People cannot be too careful how they play with fire this dry weather. A stray match dropped by the roadside might start a conflagration of very serious proportions.

Rev. J. C. Madill lately repeated in Stratford the speech which he delivered here on the occasion of the U.P.B.A. celebration. The Empire, commenting on this speech, made a "moderate protest against what it conceives to be a wholly indefensible doctrine, a doctrine which the very essence of protestantism condemns, and which for the benefit of the whole community every intelligent person must condemn." The Empire further goes on to say: "We have no fear at all of an appeal to the fairness and toleration of Protestants. They will judge a public man by his acts and only by them, because the very foundation stone of protestantism is freedom of conscience and the right of private judgment."

It is altogether likely that the last has been heard of the Glenelg "ghost," now that the old building has been shut up. The matter stands just about where it did when the phenomena was first observed. Most people in the section are thoroughly convinced that the sounds were produced by human beings and scot the theory of anything supernatural. Supposing this to be true, however, there are still links wanting in the chain to prove such to be the case, and the actual cause is really as far from discovery as ever. All attempts at straight proof have been futile. The affair has furnished such a summer's sensation as has never been heard of before in these parts, but it is now about time for us to get a rest and wait patiently, Micawber like. Something may turn up if the sensation is allowed to die out.

For many years the towns of Owen Sound and Collingwood have been rivals for the lake trade, and many and bitter have been the tugs of war between the two places. The race has been fairly even during all these years, but with the opening of the Owen Sound Grand Trunk connection, which officially took place yesterday, it is thought that Owen Sound has got a good strong lap ahead. Collingwood hopes still to produce a card that will about sweep in the pile if she can only get that hauged ship railway under way, and is exerting herself exceedingly. Disinterested parties are watching the struggle with bated breath. It is just possible that Collingwood may have to move seventeen miles eastward if she wishes to play the card referred to, as it is thought one of the canal termini will be at the mouth of the Nottawasaga if anywhere. That would be hard on Collingwood.

Rheumatism Cured in a Day—South American Rheumatism Cure, for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by W. E. Richardson, Druggist.

Priceville.
From our own Correspondent.
Our usually quiet little burg was the scene of no little excitement and much enthusiasm last Monday evening. The occasion of such was a fraternal visit of A.O.U.W. members from Markdale and Flesherton, to the Priceville lodge in response to an invitation from the latter. It was about nightfall when the visiting brethren arrived accompanied by the Flesherton brass band. Upon their arrival the guests were escorted to Union Hall, where they were welcomed by the Priceville brethren with right good will. While the workmen were thus interchanging kindly greetings, the band entertained the villagers with some fine selections well rendered. In the hall, short, pithy and fitting addresses were given by Messrs. Pickle, W. Irwin, C. C. Jane, and M. Reiley and the Master Workman of both visiting lodges relating to insurance and the cultivating of sociability among the members. The company then adjourned to the dining room of the Commercial House, where our able host and hostess, Mr. and Mrs. Batters, had prepared a table laden with a tastefully arranged abundance of good things for the inner man. When

all had done ample justice to the refreshments, the toast list was proceeded with. The first toast was the "Visiting Brethren" which brought forth brief and very interesting remarks from Messrs. Richardson, Rutledge and Douglas. The next toast was the "Home Brethren" which was ably responded to by Messrs. John McArthur and James Watson. The "Ladies" were next toasted, when brought neat little speeches from Messrs. M. Reiley and Chas. Ghent, of Toronto, and also a few remarks from W. J. Blakeston. The toast "Our Host and Hostess" was then proposed and was responded to by Mr. Butters in a very interesting manner. A hearty vote of thanks was tendered to the Flesherton brass band for their kindness in furnishing such excellent music for the occasion. Thus ended one of the pleasantest social gatherings that ever took place in this village. Priceville lodge is to be congratulated on the success attending their first efforts of this kind and may it not be their last. The meeting was closed by singing God Save the Queen.

On entering the hall the first thing that attracted our attention was the fine physical appearance of the A. O. U. W. members present.

We noticed that the jolly recorder of the Flesherton contingent always managed to get in a few comical "hits" during the speeches.

Mr. C. G. would like to have ladies become Workmen (women.) Of course he is single.

The Editors of the Advance and Standard sat side by side at the festal board taking it all in. (We don't mean all the board.)

The famous "ghost" will soon be a thing of the past, as the trustees closed school last week. Last Monday's daily Globe contained five solid columns of matter referring to the affair. Such a row over a ghost!!

This week will wind up pretty much all harvesting operations in this district. Perhaps the fires may wind up some of said operations if the dry weather continues.

Priceville circuit of the Methodist church intend holding a harvest home on Sept. 11 on the parsonage grounds.

Misses Fanny James, Flora McMillan and Mr. John McLeod are attending the O. S. Collegiate.

Mr. James Atkinson left last Saturday for Toronto to attend Harbord street collegiate institute.

Mrs. Taylor, of Dromore, and Mrs. Neil, of Galt, paid a brief visit to W. J. Blakeston last week.

Mr. Chas. Ghent, of Toronto, is spending a few days among acquaintances in the village, combining business with pleasure.

Mr. and Mrs. M. McIntyre are visiting friends in Erin at present.

"Only the Scars Remain,"

Says HENRY HUDSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., who certifies as follows:

"Among the many testimonials which I see in regard to certain medicines performing cures, cleansing the blood, etc., none impress me more than my own case. Twenty years ago, at the age of 18 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old

Mother Urged Me
to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."

CATTLE OWNERS,

ATTENTION!

HOSMER'S GREAT MEXICAN FLY EXTERMINATOR.

Hosmer's Mexican Fly Exterminator will prevent Flies and Insects of all kinds from lighting on Cattle and Horses wherever it is applied. It is evident that many times Horses become more pained by Flies than by their regular work, and it is a humane and kindredness to save the dumb beast annoyance and pain, and to give them all the comfort that we consistently can. Cows that are troubled with Flies invariably give less milk than those protected from their stings. Hosmer's Mexican Fly Exterminator is something more than a protection to animals from Flies, as it is undoubtedly the Best Hoof Ointment in Use.

If properly used this Fly Exterminator is a Certain Preventive from the attacks of the small black fly, called in different localities by the following names: Buffalo Fly, Arabian Fly, Texas Fly, white breasted they are the dreaded "Mexican" fly. These flies light around the horns of cattle and eat down into the road and cause terrible suffering, and many times the stock die from the effects. This Exterminator is a certain preventive from attacks of all Flies or insects on cattle or horses. It is also a sure death to Fleas.

DIRECTIONS: Apply the Exterminator with a stiff brush, or rub well into the hair and hide with the fingers. Whenever the flies attack the stock a new application should be made. When faithfully applied, cattle and horses will run in pasture all day without annoyance from flies or insects. This Ointment contains nothing injurious or poisonous. The high standard of Hosmer's preparations, which have been so long in the market, is a sufficient guarantee for any goods bearing his name. For sale by
