or two postage stamps. The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming con-sequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, l means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER's CHERRY PEC-TORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithfuluse. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so effica ious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition prescribe it in their knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pul-monary complaints not already beyond the reach of human aid.
