THE LOCAL NEWSPAPER.

The local newspaper has a field all its own which cannot be cultivated by the metropolitan daily or weekly. That field is, of course, limited, but it is not confined to one township, as an occasional individual appears to imagine. It is the duty of the local paper to collate and present all the news of its district and to assist in the securing of good municipal government. Its duties also lie in the presenting of matter acceptable to the majority of its readers, at the same time knowing and admitting that there is a minority which cannot be satisfied. These unsatisfied people sometimes rush to the office and stop their copies of the paper—deprive themselves of the knowledge of how affairs are progressing in their township for the sake of getting a dig at the editor, or in an every-day phrase "cut off their noses to spite their faces," but such a procedure only serves to cause a newspaper proprietor to look with supreme indifference upon such people. He does not mind their crochety moods in the least. At the same time "kicking" is a legitimate occupation, and if done in a business-like way, is not void of result. If a local editor has given cause for grievance he is always amenable to reason, and willing to talk it over with cool headed people, but hot-headed crankiness he snaps his finger at. It is seldom, however, that he meets an unreasonable man who is not willing to give him a chance to explain his position. In our experience during the past five years we have only met with two or three.

Rheumatism Cured in a day.—South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Warranted by Richardson & Co.

The Railway Question.

To the Editor of The Advance.
 DEAR SIR,—It is interesting to note that further railway accommodation is engaging the attention of numbers of the business men of this section of the country at last. Late, but better late than never, perhaps. Report says it has been commented upon that Eugenia has not been represented at the meetings held lately at Kimberley and Priceville, in regard to railway matters, and therefore is indifferent in the matter. Go on gentlemen, we watch with keen interest the outcome. Yet please turn over the files of the Advance of some years back, and notice that your humble servant, at Eugenia, tried to draw the attention of the farmers and business men, east and west, advocating the advisability, and showing forth the actual need of this very line now considered at the railway meetings lately held, only with this difference, and to my mind an all important difference: Let the road be one from east to west, or as nearly so as practicable. If we speak at all we still hold ground for a line connecting say with the Midland, coming round the southern end of the Georgian Bay, taking in its route, say Collingwood, Singhampton, Feversham, Eugenia, Flesherton, Priceville, Durham, Hanover, Walkerton, and so on to Kincardine. Here note the immense waterpowers awaiting development along this route. Such a road, a glance at the map will show, crosses between

Port Hope and Kincardine, a dozen other lines, which would be immense feeders to the new road. Apart from the fact that then from Port Hope eastward to the end of the Continent is a continued track, still we respectfully submit a little road from Kincardine to Flesherton or Markdale and then down the gulch to the gang plank run out in the bay at Thornbury, would not serve the best interests of the county.
 Yours, F. T. C.

8th Line, Osprey.

From our own Correspondent.
 As our burg has not been represented in your valuable paper for some time, I thought it part of my duty to give you some items now, for I know that the readers of this paper always look for something from an important place, such as the 8th Line of Osprey is.
 February storms are now at hand and they have drifted the roads to such an extent, that it is almost impossible to travel on them, still our wood-makers persist in driving their teams on the side-road and in this way keep it opened.
 A number of our people took in the Orange concert at Eugenia Falls on Wednesday the 1st inst. We are told that it was a grand success, and we do not doubt it, as some of our young men got home late that night and one did not make his appearance till late next night. I wonder where he was? Not lost, surely.

Long hast thou fill'd our cup with joy,
 Till brimming it could hold no more,
 But when within that cup thou dropped
 This precious pearl, it sparkled o'er.
 Yet tender blossom, thou must bear
 This life's hard winter for a while,
 Must shrink before its chilling blast's
 And wait and long for summer's smile
 Oh Father! give this little lamb
 Warm shelter in the peaceful fold,
 Within the gentle Shepherd's arms,
 Less keenly will she feel the cold.

Constable Russell had Prof. Cunio before the P. M. on Monday evening for violation of the Sabbath. It seems Mr. Cunio was kept busy until 12 o'clock on Saturday night and had one of his customers half shaved when the clock struck 12 and the electric light went out. He then got a lamp and completed his job. The case was dismissed, the magistrate holding that if a man was half shaved on Saturday it was a work of necessity to finish the job even on Sunday.—Bruce Herald.

AYER'S Sarsaparilla

Is superior to all other preparations claiming to be blood-purifiers. First of all, because the principal ingredient used in it is the extract of genuine Honduras sarsaparilla root, the variety richest in medicinal properties. Also, because Cures Catarrh the yellow dock, being raised expressly for the Company, is always fresh and of the very best kind. With equal discrimination and care, each of the other ingredients are selected and compounded. It is
