The Joy Our Heroes Bring.

When all our boys, survived, are here,
From out the plague of war,
They're welcome home as to us are
Our treasures near and dear;
They're like the floral gifts of Spring,
Whose breath is Heaven's air;
To both delights we would compare
The joys our heroes bring!

They're like the sunshine washed
with showers
In good old Summer time,
When joybells ring the runic rhyme
Of love from lofty towers;
And as such gladsome sources fling
Their cheerfulness around,
So with it too for us abound
The joys our heroes bring!

Again, they're like the Autumn's
wealth,
When harvest homes are gay,
And toil and doubt have given way
To happiness and health;
When all the merrymakers sing
Their paeans of success,
We share their triumph when we bless
The joys our heroes bring!

But, ah, they touch us most of all
When Winter snows come down,
And Nature wears her darkest frown,
And brooks and breezes brawl;
For then it is our mem'ries cling
To what and where they've been;
But recompense is given in
The joys our heroes bring!

Why worry about things that will soon be forgotten.

FATEFUL YEARS FOR ALL WOMEN

How Best to Overcome the Troubles That Afflict Women Only.

The most fateful years in a woman's life are those between forty-five and fifty. Many women enter this term under depressing conditions through overwork, worry or a neglected condition of the blood, and so they suffer heavily. Still, variations of health at this time can be relieved by home treatment.

Among the commonest symptoms are headaches and pains in the back and sides, fever-flushes, palpitation, dizziness and depression. Women stand in need of rich, red blood all their life, but never more so than in middle age, when the nerves are also weak and over-wrought. Now every woman can prove the prompt help afforded to her health by renewing her blood supply. It is a test that any ailing woman can make by taking Dr. Williams' Pink Pills, for these pills make rich, red blood, which in turn helps the appetite, strengthens the nerves and restores robust health. Thousands of women have found in Dr. Williams' Pink Pills the means by which new health and a brighter outlook of life were gained. In proof of this is the voluntary testimony of Mrs. H. S. Peterson, Milford, Ont., who says:—"I have suffered greatly from those troubles that afflict my sex, and I have found that Dr. Williams' Pink Pills in such cases not only do all that is claimed for them, but more. Dr. Williams' Pink Pills have done so much for me that I urge every weak woman to try them, and they will soon realize the great difference in one's health they make."

If you suffer from any of the ills that particularly afflict womanhood you should avail yourself at once of the health help of Dr. Williams' Pink Pills. You can get them from any dealer in medicine or by mail post paid at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

MYSTERIOUS MEMORIAL.

Stonehenge, on Salisbury Plain, Dates Back to 1700 Years B.C.

Stonehenge, the greatest and oldest of the nation's memorials, situated on Salisbury Plain, has been presented to Great Britain by its owner. As the remains of a long gone-by civilization, Stonehenge has a value and an interest equalled by no other monument in the United Kingdom.

The historic monument is composed of huge stones, some of them weighing tons, and in some instances piled one atop of another. How the great blocks were got to their positions, or their age or purpose, is a mystery, but it is believed that the monument dates from as early as 1700 B.C. It has been a place of pilgrimage for generations.

Evelyn and Pepys, Johnson, Emerson and other great men visited it, and some of them lelft records of the impression which the great stones made upon them. Johnson pointed a delightful contrast between the Cathedral of Salisbury (the spire of which can be seen from the Plain) and "those girt big stones" as they are called by the natives.

Johnson said: "These were two eminent monuments of art and rudeness, exhibiting the first essay and the last perfection in architecture." Evelyn, it is evident from a remark in his diary, made an unsuccessful attempt to count the stones. "To number them exactly," he wrote, "is very difficult; they lie in such variety of posture and confusion, though they seemed to exceed 100; we counted only 95."

Pepys found the stones "so prodigious as any tales I have ever heard of them. God knows what their use was." One large stone, known as the "leading stone," was, in 1901, restored to the perpendicular. During the excavations made then a number of implements were found, believed to have been used by the builders. They were of stone and flint.

