Miss Chislett, of Ravenna, is the guest of Mr. F. T. Karstedt.

Attemesia township council meets on Monday next, 6th March.

Bro. Mitchell, of the Durham Chronicle, visited in town on Monday.

Miss M. Richardson is in Toronto this week attending the annual millinery opening.

Mr. J. A. Imrie, of the Toronto type foundry, called upon The Advance on Saturday.

Mr. and Mrs. Jackson, of Stayner, were visiting with Mrs. Jas. Beecroft last week.

Miss Hatie Smith, who has been visiting friends here for some time, left for Buffalo on Tuesday.

Another wind and snowstorm blocked up the roads on Tuesday so that the Kimberley mail did not get through.

Boots & Shoes. M. Richardson & Co have some Special bargains to offer in solid leather foot wear—see them.

Owing to a snow plough being off the track at Kleinburg our Toronto mail did not arrive until five o'clock on Tuesday.

Spring Prints. First consignments just opened at M. Richardson & Co's—More beautiful than ever the ladies say.

Rev. A. W. Tonge and Miss Christoe are delegates this week to the Epworth League convention in Toronto. They left on Monday.

Owing to a delay in the mails we have been unable to get several budgets of correspondence in type for this issue. They will appear next week.

M. Richardson & Co. are selling salt at same advance on cost that they have had for four years past, for cash 95 cents at station, \$1.05 at warehouses Flesherton.

A couple of gentlemen have called during the past week to state that the salt delivered at this station did not cost \$1.08, as reported, but \$1.07 per barrel. We are glad to make this correction.

The Eugenia Hoop & Veneer company made their first shipment of manufactured goods this week, consisting of two car loads consigned to a firm in Toronto.

Mr. Jonathan Hickling, of the 8th con., informs us that there is some talk of starting a cheese factory on his farm. There is a fine spring on the place, suitable for such a purpose.

Business is quite brisk at Mr. J. E. Moore's sash and door factory. He has lately made a purchase of a considerable quantity of pine lumber from Mr. W. Best, of Wodehouse. There are four hands employed in the factory at present.

People with delicate stomachs find Ayer's Sarsaparilla agreeable to the taste, and therefore, prefer it as a blood-purifier to any other. This is one reason for its great popularity as a spring and family medicine. Safe, certain, and palatable.

As a mechanic Mr. H. Flesher cannot be excelled in these parts. This gentleman did a bit of repairing last week to one of our presses which is a credit to him as an artisan. Anyone desiring work done in the mechanical line cannot do better than apply to Mr. Flesher.

"I've tried all sorts of blood-purifiers," said an old lady to a "cutter," "and you can't persuade me that any other Sarsaparilla is as good as Ayer's." There's where she had him. She knew that Ayer's was the best—and so did he, but it paid him better to sell a cheaper brand.

The "Sons of Rest," as the unemployed style themselves, met at Mr. W. Potche's on Monday and cut several cords of wood for that gentleman. It was such an unusual thing for some of the boys to find themselves at work that they actually had themselves photographed in the act. The pictures will be kept as heirlooms in the several families so that posterity may see for itself how its forefathers toiled.

The January Century has been out of print for some time, and of the February number the publishers now have unfilled orders for more than five thousand copies awaiting a new edition. A large first edition of the March Century, containing the Reminiscences of Napoleon at Elba, will be ready on the first day of March.

Have you paid your subscription to this paper for 1893? If not please do so at once. Some weeks ago we sent out accounts to several subscribers who are in arrears, but the responses have been very unsatisfactory. We do not like to force payments, and would much rather believe that there is not a subscriber on the list who would deliberately refuse payment. But in a few instances, if this thing goes on much longer, we will be obliged to adopt this conclusion and take measures accordingly.

