Re East Grey Agricultural Society

To the Editor of The Advance.

DEAR SIR.—Kindly make the following correction and explanation: Through a misunderstanding Mr. George Stewart's name was placed on the prize list as president of the above society. In justice to Mr. Stewart we would say, Mr. Stewart being unwell at the time of the annual meeting was unable to attend. Knowing him to be a good man for the position he was elected without his consent. Informing him some time after of his election he informed me that whilst in sympathy with the fair, for reasons which he considered sufficient, and also on account of his precarious health, he could not see his way to assist in the duties pertaining to the position. At a subsequent meeting of the board of directors, knowing the matter having been brought before their notice although regretting that Mr. Stewart did not appear to see his way to consent to act, yet it was thought by placing his name on the prize list we might induce him to assume the aforesaid duties. He informs me, knowing that he still adheres to his former position, namely, that he cannot see his way to act as president, although thankful to the friends who saw fit to place him in the honorable position, yet absolutely declines assuming the duties pertaining to the position.

R. J. SPROULE, secretary.

The Belleville Ontario tells its readers how the farmers in that locality are caught on the "stove scheme." It says—"A couple of agents for a Toronto stove firm will go to a farmer and try and sell him a kitchen range for \$60. The farmer don't want it. But the agent has a mighty fine thing; he will take the farmer's old stove and allow him \$12 for it, and the agents will board at his place for two weeks and pay him \$10 a week for themselves and horse; now, that's \$32 off the price of the stove. The farmer thinks he'll take it. Then the wily agents persuade him to sign a note for the full amount of the range, \$60. This is all they want and they never take the stove away or wait to board at \$10 a week."

A horse and buggy was stolen from a Hanover liveryman two weeks ago. Two days later the thief abandoned the outfit on an unfrequented road near Alton. He was considerate enough to unharness the horse, and the animal browsed around the buggy for three or four days before being taken in by Allan Maxwell. The liveryman recovered his property last week. The thief is supposed to be Robt. Trimble, alias Dixon, whose picture is in the rogues' gallery and who has a weakness for horse-stealing.

Mr. Angus McDonald of the 8th line has a curiosity in the shape of an apple tree that is working over time, or rather doing two jobs at once. He brought a small branch of this tree in the Standard office the other day, and the editor was truly surprised to see on it half a dozen well formed large apples, around which nestled a score or more of full blown blossoms. No doubt it is strictly in for the winter trade, and it will not be the fault of this tree if the reputation of the Canadian apple goes below par. Mr. McDonald tells us, that although well loaded with apples the tree is a mass of blossoms.—Standard.

Old Ben Griffiths, who himself it is reported once hit a ball into a passing train, used to tell an extraordinary story of a cricket match between Brighton and Lewes, on the grounds of the latter. "The match was all over but the shouting," Ben used to declare, "our last man was in and we wanted eighty four runs to win. One of the batsmen, however, gave an awful crack to leg, and that did it." "Did what?" the listeners would naturally inquire. "Why won the match. It was this way. There was an old pump at the edge of the ground, and the end of the spout was inside the boundary line. Well, that crack to leg sent the ball into the spout, and the fielders couldn't get it out nohow. They couldn't call it 'lost ball,' for the ball was in sight. So they had to go to the nearest blacksmith's, and get a hammer and cold chisel to dig it out with, whilst we ran off the eighty-four runs."
