## Can you see well? Is your sight good?

If not we have something to tell you. Have you ever noticed that one of your eyes is stronger than the other? In ninety-nine cases out of a hundred this is a fact. Under the old style of fitting glasses both crystals were of a like power. We have the facilities for testing the eyes, and can fit you a pair of glasses to exactly suit the power of vision of each eye. We can suit your case perfectly and guarantee satisfaction. ### Priceville.

From our own Correspondent.

We have been very unfaithful of late. However, we intend discharging our duties in a more satisfactory manner in the future.

The "Haunted School" is again to the front. Those ghostly noises were resumed on Monday, so that it appears they have come to stay.

Last Monday was fair day. There was quite a number of cattle offered for sale considering the time of the year. Prices were low.

Misses Tena McInyre, Ruby Robertson and Jennie Robertson, of Toronto, are spending their holidays at home.

Miss Alice Ross, of Palmerston P. S., and Mr. Bert Ross, of Kingston Bus. College, are visiting their parents.

Mrs. Dr. Hutton and Master Arthur are visiting friends in Hamilton, Brantford and Huttonville.

Mrs. Grier is at present visiting friends in Michigan.

Misses Sara and Kate Ector of Edge Hill, paid a flying visit to friends in this burg lately.

Mr. and Mrs. W. J. Blakston spent a week or so visiting friends in Normanby and Minto.

Mr. George Watson and Mrs. D. McKechnie, of Georgetown, spent a few days lately among their friends in this community.

Mrs. Dennis, of Detroit, who was visiting at Mr. M. Bolgers, returned home last week.

Miss Minnie Wilson, of Swinton Park, was the guest of Mrs. Moorhead lately.

Priceville P. S. was reopened on Monday, with a fair attendance. Miss Argie Bull, of Durham, has charge of the junior dept.

Eight members of the A. O. U. W. lodge in this village attended the funeral of the late Mr. B. Coleman, of Markdale, last Sunday.

Visitors to our burg will at once notice the three attractive windows which adorn "Union Hall." Each window represents a society, and contains a suitably worded advertisement compared as follows, commencing on the west side, neat, neater, neatest. If anyone wants to know which is which, come and see.

### Eugenia

From our own correspondent.

The farmers are now rushing their crops off. The results are more favorable than in most localities. A number of acres threshed in the Beaver valley averaged near 40 bushels of fall wheat to the acre.

Bears are getting plentiful in this locality, rumors reaching here almost daily of appearance of bruin. He seems to be making an effort to displace the thresher and lighten the pockets of some of our most frugal agriculturists. It would be advisable to have an organized invasion of the bears' territory.

A statement of the election expenses of Messrs Cleland (Grit for North Grey) and Gamey (Patron) has been given to the public. The expenses of the former approximated \$500.00, while that of the latter was only \$29.60. Taking for granted that the rest of the Patrons elect spent as little for electioneering purposes as our worthy representatives, the 17 Patrons have kept within the figure of the very Liberal member to the north. If the Patrons could effect a corresponding change in the expenditure of the Province what a boon it would be!

A good many around here are satisfied that sufficient time has expired in the construction of the bridge here. From present appearances the end promises to be a long way off. Main road bridges is a matter that should be hustled from start to finish, a fact which our Patron council seems to have ignored.

The office of Crown Attorney for the county of Grey which was resigned recently by Wm. R. Armstrong, Esq., has been filled by the appointment of A. G. Mackay, M. A., of Owen Sound, to the coveted position.

### That Haunted School.

This community is all agog again over the unprecedented, unwarrantable, invisible, non-comprehensible, unnatural, (perhaps) unfathomable, inexplicable, unaccountable, uninterpretable, (Shades of Johnston) unpreventable, intermittent, visits of some double-dyed, mischief-making elfin or elfiness, which this week is again taking up its abode in that now historical pile of logs rejoicing in the weird cognomen of the "Glenelg Haunted School House."

On Monday last, school was re-opened in the aforesaid ramshackle structure. Inspector Campbell, Mr. Arch. McQuaig, Miss McKechnie, a few pupils were present. Teaching was commenced when lo! that peculiar, mysterious humming again resounded through the room as clearly as ever. The pupils appeared to be no more agitated over this strange phenomenon than they would be over the buzzing of a bee or the sighing of the wind.

As to the cause, many theories have been advanced. At first varied and wild speculations of the supernatural played its part and still reigns supreme in the simple mind of the superstitious. The "wind theory" has been mentioned only to be carried away by the next breath. The scientific mind comes to the dilemma and the "reverberation theory" is pointed out with a good deal of force and sound reasoning, but subsequently proves inadequate. Again, snakes, bugs, bats, and animals of every description, have been suggested, each proving fallacious by later developments, till now it would appear through a course of evolution almost like a series of Darwinian reasoning. The public mind has become slowly but surely convinced that the human being is truly the erratic miscreant.

Moses Kernahan, a farmer of the town line near Thornbury, has evaporated. He was heavily in debt for rent, and seeing matters coming to a crisis secured money on a chattel mortgage, and fled. None of his crop, but the hay, has been harvested.—Standard.

Bush fires have been raging the past week in Proton near Ventry, and on Sunday after church the residents in that neighborhood had to turn out to save fences and other property. Over 100 cords of wood, we are informed, were removed from the track of the flames.—Mt. Forest Rep.

Stray animals are frequently found along the highways at this season of the year, and any person is permitted to take them on his premises, but in order to get paid for feeding them, he should immediately after taking them in advertise for the owner. This course will save money to both parties as well as save considerable time in searching for them. The Advance is the best medium for these advertisements.

On Saturday after tea Mr. Wm. Bristow, one of the best known farmers in Osprey, died very suddenly. He had been for some time troubled with his heart and cautioned by his physician against over exertion. On this occasion he had gone out to assist his son in loading peas. He had pitched some and told his horses to go on, when his son looking back saw him lying on the ground. His son immediately got down off the load but only to find his father breathing his last. The funeral took place on Monday and was largely attended. Mr. Bristow was widely known as one of the first farmers in Osprey, and one of the best stock-raisers in the country.—Bulletin.

## A Little Daughter

Of a Church of England minister cured of a distressing rash, by Ayer's Sarsaparilla. Mr. RICHARD BIRKS, the well-known Druggist, 207 McGill st., Montreal, P. Q., says:

I have sold Ayer's Family Medicines for 40 years, and have heard nothing but good said of them. I know of many

### Wonderful Cures

performed by Ayer's Sarsaparilla, one in particular being that of a little daughter of a Church of England minister. The child was literally covered from head to foot with a red and exceedingly troublesome rash, from which she had suffered for two or three years, in spite of the best medical treatment available. Her father was in great distress about the case, and, at my recommendation, at last began to administer Ayer's Sarsaparilla, two bottles of which effected a complete cure, much to her relief and her father's delight. I am sure, were he here to-day, he would testify in the strongest terms as to the merits of