The Springhill Patron lodge, at Wright's schoolhouse, held an entertainment on Friday evening last which was well patronized, or in other words there was a good turnout. Good refreshments were provided. Mr. J. Black, of the station, held down the chair in graceful style. The Proton orchestra was present and rendered choice music. Mr. Thorp Wright gave a short speech on the benefits of the order. Dialogues, singing, etc., completed a very interesting programme. All were highly pleased with the entertainment. Proceeds amounted to about seventeen dollars.

A grand Concert will be held in the Town Hall on Thursday evening, March 9, under the auspices of Court Flesherton, I. O. O. F. The best talent in Canada has been secured for the occasion, including the greatest of all comic singers, Mr. W. E. Ramsay. Mr. Ramsay is without doubt the cleverest in his line. His comic songs and funny sayings meet with popular favor everywhere. Aside from the great "Mirth maker," the public will be afforded a treat in the appearance of Miss Florence Brinson, one of the leading sopranos of Canada, who is making a name for herself in the musical world. Mrs. Lena Ramsay too, will delight the audience with her piano solos, while Master Bedford Campbell the cleverest banjoist of his age in America, will no doubt astonish the audience by his wonderful playing. Altogether a treat is in store for those who attend the concert.

At a meeting held in the Town Hall on Friday night of last week for the purpose of forming a Mechanic's Institute, the following directors were appointed: President, M. Richardson. Directors, W. H. Thurston, W. A. Armstrong, Rev. J. Wells, W. Irwin, A. M. Gibson, John Davis, Thos. Clayton, B. G. Evans, W. J. Bellamy. Matters will be pushed without any delay and the organization completed. There are already seventy-five subscribers and many more have signified their intention of joining at an early day. Those who have had the matter in hand have met with the most gratifying success and a spontaneous response to the invitation to join in the good work. Those who have not done so, and desire to join, should hand in their names at once to W. Armstrong or W. H. Thurston, thereby having the honor of becoming "charter" members, as it were. The more subscribers there are to start with the more extensive will be our library. People living in the surrounding country, as well as villagers, should not hesitate to take advantage of the privilege.

WOODS.**

An escapade which has been the talk of the countryside took place on Tuesday night of last week, the principals figuring in which were Mr. Jos. Beattie and Mr. W. Galbraith, two fairly well-to-do farmers living in the Orange Valley, two miles north of this place. The two men, who are neighbors, had that afternoon driven down to Flesherton station for salt with Mr. Galbraith's team, and on their return stopped in town to discuss municipal matters and other things. It was after ten o'clock when they left for home. Upon arriving at Beattie's sideroad, two miles north of here, Mr. Galbraith, who owned the team, got off the sleigh and started off for some place, the identity of which he is not quite positive himself. He says he walked to Berkeley and back, across lots and through the bush. Mr. Beattie drove on towards home, and when opposite Mr. Burnett's residence uncoupled his bobs, leaving the hind one, with the box and salt, beside the road. He then proceeded on his journey, turning west from the Orange Valley, proceeding until he came to the railway track which he evidently thought would be a short cut home, and drove southward along the track. He had not gone far until the night freight loomed up in front of him. He says he remembers seeing "the darn thing coming," and rolled off his bob-sleigh into into the ditch, and scrambled out of the way. One of the horses was struck behind the foreshoulder and instantly killed. The other was thrown into a bank of snow and came out of the ordeal uninjured. The bob-sleigh also came out of the ditch without a scratch. A searching party found Mr. Galbraith in the early morning near Mr. Andrew Beattie's, tramping around in the field and complaining because there was no track. Altogether these two men had a rather wonderful experience. There is a slight suspicion in the breasts of many that the two were scarcely *compos mentis* on this occasion. There is little use trying to figure up what their two barrels of salt cost them. Some of our temperance societies should be able to secure a couple of candidates about now.

COUNTY AND DISTRICT.

Governor Miller received another difficult charge last week, in the person of Amos Edmunds, a violent lunatic from Allan Park, near Durham. He was committed on the 14th inst. and since that time has made several attempts at suicide, sustaining on the first occasion two bad gashes in his head by trying to beat his brains out against the cell grating. Since that he has been constantly watched. His violence is confined to attempts upon his own life, and otherwise he gives no trouble.—Advertiser.

