PLATFORM ADOPTED
 BY THE
NATIONAL LIBERAL CONVENTION
Ottawa,
JUNE, 1893.

We, the Liberal party of Canada, in convention assembled, declare:

1.—Freer Trade—Reduced Taxation.

That the customs tariff of the Dominion should be based, not as it is now, upon the protective principle, but upon the requirements of the public service;

That the existing tariff, founded upon an unsound principle, and used, as it has been by the Government, as a corrupting agency wherewith to keep themselves in office, has developed monopolies, trusts and combinations;

It has decreased the value of farm and other landed property;

It has oppressed the masses to the enrichment of a few;

It has checked immigration;

It has caused great loss of population;

It has impeded commerce;

It has discriminated against Great Britain.

In these and in many other ways it has occasioned great public and private injury, all of which evils will continue to grow in intensity as long as the present tariff system remains in force.

That the highest interest of Canada demand a removal of this obstacle to our country's progress, by the adoption of a sound fiscal policy, which, while not doing justice to any class, will promote domestic and foreign trade, and hasten the return of prosperity to our people;

That to that end, the tariff should be reduced to the needs of honest, economical and efficient government;

That it should be so adjusted as to make free, or to bear as lightly as possible upon the necessities of life, and should be so arranged as to promote freer trade with the whole world, more particularly with Great Britain and the United States;

We believe that the results of the protective system have grievously disappointed thousands of persons who honestly supported it, and that the country, in the light of experience, is now prepared to declare for a sound fiscal policy.

The issue between the two political parties on this question is now clearly defined.

The Government themselves admit the failure of their fiscal policy, and now profess their willingness to make some changes; but they say that such changes must be based only on the principle of protection.

2.—Enlarged Markets—Reciprocity.

That, having regard to the prosperity of Canada and the United States as adjoining countries, with many mutual interests, it is desirable that there should be the most friendly relations and broad and liberal trade intercourse between them;

That the interests alike of the Dominion and of the Empire would be materially advanced by the establishing of such relations;

That the period of the old reciprocity treaty was one of marked prosperity to the British North American colonies;

That the pretext under which the Government appealed to the country in 1891 respecting negotiation for a treaty with the United States was misleading and dishonest and intended to deceive the electorate;

That no sacred effort has been made by them to obtain a treaty, but that, on the contrary, it is manifest that the present government, controlled as they are by monopolies and combinations, are not desirous of securing such a treaty;

That the first step towards obtaining the end in view, is to place a party in power who are sincerely desirous of promoting a treaty on terms honorable to both countries;

That a fair and liberal reciprocity treaty would develop the great natural resources of Canada, would enormously increase the trade and commerce between the countries, would tend to encourage friendly relations between the two peoples, would remove many causes which have in the past provoked irritation and trouble to the Governments of both countries, and would promote those kindly relations between the Empire and the Republic which afford the best guarantee for peace and prosperity;

That the Liberal party is prepared to enter into negotiations with a view to obtaining such a treaty, including a well considered list of manufactured articles, and we are satisfied that any treaty so arranged will receive the assent of Her Majesty's Government, without whose approval no treaty can be made.

3.—Condemn Corruption.

That the Convention deplores the gross corruption in the management and expenditure of public moneys which for years past has existed under the rule of the Conservative party, and the revelations of which by the different parliamentary committees of inquiry have brought disgrace upon the fair name of Canada.

The Government, which professedly politically by these expenditures of public moneys of which the people have been defrauded, and which, nevertheless, have never punished the guilty parties, must be held responsible for the wrongdoing. We arraign the Government for retaining in office a Minister of the Crown proved to have accepted very large contributions of money for election purposes from the funds of a railway company, which, while paying the political contributions to him, a member of the Government, with one hand, was receiving Government subsidies with the other.

The conduct of the Minister and the approval of his colleagues after the proof became known to them are calculated to degrade Canada in the estimation of the world and deserve the severest condemnation of the people.

4.—Demand Strictest Economy.

We cannot but view with alarm the large increase of the public debt and of the considerable annual expenditure of the Dominion and the consequent undue taxation of the people under the Governments that have been continuously in power since 1878, and we demand the strictest economy in the administration of the government of the country.

5.—For Responsible Government.

That the Convention regrets that the action of Ministers and their supporters in Parliament, in one case in which serious charges were made against a Minister of the Crown, investigation was altogether refused, while in another case the charges preferred were ignored and then referred to a commission appointed upon the advice of the Ministers, contrary to

the well settled practice of Parliament; and this convention affirms:

That it is the ancient and undoubted right of the House of Commons to inquire into all matters of public expenditure, and into all charges of misconduct in office against Ministers of the Crown, and the reference of such matters to royal commissions created upon the advice of the accused is at variance with the due responsibility of Ministers to the House of Commons, and tends to weaken the authority of the House over the Executive Government, and this convention affirms that the powers of the people's representatives in this regard should on all fitting occasions be upheld.

