PRETTY SOFT

It will be soft sleeping for this Allied soldier if only he can hold on to the prize he picked up in recaptured Cherbourg— a nice, comfortable mattress.

Crew of Four Mans Midget Submarines

The midget submarines, known as "X" craft, are like ordinary submarines. but much smaller and even more cramped and have no conning tower. They are manned by a crew of four. They are about 40 feet long. The only superstructure is a guard rail for the two periscope tubes and a mast-like air vent. To this is attached a steel arm with a strong leather belt, to which the captain straps himself when on the deck for observation purposes.

The largest submarine of the Netherlands navy, the Zwaardvisch (Swordfish), has a displacement of more than 1,500 tons.

The Dutch have fully-equipped air squadrons operating from England with the R.A.F. and the British naval air forces.

OTTAWA REPORTS

That Security For Farm Family Must Be Keynote Of Future Policy In Agriculture

Postwar measures suggested by H. H. Hannam, President of the Canadian Federation of Agriculture, at a recent meeting of the Society of Technical Agriculturalists, included carrying forward some wartime controls with modifications to meet changing conditions and peacetime objectives; some form of regular marketing where control of the product is necessary for an effective marketing job, or to the success of price floors; orderly organized movement of food supplies to world markets; some measure of direct or indirect control of production, with decentralization of administration and regulations self-imposed by the producers to the extent possible.

All cheese now being made in Ontario and Quebec will be taken for export until further notice, according to an order of the Dairy Products Board. This is to assure meeting of the 125 million pound contract with Britain by March 31 next.

* * *

Increased by 305,000 since the 1941 census, the population of Canada is now 11,812,000, most recent compilation of figures shows Quebec had an increase of 67,000; Ontario, 33,000; British Columbia, 30,000; Alberta, 16,000; Nova Scotia, 16,000; Manitoba, 2,000, and Prince Edward Island, 1,000. How Can I?

By Anne Ashley

Q. How can I remove paint stains from clothing?

A. Either fresh or dry stains can be removed from delicate materials without injury by sponging with chloroform. Wash fabrics can be saturated with turpentine, rubbed well between the hands and then washed in soapy water. For a very old and dry stain, add a little ammonia to the turpentine and soak the stains in this for an hour or two before laundering.

Q. How can I make better sweet pickles?

A. A small amount of vanilla and a small amount of lemon extract added to the syrup just before it is poured over the fruit will add a delicious flavor when making sweet pickles.

Q. How can I remove perspiration from silk?

A. Perspiration stains on a delicate silk garment can usually be removed by rubbing gently with a soft dry cloth.

Q. How can I avoid clogging the sink drain?

A. Hot grease should not be poured down the drain pipe of the sink. It will congeal as soon as it strikes the cold pipe and tend to clog it.

Q. How should blisters from sunburn be opened?

A. Do not break sunburn blisters, as this only adds to their discomfort. A new layer of skin will form under the blisters and they will break of their own accord.

Artic Route Tough Summer or Winter

There has been some question in the minds of sailors on the Arctic route to Russia, as to whether they prefer to make the trip in the summer or in the winter. It is a choice of evils; in the winter there is the frightful cold, and the heavy weather, but there is some protection from the enemy in the darkness of the 24-hour nights. In the summer the going is a little more comfortable, but the 24-hour daylight exposes the ships to constant observation and attack from the enemy. The daylight is now getting quite long in the Arctic but the weather was reported as "murderous."

Modern Etiquette

By Roberta Lee

1. What should one do and say, if when entering a row of seats in a theater, it is necessary for other persons to rise to allow you to pass?
2. Would it be all right for a girl to wear a slack suit when taking a trip by bus?
3. What is the correct way to eat watermelon?
4. If a man is a strictly business acquaintance, and a woman meets him at a social affair, is she obligated to recognize him?
5. In what form should an acceptance be written when replying to a wedding invitation?
6. Should the cream and sugar be placed in the cup before the coffee is poured, when eating breakfast?

Answers

1. Face the stage and pass as quickly and easily as possible. If the other persons rise, say "Thank you". 2. Yes, it would be all right as slacks are now being worn on all informal occasions. However, to be correct, a dark dress or suit would be preferable. 3. With a fork, cutting a small piece at a time, and leaving the seeds on the plate. 4. Not unless she desires to, but she usually does unless there is some good reason why she should not. 5. Write it in the third person, following the wording of the invitation, repeating in your acceptance the place, date, and hour. 6. Yes.

Have You Heard?

The plumber rang the bell and as it happened both the master and mistress of the house came to the door. As they stood in the hall the husband, who was very methodical, said:

"I wish before we go upstairs to acquaint you with the trouble."

"I'm very pleased to meet you ma'am," said the plumber.

A recent advertisement states: "It took twelve thousand workers to put that bottle of milk at your door."

Yes, it sounded as though it did.

—o—

"Johnny," said his mother, severely, "someone has taken a big piece of ginger cake out of the pantry."

Johnny blushed guiltly, and fidgetted around.

"Oh, Johnny," she exclaimed, "I didnt' think it was in you!"

"It ain't all," replied Johnny, "part of it's in Elsie."

She read the fancy recipes,
Each one a tempting winner,
Then, dashing to her kitchen, fixed
Some ham and eggs for dinner.