The Banner says: It is funny how people discover the real importance and influence of a newspaper when they get into a scrape or do something they are ashamed of. They live for years without subscribing, and when asked to advertise say 'It don't pay;' but the minute they get into a scrape they rush to the newspaper and request them not to say anything about it. Or, in case of trouble in which they happen to be mentioned, then they realize immediately that the paper has a circulation, and they don't want their name spread all over. Appreciation for a newspaper should be in before you get into trouble."

The Manitoba Prohibition league convention has passed a strong resolution requesting the lieutenant-governor and the legislative assembly to enact such laws as will, under sufficient penalties, effectually prohibit the liquor traffic in that province.

A fire at Ayton last Sunday night destroyed the flour mill and one storehouse of Wenger & Bros. The fire started in the storehouse in which a chopper was run. Although strenuous efforts were made by the villagers to save the mill which stood about 40 feet distant, owing to the absence of fire protection they were unable to do so. The mill, which had a capacity of about 200 barrels per day, was one of the best equipped roller mills north of Guelph, and full of wheat and flour. The loss is a heavy one, being in the neighborhood of \$40,000, on which there is an insurance of \$18,000.

A Wonderful Medicine.

Read the following interesting testimonies:

South American Nervine, the great cure for Nervousness, Nervous Prostration, Nervous Headache, Sick Headache, Nervous Paroxysms, Nervous Chills, Nervous Choking, Hot Flashes, Palpitation of the Heart, Sleeplessness, Nervousness of females of all ages, Indigestion, Dyspepsia, Burning of the Stomach, Weight and Tenderness in the Stomach, Wind upon the Stomach, Catarrh of the Stomach, Frightful Dreams, Nightmare, Ringing in the ears, Vertigo and dizziness, Fainting, Impure and Impoverished blood, Scrofulous Swellings, Consumption of the lungs, Female Weakness, General Debility, Broken Constitution, Chronic Diarrhoea, and Debility of old age, all these and many other complaints cured by this wonderful Nervine Tonic.

Has your constitution been wrecked by an attack of La Grippe? The GREAT SOUTH-AMERICAN NERVINE TONIC will quickly restore your shattered nerves, strengthen and cure your digestive organs, regulate your Liver and purify your blood; and restore you to perfect soundness again. This great Tonic should be used after all sickness. Its powers to restore to health are simply wonderful.

Harriet E. Hall of Waynetown, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhaustive Stomach, Indigestion, Nervous Prostration and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it the best medicine in the world. I cannot recommend it too highly."

(Clipped from Advocate, Greenville, Ala., Feb. 2, 1893.)
For 27 years the ADVOCATE has published advertisements of various patent medicines, many of which were exceptionally good remedies for the diseases and ills for which they were recommended. But we have not yet heard as good report of any as we have of the Great South American Nervine Tonic, a large advertisement of which we publish on our second page. A lady subscriber in Louisville, Ky., wrote us some time ago asking to have Mr. Stewart, the druggist here, to send her a bottle for her husband. In a short time she wrote again ordering two more bottles and said it was doing her husband good. A few days since, meeting one of our principal merchants who had been in bad health many months, we asked him how he was getting on; He said he was getting better every day, that he had found a patent medicine that he had taken taken several bottles of it and was going to continue it, for he says he would not take a thousand dollars for the good it has already done him. Inquiring what kind of medicine it was, he told me it was the South American Nervine Tonic. Hearing so much about this great remedy we interviewed Mr. Stewart, and he tells us that he can scarcely keep a supply on hand as it sells as fast as he can get it, and all those who use it speak in the highest praise of it. He says he has sent it to Advocate subscribers in Florida, Kentucky, North Albany, and other places. This is no paid notice, we publish it simply as a tribute to a deserving remedy, and if it is doing good we are glad that it is in the reach of our sick and suffering people.
