From Our Own Correspondent

The roads were so badly blocked up last Sunday that the Rev's Humphreys, Darroch and Matheson failed to reach their afternoon appointments.

Our grist mill has again changed hands. Last week Mr. R. McGowan took charge of the establishment once more. Mr. Walter, however, will run the sawmill until the first of May.

Reeve McArthur left for Owen Sound on Tuesday in order to attend the assizes. We are confident that our reeve will leave no stone unturned in the interest of our municipality in the McIntyre case.

Miss Tillie White returned to her home in Markdale this week after a pleasant sojourn in our burg for a month or so.

Mrs. W. J. Blakeston and Miss Alma are visiting friends at Swinton Park this week.

Miss McKillop of Harriston and Miss Stewart of Quebec were the guests of Misses Ray and Maggie Ferguson last week.

Our young men are beginning to leave for spring work already. Messrs. Lorne Hogarth and Donald Tryon are the first to make a start, the former to Whitby and the latter to Brampton. More to follow.

Mr. W. J. Berry, who has been in the employ of Mr. Walter, has gone to Durham to work for Mr. R. McGowan. Mr. Berry will be greatly missed in the Sunday school and E. L., where he was an efficient worker.

Miss Jennie Robertson of Toronto is visiting with her mother, Mrs. Robertson, at present.

The Rev. Mr. Darroch has commenced special meetings in the Baptist church.

Proton Station.

From Our Own Correspondent

Mr. D. McLean, section foreman on the railway, is confined to his bed through an attack of la grippe.

Miss Emma Clark returned to her home in Midland on Tuesday morning.

The Sunday school entertainment held here on Monday night was not very largely attended owing, no doubt, to the bad condition of the roads. There was a lengthy program in which the children performed their parts very creditably. A vote of thanks was tendered Mrs. Hunter and Mrs. Allen for the very able manner in which they had trained the children.

Mrs. Freeman has been under Dr. McWilliams' care, but we are glad to report her recovering.

Mr. R. M. Carlyle of Knox College occupied the pulpit here last Sunday evening. His many friends were glad to see him again.

A meeting of those interested in the manufacture of butter was held in the Orange hall here Saturday evening.

Maxwell

From our Own Correspondent

One of the greatest storms of the season raged Saturday night and all day Sunday. W. G. Mackie, V. S., has his office located in Brown's store.

Mr. and Mrs. Robert Ramsay from Nottawa spent a week among friends in this locality.

We are called to announce the unfavorable news this week to the people in the village, also the surrounding country of Mr. W. McWhinney, our favorite school teacher, leaving at Easter to take a position as teacher in Walkerton public school. We wish him success, and what is our loss is Walkerton's gain.

Mr. Hobbs of Toronto is spending a few days with his friend, Dr. Mockie.

La Grippe is visiting us, but not with such severity as in some sections.

Mr. Wm. Fleming has been spending some time under the parental roof.

Considerable building will be done during the coming summer in this locality.

Stone's Settlement

From our own Correspondent

We are glad to announce the recovery of Mr. J. J. Lyness. His recent illness

happily proved to be less serious than at first expected.

Benny Stone returned to Minesing on Saturday last.

Miss Ethel Williams left here for Lis towel on Thursday last.

Mr. and Mrs. Anderson made their farewell calls on friends in this neighborhood on Friday and Saturday, leaving for Bowmanville on Monday, where they will remain a few days previous to their departure for their future home in Moosomin, N. W. T. Bon voyage.

The dog on the corner lot of base line, is becoming a perfect terror. Neither equestrians, pedestrians, quadrupeds or bipeds can pass along the road without fear of having to carry home with them the impression of his teeth. Better tie him up, Mister.

HYMENIAL

On Wednesday evening, the 1st inst., a quiet but interesting event took place at the residence of Mrs. R. Stone, Stone's line, Artemesia. The occasion was the marriage of Mrs. Stone's eldest daughter, Miss Edna, to Mr. John Anderson of Moosomin, N. W. T., son of Mr. James Anderson, formerly of Orange Valley, this township. The ceremony was performed by the Rev. W. Williams, D. D., of Listowell, uncle of the bride, assisted by the Rev. Mr. Humphreys of Priceville. The bride was supported by her sister, Miss Ida May Stone. Mr. Donald MacKay of Bruce, officiated as groomsman. After the usual congratulations the guests were right royally banquetted by the hostess. A very enjoyable evening was spent and the party broke up about midnight. The wedding presents were numerous, ornamental and useful. The happy couple left by the 5 p. m. train on Monday for Bowmanville and other points on a short visit to friends, after which they will proceed to their future home at Moosomin. In leaving this part Mr. and Mrs. Anderson carry with them the best wishes of a large circle of friends. May their journey through life be prosperous and pleasant.

A little 7 year old boy named Lorne Anckorn, of Owen Sound, saved a 6-year old who had broken through the ice in the river and was in imminent danger of being drawn under the ice. The little Anckorn lad's act is one of great heroism and he is the lion of the hour.

Four animals, a frog, a duck, a lamb and a skunk, recently attended a circus. The frog gained admittance because he had a greenback; the duck got in because it had a bill, the lamb because it had four quarters; but the skunk was refused admittance because he only had a bad (s)cent.

A shocking case was presented before Judge McCurry at Parry Sound recently. It was a charge of cruelty to an orphan boy who lived with a family named Stacey, near Sundridge. Freddy Stacey the boy, about 12 years of age, lived with his uncle, John Stacey, on a farm and was made to do work around the place. The evidence revealed the fact that the boy was starved almost to the point of death. He became literally a living skeleton. Gangrene had set in in his fingers and toes, from the effects of which he will suffer for life, having lost some of his toes at the first joint. When Dr. Carmichael of Sundridge was finally called in he found the boy unconscious, and in a dreadfully emaciated condition. No other restorative than food was administered, and by good treatment and a liberal diet during the last month the boy is fully restored, except from the effects of the gangrenous sores, which still affect his hands and feet. The lad stated that he got nothing else than one or two potatoes and a small morsel of dry bread. At one time he fed on raw peas, oats and chop stuff that he got from the barn, and sometimes raw turnips. For a time he managed to steal eggs from the fowl house. He ran away once, but he was brought back. The case is certainly one which for utter heartlessness is hard to parallel. Stacey was sentenced to six months imprisonment and his wife was made to