Under various private ownerships the ancient memorial has been wrangled over in the courts, robbed of its trilithons to make bridges and mill dams, and allowed to suffer needless damage from storm and relic hunter, and has been either a white elephant or a mere source of gain.

"PORK KNOCKER'S" CONSCIENCE

A Diamond That Was "Too Big to Steal."

The atmosphere of romance that surrounds diamond mining is, of course, largely owing to the great value of the gems and to the possibility that at any moment a jewel of such unusual size and beauty as to be worth a fortune may come to light.

Diamonds are easily identified in the raw state by their peculiar sheen and shape, says Mr. William J. Lavarre, Jr., but if there is any doubt about the stones the matter can be decided by subjecting them to pressure between two knives. Anything except a diamond can be crushed. In color they vary from white to pink, blue, yellow, green or black. Their shapes range from spherical to flat and include some nearly perfect diamond-shaped gems. A few stones that I saw in British Guiana were so perfect, both in color and in shape, that it was difficult to belileve they had not been cut and polished by machinery.

The largest stone on record for that region, where the mining is carried on in a hit-and-miss manner, weighed fourteen carats; it was found by a "pork knocker" named London, who, because of his great size and strength and previous lawless acts, was feared by the other bushmen. "Pork knocker" is a local term given to a group of harum-scarum men who know no system in their prospecting, but move about here and there in the wake of such of their group as chance to make a discovery of any value. At that time London was working for another man, and, strange to say, contrary to the precedent set by his previous life, he turned the stone over to his employer. I happened to meet him afterwards in the interior and asked him how it came about that he did not keep the stone for himselff. With an unlooked-for show of eloquence he said:

"Give unto Caesar what is Caesar's, and unto God what is God's—anyway he be too beeg stone for one fellerman to steal."

His employer probably never would have seen the stone if it had been a mere five carats but for once London had been awed into honesty.

The Rock of Gibraltar.

Many interesting bits of history are connected with Gibraltar, the famous rock at the entrance to the Mediterranean. Among other things it is recalled that the last siege of Gibraltar was by far the longest of modern times. It commenced on June 21, 1779, and ended in February, 1783. It thus lasted for the long period of three years and eight months.

CANADA IS PAR GOLF.

"Canadian golfers are hard to beat, but Canadian hospitality cannot be beaten," declared Charles ("Chick") Evans, Jr., amateur and open champion golfer of the United States, after he had returned from the Hamilton and Scarborough Golf Clubs. Canadian experts in these clubs had compelled him to play his best to win, and then both clubs had made him a life member. "Canada, in my opinion," he added, "is par golf."

About the third week in June Evans hopes to make his fifth trip to Canada to play for the benefit of the Canadian Red Cross. Other noted golfers who may go along are Francis Ouimet, Jerome D. Travers and John G. Anderson. The cities visited will be Montreal, Ottawa, St. Andrews-by-the-sea and Toronto.

Canada has a string of well-planned golf courses from the Atlantic to the Pacific, ranging from seaside links at St. Andrews-by-the-sea on the Bay of Fundy to the Banff Springs Golf Club, Alberta, where the golfer can play his game at an altitude of nearly a mile. Going farther west he can play the Vancouver and Victoria golf clubs where the altitude is not far above the sea and where the golf sharp can play the royal and ancient game every month in the twelve, because the Japan current decrees that there shall be no "winter killed" greens.

This year will be the greatest in the history of Canada and the United States so far as international golf is concerned. Ten of Canada's best golfers will play against ten of the best from the United States at the Hamilton Golf and Country Club, Hamilton, Ontario, on July 25th, and the Canadian Seniors, who won the Duke of Devonshire's Cup in a match against the United States Seniors, will defend the cup in a return match at Apawamis Golf Club, Rye, N.Y.

