I congratulate you on the general favor with which the Report of the Commissioners appointed to inquire into the Agricultural resources and requirements of the Province, has been received by all classes interested in agriculture. I have auxiously considered what further means may be employed to aid this great industry and to promote the welfare of the population engaged in it. During recent years in Great Britain and other European countries, and also in the United States of America, and fir the Australian colonies of Great Britain great advantage has been found to result from the collection of reliable crop reports and other agricultural statistics. A measure to secure like advantage to this province will be
