Priceville

From Our Own Correspondent

Last Friday as Mr. Donald McCormack who lives a few miles south of the village, was drawing water for a threshing engine he fell off the tank on to some stones. He was so badly shaken up and bruised by the fall as to necessitate medical attendance.

Last spring the floods so damaged the old bridge on Durham Road street that it became unsafe for public travel. Our township council thought that the old structure was not worth repairing and also that a new bridge would cost too much, so they opened up negotiations with Mr. R. McGowan for a street across his lot to the main road. A bargain was struck and on Thursday, Friday and Saturday of last week Mr. Alex. Muir had a large gang of men at work grading and graveling the new roadway. The road machine was brought into requisition and under the careful and skilful management of Mr. Donald McMullan it did excellent service. The council didn't make any mistake when they purchased that time saver. The new street is as neat a piece of roadwork as we have ever seen in the county or out of it. Mr. Muir deserves credit for the energy and dispatch displayed in constructing it.

Last Saturday the directors of the Agricultural Society made good use of the road machine while it was in our burg

by using it to make a track around the fair ground. The circle is one sixth of a mile in circumference and will afford a much better opportunity for exhibitors to show off the good points of their equine quadrupeds.

The third detachment of the Priceville boys who have been away all summer, arrived home last week, in the persons of Messrs. Archie McDonald, Angus McPhail and William McKechnie. There are a few more to follow yet. Some of the lads had "hard" places but they put in their time like men. Our boys deserve credit for their pluck and industry. We welcome them home.

Mr. C. C. James came home from Toronto last Saturday, but returned on Tuesday of this week as his daughter, Miss Bertha, had to undergo another operation on Wednesday.

Mr. Richard Parslow of Swinton Park was the guest of his son-in-law, Mr. W. J. Blakeston, the forepart of this week.

Mrs. M. McAnlay of Toronto is visiting at Mr. C. C. James' at present.

What magnificent weather for this season of the year! Farmers are getting a good chance to do all their fall work.

Beauty and Glasses.

waste nerve energy and produce premature wrinkles, because they think glasses detract from their personal charms. Properly fitted glasses positively improve the looks of those with defective eyes. We put beauty in glasses as well as behind them.

Information has been laid against two parties near Proton Station and one in Euphrasia for hunting deer without a license. We believe that other prosecutions will follow.

Mr. W. C. Irwin has leased the mill at Warham and will use it for cutting the timber on the lot recently purchased by him in Osprey. Mr. Irwin will still continue his business in Dundalk and Corbetton.

A quiet but attractive wedding took place at the home of the bride's parents, Inistioge, when Wilhelmine, daughter of Henry Armstrong, was united in marriage with Thomas A. Stevens, formerly of Horning's Mills. Miss Franke Moore and Mr. Howard Armstrong filled the respective place of bridesmaid and groomsmen. Mr. and Mrs. Stevens will reside at Inistioge for the present. Their many friends wish them all success and happiness.

The fall traffic will wind up with a big rush of Canadian and American grain. The C.P.R. officials have received advices that over half a million bushels is now afloat, consigned to this port. The greater part is coming from Duluth. Wednesday night the first steamer, the Selwyn Eddy, arrived from Chicago with 150,000 bushels of wheat, and last night the steambarge Gould arrived from Duluth, with 100,000 bushel.—Q. S. Times.
