Advertisements have been posted stating that commissioners will be at the horse-shoe hill, just east of this village, to let a job of cutting on Friday, June 10 (to-morrow.) It is proposed to cut through the hill, straighten the road and fill in the hollow. Here is a good big contract for someone who wants work.

Inspector Campbell desires us to state that the county pro motion examinations will be held on June 23 and 24 instead of June 16 and 17 as at first intended. Many teachers find the weeks following the examinations poorly attended, hence the desire for a later date.

A public meeting was held in the town hall on Wednesday evening of last week to discuss cutting down the horse shoe hill. It was decided that a grant of \$100 should be given by the village for this purpose, and the township assumes the balance. The contract is to be let to-morrow.

Our volunteers will go to camp in a couple of weeks, and we give space in this issue to an article for their especial benefit, written by one who has been "through the war," and is quite competent to give advice. We believe it will be read with interest by many, as giving an insight into the routine and duties of soldier life.

The Advance has been requested by several property owners between Eugenia and Feversham to state emphatically that the entire river is closed property. While they are loth to prosecute treshassers this will have to be done if the practice of fishing on these properties is not discontinued. No man with gentlemanly instincts would force a prosecution, and those who have not got this invaluable commodity will have to be treated accordingly.

The tent caterpillar, which is doing so much damage to fruit trees throughout the country, can easily be kept within bounds if a little care and labor are taken at this season of the year, although it would have been much easier had the twigs been removed earlier in the season on which their nests were placed. Mr. J. M. Thurston of Kimberley recently gave us his method of destroying them, which, he says, is very effective, and it also has the merit of being entirely original with him. The worms have a peculiar habit of congregating in bunches or webs at night on the trees upon which they feed during the day. Upon the least disturbance they all fall to the ground among the grass and are therefore prepared to mount upward and resume their depredations. This gentleman's method is as follows: He has placed a temporary handle on an old tin dish pan. At dusk he goes to the orchard, having provided himself with paper saturated in coal oil. Placing a piece of this paper in the pan he sets fire to it and holds it under the web of worms. As soon the warmth is felt the caterpillars drop, as usual, but find a hot reception awaiting them. By this method, he says, an orchard can be cleared in short order. Our Eugenia correspondent and others as well should take note.

Church Notes

Miss Cartmell of Hamilton, a returned missionary from Japan, occupied the Methodist pulpit on Sunday morning and evening. The evening service took the form of a lecture on Japan.

Miss Rothwell of Shelburne sang a beautiful solo at the Methodist service on Sunday evening, entitled "Jesus, thou art standing." This young lady is a teacher in the Shelburne public school and possesses a contralto voice of rare power and scope, and rich in the extreme. Her intonation is clear and her tones very perfect. Shelburne Methodist church possesses a gem in Miss Rothwell and a rare treat was enjoyed by those who heard her here.

Obituary.

Mr. SAMUEL RANEY.

The subject of this sketch was born in Co. Antrim, Ireland, in the year 1839 and was consequently 59 years of age. He removed to this country with his parents, who settled in Artemesia, 2 1/2 miles north of Flesherton, in 1847. Here he remained until the year 1870, when he removed to Ayrview, Simcoe County, where he did a successful mercantile business for five or six years. From there he removed to Severn Bridge, Muskoka, where he conducted a shingle mill until the time of his death. Deceased was married to a Miss Margaret Thompson, daughter of the late Alexander Thompson, back line west, whom he leaves behind, and by whom he had no issue. He was a man very highly respected by all with whom he came in contact, and was a vigorous worker in church and Sunday school work. The remains arrived at Flesherton Station on the noon train, Friday last, from where they were conveyed to the residence of relatives on the back line, and on Saturday were interred in the Presbyterian burial ground, Orange Valley. The funeral services were conducted by Rev. Mr. Philmore of Chesley, a relative of deceased. Many relatives were present from New York State, Severn Bridge, Tecumseth and elsewhere.
