A Word to the Public.

The era of prosperity which now happily reigns throughout the length and breadth of our glorious dominion benefits every branch of industry, and has very materially benefited my business, which has increased in volume several thousands of dollars over any previous year, and is steadily increasing.

Appreciating the tastes and requirements of the Public I have studiously, and I trust successfully, labored for 18 years to meet the wishes of purchasers. The support and patronage I have had justifies me in increasing my stock, extending my facilities, and at the same time materially reducing my prices.

Ambitious as I have ever been to be first and foremost in my business, I am resolved that henceforth the reputation I have achieved in this particular, shall be promoted and enhanced. Egotistical mention is not essential, but I do feel warranted in calling attention to my present full and complete stock of Goods, a stock, the greater part of which has been purchased for cash, and direct from the manufacturers, and the equal of which, for extent or variety, I do not think can be found north of Toronto. I solicit from strangers an inspection, and to my friends and customers say, that I have for them in goods and prices a succession of what I believe will be very agreeable surprises. am in a position to fill all orders, and it will not be necessary to send to Toronto or elsewhere for goods. Give me a chance to supply your wants, and I guarantee the best Goods at the most economical rates.

A call and examination will be gratifying to me, for I feel sure that an experience in patronizing me will fully confirm all that I claim for my goods.
