The Reason He Changed Situations

"Did you hear the reason why I left my old employers," said a drummer the other day to a few friends. To this enquiry they all gathered around, fully expecting to hear a good story as "Tom," (familiarly called by his friends), tilted back in his chair.

"I answered an advertisement about a new book "Light of Life," as the title struck me very forcibly, and I found it contained a story of the New Testament, together with explanations of all the more difficult portions, thus being a complete Commentary. It also contains the complete lives of the Apostles; that this book was really two volumes in one, embellished with some of the best illustrations I ever saw. The statues of the Apostles were by the renowned sculptor, Thorvaldson, these having been reproduced and published in connection with the Sixteen Masterpieces of the world-famous Blockhorst, Hofmann and Hahn engravings.

Knowing that not a family in a thousand had the lives of the apostles or a Commentary, and that this book would have an enormous sale, and as my old employers could not hold out sufficient inducement to equal the offer of the Bradley-Garretson Co. Limited, concluded to give up drumming," and took hold of "Light of Life." I assure you friends this change was the wisest I ever made and I shall never regret it. If you want to make money easy and fast, write their Brantford House for a position like mine.

AGENTS:—If you want to make \$2.50 and expenses, daily, handle "The Light of Life."

Robt. G. Ingersoll died instantly on Friday of apoplexy at his home at Dobbs Ferry, N. Y.

Mr. D. Grant of Singhampton, who was a caller at this office on Monday, deplors the fact that his village is not large enough to support a newspaper. It had one a few years ago, which was unable to exist but for a few months. And yet all the business men of Singhampton supported the enterprise to a man. Mr. Grant says that previous to the starting of the paper he never knew what a benefit it was to have a local paper for advertising purposes, and regrets exceedingly that he now has no medium whereby to make his wares known to the public. And yet how many men there are in every town who seldom or never make use of their local paper to place their wares before the public. Every newspaper meets such people, but so rare have they become that the publisher can afford to look upon them with pity and consideration. The scales will fall from even their eyes some day.
