The new year was ushered in by ringing of the Methodist church bell, after which the band discoursed sweet music on the square, playing seven pieces in excellent style.

A January thaw is always more productive of colds and coughs than a January freeze. Then is the time Ayer's Cherry Pectoral is needed and proves so extremely efficacious.

Dr. Shields, an eminent physician of Tennessee, says: "I regard Ayer's Sarsaparilla as the best blood-medicine on earth, and I know of many wonderful cures effected by its use."

Here is an arithmetical problem not hard to solve:—A farmer living not far from Markdale, desiring to save a few cents, sent the following telegram to a physician acquaintance in Philadelphia: "Lungs filled up with cold. Send prescription" The reply came back, "Call in your family physician." The telegram cost one dollar. How much did he save?

Mr. Irwin, principal of our public school, is in Toronto this week with Mrs. Irwin, who had been ill for some time of a tumor. She underwent an operation on Monday and is getting along nicely.

At the last meeting of L. O. L. 244, Flesherton, the following officers were elected for the ensuing year:—W. M. Wm. Sharp; D. M. J. W. Large; Chap., J. Hales; Rec. Sec., W. J. Bellamy; Fin. Sec., R. N. Lyons; Treas., J. A. Blakely; D. of C., A. Ruedger; Lecturer, W. Wright; Committee—Dr. Christie, W. Davis, J. Lyons, J. Watson, R. Barrall, Inward Tyler, Geo. Best.

A Feversham merchant stopped his paper because our correspondent out there gave his name three weeks ago among the list of removals which had taken place there. The item quoted

Scripture, and the man by some abstruse argument decided that "Israel" was applied to himself, while as a matter of fact there was nearly a dozen other business men referred to at the same time.

It is hoped and believed that candy throwing at entertainments in this town has received its death blow. At the Presbyterian anniversary Rev. Mr. Wells gave the candy-throwing geniuses a scathing lecture, and threatened to have them brought before the magistrate.

Farmers' Institute.

The Farmers' Institute meeting in the Town Hall, Tuesday, was well attended in the afternoon and evening. The forenoon meeting, as usual, was small. At that session Mr. T. G. Raynor gave a short address on "Every man his own horse doctor," which was full of good points and information.

He added some valuable hints with regard to the delivery of calves and after treatment of mothers. The meeting was then adjourned until afternoon, when the audience was much larger.

At night the hall was filled with interested ladies and gentlemen. The three members of the deputation spoke, also several local men, and at intervals the band discoursed music. Never was the disadvantages of a small hall more clearly demonstrated than when the band played.

The music, although most excellent under Prof. Beardon's leadership, was too loud for the building, and roared through one's ears at times like a West Indian cyclone. The music was, however, highly appreciated by all who had good healthy ear drums.

great length of time without its existence being discoverable. They were experimenting upon several cattle so affected.

Mr. Raynor followed with a rattling good address upon the farmer's occupation, and Mr. McNish with a few words upon butter making.

The local speakers were Dr. Christie, M. Richardson, W. G. Pickell, and Thorp Wright. The reeve occupied the chair throughout the day.
