A level-headed exchange remarks: We are told that the Latin word editor means to eat, but in this country it means to scratch around like the dickens to get something to eat.

Judging by the weather of the past few days spring has actually arrived. The song of the blackbird and robin are welcome sounds, but there is a latent fear in every breast that we may have to pay up arrearages when the call would be disastrous to crops.

"Success is the reward of merit" not of assumption. Popular appreciation is what tells in the long run. For fifty years, people have been using Ayer's Sarsaparilla, and to-day it is the blood purifier most in favor with the public. Ayer's Sarsaparilla cures.

The Jubilee colored singers performed before a fair-sized audience in the Methodist church on Friday evening last. The musical part is spoken of as having been very good, and the vocal part as fair, but not better than we have heretofore had in Flesherton.

The base of Ayer's Hair Vigor is a refined and delicate fluid, which does not soil or become rancid by exposure to the air, and which is as perfect a substitute for the oil supplied by nature in youth and health, as modern chemistry can produce.

The attorney general has introduced a bill to restrain the ebullition of youth to a certain degree with regard to the marriage contract. No young man or woman under the age of 21 years will hereafter be able to legally marry without the consent of parent or guardian. No more runaway marriages in this country! The same bill makes it illegal to marry under any circumstances under fourteen years of age.

Not long ago The Advance received an offer of advertising from a medical firm that, when figured out, just amounted to enough to pay for setting the type. Without replying we threw the thing into the waste basket. Since then we notice that some of our exchanges have accepted this gilt-edged forty dollar offer for a thousand inches of advertising and are running the stuff. Surely such mer. must place a small value upon their advertising space! It is the acceptance of such death-dealing rates by a percentage of the press that is throttling the newspaper business of this country, and the individuals who accept them are destroying their own business, if they only knew it.

To the Public.

Take Notice: Having heard that some person or persons, being either maliciously disposed, or through pure love of gossip, have been circulating stories, calculating to injure my business reputation, I hereby warn such interested parties that unless such is stopped I will be compelled to give them the benefit of the law as regarding "slander", as said stories are false, and fabrications. Any information that is wanted, regarding my previous history before coming here, will be cheerfully furnished by applying to me, instead of taking the gossip for granted as heard without being proven. The story as reported that I had failed in business be-

fore coming here, and been burnt four times is a direct "lie", and any one caught repeating the same, or any other slanderous assertions to my detriment, after this notice, will be prosecuted.

nerve centres, will cause the derangement of the different organs of the body which they supply with NERVE FLUID or NERVE FORCE.
The wonderful success of South American Nervine is due alone to the fact that it is based on the foregoing principle. The use of a single bottle of this remedy will convince the most incredulous. It is indeed, a veritable NERVE FOOD and WILL RELIEVE IN ONE DAY the varied forms of nervous disease and stomach troubles.
Nervous - Diseases.

LATE discoveries have absolutely proven that the Stomach and Lungs, and indeed all internal organs are controlled by the nerve centres at the base of the brain. The manufacturer of **SOUTH AMERICAN NERVINE** has studied this subject closely for more than twenty-five years, and has lately demonstrated that two-thirds of our Chronic Diseases, are due to the imperfect action of nerve centres, either within or at the base of the brain and not from the derangement of the organs themselves; hence that the ordinary methods of treatment are wrong.
As all know, a serious injury to the spinal cord will at once cause PARALYSIS of the body below the injured part, it therefore will be equally well understood, how the derangements of the

This class of diseases, is rapidly increasing each year, on account of the great wear our mode of living and labor impose upon the nervous system. Nine-tenths of all the ailments to which the human family is heir, are dependent upon nervous exhaustion, impaired digestion, and a deteriorated and impoverished condition of the blood. The South American Nervine is a great nerve food and nerve builder and this accounts for its marvelous power to cure the varied forms of nervous disease, such as Neuralgia, Nervousness, Nervous Prostration, St. Vitus's Dance, Nervous choking, Nervous Paroxysms, Twitching of the Muscles, Hot Flashes, Mental Despondency, Forgetfulness, Sleeplessness, Restlessness, Nervousness of Females, Palpitation of the Heart, Sexual Weakness, etc., etc.