6.—The Land for the Settler.

That in the opinion of this Convention the sales of public lands of the Dominion should be to actual settlers only, and not to speculators, upon reasonable terms of settlement, and in such areas as can be reasonably occupied and cultivated by the settler.

7.—Oppose the Franchise Act.

That the Franchise Act since its introduction has cost the Dominion Treasury over a million of dollars, besides entailing a heavy expenditure to both political parties;

That each revision involves an additional expenditure of a further quarter of a million;

That this expenditure has prevented an annual revision, as originally intended, in the absence of which young voters entitled to the franchise have, in numerous instances, been prevented from exercising their natural rights;

That it has failed to secure uniformity, which was the principal reason assigned for its introduction;

That it has produced gross abuses by partisan revising barristers appointed by the Government of the day;

That its provisions are less liberal than those already existing in many Provinces of the Dominion, and that in the opinion of this convention the Act should be repealed, and we should revert to the Provincial Franchise.

8.—Against the Gerrymander.

That by the Gerrymander Acts, the electoral divisions for the return of members to the House of Commons have been so made as to prevent a fair expression of the opinion of the country at the general elections, and to secure to the party now in power a strength out of all proportion greater than the number of electors supporting them would warrant. To put an end to this abuse, to make the House of Commons a fair exponent of public opinion, and to preserve the historic continuity of counties, it is desirable that in the formation of electoral divisions, county boundaries should be preserved, and that in no case parts of different counties should be put in one electoral division.

9.—Amend the Constitution of Senate.

The present constitution of the Senate is inconsistent with the Federal principle in our system of government, and is in other respects defective, as it makes the Senate independent of the people and uncontrolled by the public opinion of the country, and should be so amended as to bring it into harmony with the principles of popular government.

10.—Plebiscite on Prohibition.

That whereas public attention is at present much directed to the consideration of the admittedly great evils of intemperance, it is desirable that the mind of the people should be clearly ascertained on the question of Prohibition by means of a Dominion Plebiscite.

Catarrah Relieved in 10 to 60 Minutes.

—One short puff of the breath through the blower, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this powder over the surface of the nasal passages. When the Nerve Centres Need Nutrition.

A Wonderful Recovery, Illustrating the Quick Response of a Depleted Nerve System to a Treatment Which Replenishes Exhausted Nerve Forces.

MR. FRANK BAUER, BERLIN, ONT.

Perhaps you know him? In Waterloo he is known as one of the most popular and successful business men of that enterprising town. As managing executor of the Kuntz estate, he is at the head of a vast business, representing an investment of many thousands of dollars, and known to many people throughout the Province. Solid financially, Mr. Frank Bauer also has the good fortune of enjoying solid good health, and if appearances indicate anything, it is safe to predict that there's a full half century of active life still ahead for him. But it's only a few months since, while nursed as an invalid at the Mt. Clemens sanitary resort, when his friends in Waterloo were dismayed with a report that he was at the point of death.

"There's no telling where I would have been had I kept on the old treatment," said Mr. Bauer, with a merry laugh, the other day, while recounting his experiences as a very sick man. "Mt. Clemens," he continued, "was the last resort in my case. For months previous I had been suffering indescribable tortures. I began with a loss of appetite and sleepless nights. Then, as the trouble kept growing, I was getting weaker, and began losing flesh and strength rapidly. My stomach refused to retain food of any kind. During all this time I was under medical treatment, and took everything prescribed, but without relief. Just about when my condition seemed most hopeless, I heard of a wonderful cure effected in a case somewhat similar to mine, by the Great South American Nerve Tonic, and I finally tried that. On the first day of its use I began to feel that it was doing what no other medicine had done. The first dose relieved the distress completely. Before night I actually felt hungry and ate with an appetite such as I had not known for months. I began to pick up in strength with surprising rapidity, slept well nights, and before I knew it I was eating three square meals regularly every day, with as much relish as ever. I have no hesitation whatever in saying that the South American Nerve Tonic cured me when all other remedies failed. I have recovered my old weight—over 200 pounds—and never felt better in my life."

Mr. Frank Bauer's experience is that of all others who have used the South American Nerve Tonic. Its instantaneous action in relieving distress and pain is due to the direct effect of this great remedy upon the nerve centres, whose fagged vitality is energized instantly by the very first dose. It is a great, a wondrous cure for all nervous diseases, as well as indigestion and dyspepsia. It goes to the real source of trouble direct, and the sick always feel its marvelous sustaining and restorative power at once, on the very first day of its use.
