.

S. DAMUDE,
Sec. E. G. A. S.
