In- enough to obtain possession of the lodgment voluntarily I made ready for an impromptu in perpetuity. bath, and the boatman tauntingly called out, "What'd I tell ye?' but only the mast for Foreign Affairs in England, has a pretty yielded. The boat came to her bearings and Provencal home to which he always retires the mildest zephyr. The triumph was al- little or no company, keeps regular hours, ready complete; but more was to come. is a strict teetotaler, and divides his time Presently we were in a large seaway, and, between grapes and gardening. His grapes with our good speed, a large inflow of sea have won medals, and some excellent wine water over the low and sharp bow was a has been made on the estate, though the matter of course. In that, also, I was lord thereof never tastes of it. He has been agreeably disappointed. The boat, instead employed for the last six years or so on a of carrying the weight of the wind and being history of Europe during the n netcenth thus forced through the see, rose to it and century, a book very much wanted if only she glided easily over. Again it was the the author will limit himself to twenty octamast that yielded-yielded to the motion of vos at the most, the boat as easily as before it vielded to the force of the blast. The surplus force of wind, instead of racking the boat and making misery for her passengers, was simply Kolb, reach eight times round the globe, almotion was tree from the thumps and jars usual under the same circumstances. difficult of explanation without the aid of an Sept. 27, 1825, and between Manchester and How all this was accomplished may engraving. Instead of being "stepped" in

the usual way, the mast was held in a rocking shaft at the deck, and to the keel, on either side, springs were attached, having wounded, whereas between 1835 and 1875 Thus the mast, in the absence of pressure, remained upright, but under pressure yield-ed on either side. The amount of pressure infer that the tendency to accidents is yeared by nuts and screw on a guide rod inside land is attended with greater risk than in the springs. A second pair of springs, statistician observes that if a person were to connected by pulleys with the shrouds, and ielded to its movements under pressure. For pleasure boats, this spring mast is a 960 years old. great addition. It not only insures safety,
