NOT A BEE IN HIS BONNET

A young business man called into our office one day recently to see us. After a few moments of chat, he sat down in a chair but rose very quickly, not once, but twice. He acted as if a tack had been deposited where the teacher has been known to find one. On investigation our good friend found out that a wasp had been the offender that somehow had left its sting. — Tara Leader.

Liberators of Coastal Command are one of the answers given by the R.A.F. to Germany's key weapon, the U-boat. During long uneventful hours of patrol flying Liberators watch for their prey. Then they take short, sharp and usually highly successful action. A Liberator of Coastal Command keeps a rendezvous with an Atlantic convoy.
