TAIL TWISTING.

The American government is at present busily engaged twisting the British lion's extensive tail. Unlike David of old, they always prefer to sneak around behind and get as far away from the jaws as possible. The eagle has been screaming and hollering for several months as though every pin feather and all its nice soft down were being plucked from its delicate body. The presidential election is on, and those five words explain the terrible condition of affairs. President Harrison is, however, well known to entertain an innate hatred of British institutions, and it is possible that his fanatical hatred may lead him to put in force the power lately vested in him of enforcing what is called a "retaliatory" measure against Canada. If he does he will probably discover that the "tail" can take care of itself without the interposition of any other bodily member. And this portion, at least of the "tail," will never be severed from the body by Uncle Sam's frenzied political jerks. The threatened "retaliation," however, has not as yet materialized, and it is possible that it never will. The same bluster was indulged in at the last Presidential campaign, but Mr. Cleveland refrained from exercising his powers. Possibly Mr. Harrison will be as wise. Yet, if he should do so, in the words of the Toronto Saturday Night, "Let him! Surely it is time that the Canadian people should allow the experiment of retaliation to be worked out, so that we can see the size and strength of the bug-a-boo which so frequently threatens to come out of the dark and devour us. If the existence of Canada on this continent is a great geographical and historical impertinence, as we are told it is, if we live on the breath that comes out of the waste pipes to the south of us, the sooner we discover our dependence the better." The Democratic and Republican press are united in their invective against Canada. It is now in order for both parties in Canada to unite and strengthen the hands of those whose duty it is to see that the ridiculous "jim crow" antics of American coercionists should not produce anything better than dead sea fruit.

MANITOBA SEPARATE SCHOOLS MUST GO.

Judgment was delivered in England on Saturday last by the Imperial Privy Council in the case of the city of Winnipeg v. Barret, involving the status of Roman Catholic separate schools, and the city of Winnipeg v. Logan, involving the right of the Church of England to maintain separate schools. Both of these actions were decided in favor of the city of Winnipeg. This decision, which is a reversal of the Canadian Supreme Court verdict, came as a great surprise to many and is a decided victory for the Greenaway government. The Manitoba legislature passed a bill abolishing separate schools in that province, and a test case was made by Messrs. Barret and Logan, which was carried to the highest tribunal of the realm and there decided as we have said. The late elections in Manitoba were practically carried on this one issue, and the result will therefore be

very acceptable to the people of that province. Still, it is scarcely probable that the Roman Catholics will tamely submit without at least one more effort to receive what they deem to be their rights, and that may be in the form of a demand upon the Thompson-Abbot government for remedial legislation which lies within their power, or an appeal to the federal authorities for an amendment of the British North American Act. The Ottawa government, however, will scarcely dare to interfere in a matter which the Privy Council have just decided was entirely within the jurisdiction of the Manitoba Legislature, and not an overriding of the B. N. A. Act.

Mr. E. E. Farrar has resigned from the editorial chair of the Globe. It is not stated what situation has been offered him, but is it not just possible that he may once more take a chair on one of the New York dailies in order to correct a few more recipes for picking "ripe cherries?" They seem to be favorite reading with the Americans at present.

It is really too bad of monstrously big Canada to keep jumping on her little inoffensive neighbor, the United States of America, as she has been doing. We are now being told that Canada is crushing the commercial life out of her neighbor; that Canadian railways are taking all the carrying trade away from the great Americans; and that Canada is generally injuring the unfortunate country to the south of us to an alarming extent. Really it is too bad. Canada shouldn't be cruel just because she happens to be big.—Spectator.

Slain by the Sun.

To the Editor of The Advance.