Champion Evans has a very high opinion of Canadian golf courses, and of the Hamilton Golf and Country Club in particular. "This Club," he states, "is one of the very best links in North America. It 'swings well,' and is a thorough test of golf."

The St. Andrews-Algonquin Golf Club at St. Andrews-by-the-Sea is an 18-hole links, 6,000 yards in length, and there is also a 9-hole links near by. The long course resembles some of the best seaside links of Scotland. Toronto, Montreal, Quebec, Winnipeg, Calgary, Victoria and Vancouver are all great golfing centers. At the Banff Springs Golf Club on "The Roof of the World," the golf is excellent and the scenic surroundings unsurpassed in beauty.

TORONTO FAT STOCK SHOW.

At the annual meeting of the Toronto Fat Stock Show, held recently, it was decided to again have classes for female cattle, also that instead of requiring ninety days' ownership of carloads of cattle that it would be sufficient if owned by exhibitor at time of entry. This will be welcome news to some exhibitors who were unable to compete in some of the classes last year.

Hang Bath Mat.

Hang your bath mat up when it is not in use. Three little loops of tape, one at each end of one edge and the third in the middle of the same edge, by which it can be hung on hooks on the bathroom wall, will keep the mat cleaner much longer than if allowed to remain on the floor—will dry the mat much more quickly and will keep from becoming wrinkled or worn.

BITS OF HUMOR FROM HERE & THERE

The Scotch of It.

"How was it you never let your mother know you'd won the V.C.?"

"It wasna ma turn tae write."

His Chance.

"Mr. Bubkins," said the proud father, shaking the young man warmly by the hand, "let me tell you that you are a man after my own heart." "Oh, no, sir," protested the blushing suitor, "I'm after your daughter's."

The Mathematics of It.

She had seven million dollars
Placed in bonds and stocks and rents;
He had 'leven million dollars,
So they merged their sentiments.
Now they've raised a son whose value
Is exactly three cents.

Lazy Worm.

Two miners went on a fishing expedition. But they were novices at the game.

"Hoo are ye gettin' on, Jock?" asked one.

"Och, simply rotten!" was the reply. "I don't believe my bloomin' worm's trying."

A Wife's Revenge.

"I am sorry to be critical, my dear," said Mr. Lambkin, "but this pudding is not the kind that mother used to make—not by a long shot."

"It's too bad, Henry," replied Mrs. Lambkin, amiably. "I don't know what to do about it. Perhaps you'd better write to her and tell her. She sent it over this afternoon."

Satisfied.

"Betsy," he whispered, as they sat together on the fence surrounding Mrs. Filligan's pigsty, "ow beautiful you be! Jes' think of it, Betsy! When us be married us will have a pig of our own. Think of that, Betsy!"

"Ian," she whispered, a note of resentment in her voice, "what do I care for pigs? I shan't want a pig when I've got you!"

Then all was silent once more, save for the musical frolics of zephyrs already mentioned.

Minard's Liniment Cures Distemper.

Conjurer—"Now, to help me with this next trick, I want the services of a boy—just any boy in the audience—yes, you will do, my little man; come along. Now, you've never seen me before, have you?"

Boy (innocently)—"No, father!"

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make this beauty lotion for a few cents and see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch ! ? ! ? ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain.

He says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

Spring Fever —What Is It?

THREE o'clock in the afternoon — and absolutely no "pep." You call it spring fever, but is it?

When you are constipated waste matter remains in the intestines, decays, forms poisons which are absorbed into your blood and carried by it to every cell in your body. When your cells are thus poisoned, of course you have no "pep."

Pills, salts, mineral waters, castor oil, etc., merely *force* the bowels to act, and make constipation and self-poisoning a habit.

Nujol is entirely different from drugs as it does not force or irritate the bowels.

Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant to take.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

Get a bottle of Nujol from your druggist today and watch your "pep" come back.

Warning: Nujol is sold in sealed bottles bearing the Nujol Trade Mark. All druggists. Insist on Nujol. You may *suffer* from substitutes.
