AYER'S Hair VIGOR

Restores natural color to the hair, and also prevents it falling out. Mrs. H. W. Fenwick, of Digby, N. S., says: "A little more than two years ago my hair began to turn gray and fall out. After the use of one bottle of Ayer's Hair Vigor my hair was restored to its original color and ceased falling out. An occasional application has since kept the hair in good condition."—Mrs. H. F. FENWICK, Digby, N. S.

Growth of Hair.

"Eight years ago, I had the varioloid, and lost my hair, which previously was quite abundant. I tried a variety of preparations, but without beneficial result, till I began to fear I should be permanently bald. About six months ago, my husband brought home a bottle of Ayer's Hair Vigor, and I began at once to use it. In a short time, new hair began to appear, and there is now every prospect of as thick a growth of hair as before my illness."—Mrs. A. WEBER, Polymnia St., New Orleans, La.

A Bear Incident.

From the Manitoulin Expositor.
Mr. Henry Coulam, who lives near Little Current, had quite an experience with some bears on Sunday, July 28. He had been sleeping for a time, and upon waking he heard a terrible noise in the bush just in front of his house. He went out and found his hogs squealing most terribly. He clenched the old musket and started, telling his 9-year-old boy to bring powder, caps and a ball. His dog, anxious to enter into the fray, tried its best to get past Mr. Coulam, and in order to keep him back he struck the dog with his gun. The gun was cocked and the jar discharged the weapon, the charge going into the ground and barely missing his foot. The report frightened the bears and they dropped the pigs, which were terribly torn, and started off. Mr. Coulam, fearing that the old bear would attack his little boy, went back to meet him. He took the ammunition from the boy and loaded the old musket again. Once more ready for the fray, he sets out in search of the bears. It was but a short time before the old bear put in her appearance. Waiting until she came up very close to him, he let fly, and down she came. The ball entered her head, passed through her brain, down her neck, and lodged in her shoulder. By this time Mr. Lilloco, Mr. Becks, Mr. Connors and a number of ladies who had just returned from church, put in their appearance to see what all the noise was about. Mr. Lilloco discovered one of the cubs, and immediately gave chase. After a considerable run he succeeded in catching it. Thinking to take his prize alive he threw himself upon it. Then the struggle began. First Mr. Lilloco was on top and then the cub, then again Mr. Lilloco, and this rough-and-tumble struggle was kept up until young Bruin became enraged and struck and hit at everything within reach. The cub at last got Mr. Lilloco's hand in its mouth, and sent its teeth right through the hand, lacerating the flesh terribly. Nothing daunted, Lilloco held on until he succeeded in killing it. The other two cubs, which were half grown, got away, and some time may return to provide another day's sport. The old bear Mr. Coulam shot weighed nearly 300 pounds. Mr. Coulam had eight sheep and one hog killed this summer by the bears, and has made up his mind that bears will get no quarter near him in the future if he knows. The whole section is now prepared if a Bruin shows his nose there again.

Priceville.

From our own Correspondent.
"Grand growing weather" is the general salutation at present. Everyone interested in crops is wearing a contented smile since the advent of the recent refreshing rains.
The choir and others of the Methodist church are busily engaged in preparing for their garden party next Wednesday. "It never rains but it pours." A few weeks ago no butcher invaded the precincts of our burg but now 3 or 4 pay us regular visits.
A number of Pricevillites attended the garden party in Proton last Thursday. They had a good time even if one did lose a watch (it was found again) and another handed a \$10 bill to the gate-keeper instead of a one. The mistake was discovered, however, before the affair was over.
A few weeks ago Mr. D. McArthur's boys exchanged horses with some horse traders who were camped at the east end of the village. The other day Mr. McArthur's former animal wandered home fairly covered with ridges caused by a whip. Such cruelty to animals should be looked after.
Mrs. McLoughry of Markdale is the guest of her brother-in-law, Mr. C. C. James, at present.
Mr. Geo. Watson, late of Flesherton, is home for a few days.
Mr. McKechnie of Georgetown is taking a few holidays among his friends in this vicinity.
Mrs. King and her sister-in-law, Miss King, of Grand Valley, are visiting with the former's mother, Mrs. Watters.
Mr. and Mrs. Roiley are visiting friends at Walters Falls.
Mrs. Mortimer and Miss James of Shelburne paid a visit to friends in this village last week.
Mr. Richard Parslow of Swinton Park was the guest of his son-in-law, W. J. Blakeston, the forepart of this week.

FULL OF ENCOURAGEMENT FOR ALL WOMEN.

In Bed 5 Months—Had Given Up All Hope of Getting Well—A Remedy Found at Last to which "I Owe My Life."

Science has fully established the fact that all the nervous energy of our bodies is generated by nerve centres located near the base of the brain. When the supply of nerve force has been diminished either by excessive physical or mental labours, or owing to a derangement of the nerve centres, we are first conscious of a languor or tired and worn-out feeling, then of a mild form of nervousness, headache, or stomach trouble, which is perhaps succeeded by nervous prostration, chronic indigestion, and dyspepsia, and a general sinking of the whole system. In this day of hurry, fret and worry, there are very few who enjoy perfect health; nearly everyone has some trouble, an ache, or pain, a weakness, a nerve trouble, something wrong with the stomach and bowels, poor blood, heart disease, or sick headache; all of which are brought on by a lack of nervous energy to enable the different organs of the body to perform their respective work.
South American Nervine Tonic, the marvellous nerve food and health-giver, is a satisfying success, a wondrous boon to tired, sick, and overworked men and women, who have suffered years of discouragement and tried all manner of remedies without benefit. It is a modern, a scientific remedy, and in its wake follows abounding health.
It is unlike all other remedies in that it is not designed to act on the different organs affected, but by its direct action on the nerve centres, which are nature's little batteries, it causes an increased supply of nervous energy to be generated, which in its turn thoroughly oils, as it were, the machinery of the body, thereby enabling it to perform perfectly its different functions, and without the slightest friction.
If you have been reading of the remarkable cures wrought by South American Nervine, accounts of which we publish from week to week, and are still sceptical, we ask you to investigate them by correspondence, and become convinced that they are true to the letter. Such a course may save you months, perhaps years, of suffering and anxiety.
The words that follow are strong, but they emanate from the heart, and speak the sentiments of thousands of women in the United States and Canada who know, through experience, of the healing virtues of the South American Nervine Tonic.
Harriet E. Hall, of Waynetown, a prominent and much respected lady, writes as follows:—
"I owe my life to the great South American Nervine Tonic. I have been in bed for five months with a scrofulous tumour in my right side, and suffered with indigestion and nervous prostration. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I cannot recommend it too highly."
Tired women, can you do better than become acquainted with this truly great remedy!