DEAR SIR,—Perhaps some of your readers may be interested to know something of the roasting heat that has hovered over this city of Chicago since Sunday last. At 3 o'clock p.m. on Sunday the thermometer registered 94. From Sunday to Wednesday evening it ranged all the way from 75 to 96. The heat was most suffocating and many persons dropped on the sidewalks and in the streets never to rise again. The following is the "death and prostrate" list as given by the Chicago News Record.—

Sunday, prostrated, 9; fatal, 4.
Monday, prostrated, 25; fatal, 13.
Tuesday, prostrated, 67; fatal, 17.
Wednesday, prostrated, 61; fatal, 30.
Total prostrated, 162; total fatal, 64.
The mortality statistics for the week will not be made out until next Monday, and the health department has made no estimate of the number of deaths in the last three days. It is announced, however, that the number will be very large—perhaps approximating 1,000—and the greatest increase is shown in cases of cholera infantum and typhoid fever, the former having taken a dangerous spread since last week, and the latter keeping up its steady record. Every hospital in the city and the morgue is packed with the dead and dying.

The mortality among horses on Wednesday to 3 o'clock p.m. had reached 97.

To-day (Thursday) a cool breeze is blowing from the north-west and the thermometer registers 64.

Mr. Editor, your paper is very interesting to me and I spend a most pleasant half-hour each week among your eors. and the news columns.

J. F. H.
Chicago, Ill., July 28, 1892.

Flesherton Station.

By Our Reporter.

Your readers have not been afflicted with any news from here for some time.

Miss Monkhouse, of Stouffville, is visiting at Mr. Geo. McFarlane's.
Miss Snowden, of Guelph, is visiting at her uncle's, Mr. Alex. Stewart (cousin of the hills).

Mrs. Alex. Davidson and her daughter, Jessie, and Irene, of Mamistique, Mich., U. S., spent a few days visiting Jno. A. Black.

Among those who "took in the excursion on Saturday last to Brampton were: Mr. Sandy Stewart, Miss Belle, John Muir, Miss Sarah Ann, Donald and Miss Mary Baxter. No doubt they had a pleasant trip.

Mr. Jas. Innes has purchased the harness-making business formerly carried on by Mr. Alex. McFadyen, Sandy having gone into partnership

with Sandy Hannah in the livery business.

Still another change in the Railroad Hotel. This is the fourth change of landlords since Jan., 1892. Mr. Ludwig Yirrst took possession two weeks ago, and is going in to win. Mr. Dan McLean has moved into Priceville and is going to live private for a while. Mr. Yirrst brought all his help with him, with the exception of Geo. Parks, who still holds forth as ginslinger.

The lightning has been playing kind of funny pranks around here. Mr. George Paterson's barn was struck and considerably damaged, splitting two rafters, a post and shattering the plate, while Mr. Fletcher's house got a clip on the window, smashing the frame into splinters and tearing out the window sill without breaking either the sash or glass.

Eugenia

From our own Correspondent.

Mrs. Plant was taken ill very suddenly on Friday last with inflammation of the lungs. It is hoped she is now on a fair way to recovery.

Mr. Smart came near having a serious accident in his hay-field on Wednesday last. His team got frightened at the strcm that was coming on and ran away upsetting the load of hay on top of his son who was building the load; fortunately he escaped without any serious injury, although the wagon was a complete wreck.

Mr. and Mrs. James Purvis, of Toronto, were visiting at Mr. Wm. Purvis' during the past week.

Mr. Wesley Latimer, of Toronto, is visiting his parents here.

Mrs. Slack, of Toronto, is visiting her sister, Mrs. Plantt.

The weather has been very hot during the past week, accompanied by some severe thunderstorms. Fortunately there has been no serious damage done in this neighborhood. When we read of the destruction of property and loss of life in other places by storms, we surely feel we have great reason to be thankful for being so highly favored in this part of the Dominion.

Haying is pretty well advanced but the crop being so heavy and the weather so showery, farmers have been delayed somewhat with their work.

The beautiful poplar trees in front of the residence of Mr. Wilson, near Salem, were completely shattered by lightning during one of the heavy thunder storms recently.

