CHESTER LONG

George Duke of Mono appeared before P. M. Pattullo in the Orangeville police court for the third time and was committed for trial on a manslaughter charge in connection with the death of Amelia Hambley, his housekeeper, who died on Sept. 14 last, The evidence of three doctors was taken and P. M. Pattullo committed the accused to stand his trial at the spring Assizes. He was released on $4000 bail, himself in $2000 and his brother James for a similar amount. The case is full of disgusting detail. Miss Hambley had been keeping house for Duke, who is separated from his wife, for a couple of years. Last September she took violently ill and it subsequently developed that an attempt had been made to procure an abortion. The girl died in great agony and at the coroner's inquest the jury censured Duke for not having secured medical attention in time. It also developed that some months previously the girl had a similar experience but recovered—Sun.

A Great Event

An event of the greatest importance to every man and women interested in Agriculture in this Province, is the approaching Convention of the U.F.O., to be held in Toronto on December 16, 17 and 18. This gathering will be of great significance to the farming community. You should keep in touch with every move made. You can do this by reading the farmers' own paper, the Farmers' Sun, which will give most exhaustive reports of every matter discussed at the great Convention.

During 1920 there will be many improvements in The Sun. Every department will be enlarged, remodelled and strengthened. Although the cost of the improvements to be made will be great, and an increase in the subscription price necessary, the price has not been raised yet and $1.00, if remitted at once, will secure for you, without doubt, the greatest farm newspaper for 1920.

Send in your subscription at once and get your neighbor to take advantage of the present subscription price.

There is no other paper just like The Sun, and none in the same position to help you. Over 30,000 Ontario farmers subscribed for the Sun. Why not you ? Send your order direct to THE FARMERS' SUN, TORONTO, ONT.

Lucas Stays on Hydro

Hon. I. B. Lucas, it is understood, will remain a member of the Hydro-Electric Power Commission. Sir Adam Beck, it is said, is desirous of retaining the former Attorney-General as a colleague, since his familiarity with the work of the commission enables him to take upon his shoulders a fair amount of the burden of work upon the commission. With two new commissioners the Hydro chairman would have considerably more to do than he has at present, and it would be practically impossible for him to leave his post for even a short time. Hon. Lieut-Col. D. Carmichael has been appointed Hydro Commissioner to fill a vacancy by the death of one of the commissioners a year ago.

Red Star Washes Quickly

This machine washes quickly, for it runs at a high speed. The gentlest push on the handle will send the fly wheel spinning, and the gentlest pressure keeps it spinning at this rapid rate until the washing is done. The clothes are swirled through the hot suds at three times the rate they can be washed by hand. In a few minutes the dirtiest garments are snowy clean. The hard work of washing the clothes is abolished. The Red Star Washer is a blessing to any housekeeper.

Call at the store to see this washer or have us send one up.