Feversham.

From our own Correspondent.

Merrily rang the wedding bells yesterday (Wednesday) morning when Mr. Joseph Irwin was united in marriage to Miss Lizzie M. Brown, both of Feversham. A large crowd answered to the call of invitations and met at the residence of the bride where the Rev. Mr. Woodger at 10.30 a.m. repeated the words that made them one (but which one is yet to be decided). Many beautiful gifts were received by the couple which shows the high esteem in which they are held. After partaking of a sumptuous feast the young couple started on their wedding tour for Fergus by way of Toronto, accompanied by best wishes from a host of friends.

While Mr. John Paul and wife were about to make a call on Mr. Weldrick on Monday evening last they mistook the ditch for the road, the result being that both were upset, the horse getting away and had not, at time of writing (Tuesday morning), been seen or heard of.

Ernie Duckingham, a lad of about 12 years, while loading hay lost control of the horses which started to run away, throwing him off the load and severely injuring him.

Some of the Singhampton gents (the names of whom we withhold) while passing through Feversham from Eugenia did their utmost to drive over the Salvation Army while the latter was having their evening march. When young men cannot keep sober they ought to have a caretaker.

McIntyre.

From our own Correspondent.

Haying is nearly finished, and judging from the many large stacks in the fields the crop has been an unusually large one. The weather has been very good and the most of it has been saved in good condition.

There has been a little excitement here during the last week owing to a number of our young men being summoned before J. R. Sing, J. P., to answer the charge of throwing stones at the hotel and store. Two of them were fined 25 cents and cost, the cost being \$1.15 each. This being the first conviction and they belonging to respectable families we will not publish their names. The habit of throw-

ing stones on these buildings and sometimes through the windows has been going on for some time, greatly to the annoyance of the occupants and seemingly much to the delight of the thoughtless youths who participate in it. It is to be hoped this will put an end to the habit.

Dan. McPhail has gone to Rat Portage to work at bridge building.

Our popular blacksmith, Mr. Hugh Roberts, had the addition of a young son to his family a short time ago.

The Markets.

Carefully Corrected Each Week.

VOTERS' LIST 1892.

Municipality of the Township of Artemesia, County of Grey.

NOTICE is hereby given, that I have transmitted or delivered to the persons mentioned in Secs. 5 and 6 of the Ontario Voters' List Act, 1892, the copies required by said section to be transmitted or delivered of the list, made pursuant to said act, of all persons appearing by the last revised Assessment Roll of the said municipality to be entitled to vote in the said municipality at elections for members of Legislative Assembly and at Municipal Elections; and that said list was first posted up at my office at Flesherton, on the Fourth day of August, 1892, and remains there for inspection.

Electorates are called upon to examine the said list and if any omissions or any other errors are found therein, to take immediate proceedings to have the said errors corrected according to law.

4aug21 W. J. BELLAMY,
Clerk of Artemesia.

Dated at Flesherton, 4th August, 1892.

PILEKONE
A POSITIVE
CURE FOR
PILES

Application painless and easy. Relief immediate. This preparation fills a great and long felt want among those who suffer from piles. It is a remedy of the highest merit, effective and reliable, and has more than met the anticipations of those physicians who have used it in their practice. PILEKONE IS A POSITIVE CURE when other treatments fail to relieve. Testimonials furnished. Price \$1. For sale by druggists, or by mail on receipt of price.
W. T. STONER, Manufacturing Chemist, 184 Dundas street, London, Ont.

THE REASON WHY

WE ADVERTISE IS THAT WE WISH TO LET THE PEOPLE

know where they can get the best value for their money. Our stock is carefully and well selected, for we

BUY

only what gives the best wear. A large stock of Rubbers and long

BOOTS

will be on hand for fall and winter use. We have a well assorted stock to pick

FROM.

Repairs and custom work attended to as promptly as ever. If you want anything in the foot line call on

JOS. SMITH.
