The deputation comprised, Messrs. Ellis, H. Hurd, A. Fawcett, J. Harber, A. McDunnell, and J. How.
A PUBLIC MEETING should be called of the citizens of every city, town and village in the Dominion, to consider what should be done to prevent the hair from turning Gray—and falling out. If this important question received their earnest consideration they would unanimously decide that science had at last discovered something that would answer this purpose—and furthermore would recommend Chinese Hair Renewer as being this something for restoring the hair to its natural color, and prevent its falling out. 50 cents per bottle. For sale by all Druggists.
INTERNATIONAL (SEED) WHEAT EXCHANGE BETWEEN CANADA AND THE WESTERN STATES.
Striking the word Farmers from the path-way of I. (S) W. E. I have spent many months of hard work and a large sum of money to make a new movement for its patrons as well as for myself. Evident obstacles have been encountered, and thousands of miles crossed, with the one idea of final success. Now all I require is the prompt patronage of progressive wheat-growers of Canada to make it eminently successful. My circulation of the "White Russian" and "Loyal Nation" Spring Wheat, in 1877-8, have been admirably largely beneficial to the countries of Grey, Bruce, and Huron. My aim is now through I. (S) W. E. to introduce into each district only such good profits and flouring Spring Wheats as will be specially adapted to the soil and climate of each locality, and to do so at trifling expense to the growers.
I find the following best known Western varieties the most reliable Spring Wheats for Canadian growers, (being the most likely to succeed in our soils and climate), viz: "Sea Island," "China Pearl," "Red Russian," "White Russian," "Blanco," "Fife" or "Glasgow," and "Lost Nation."
For ONE DOLLAR a half-pound each of five of the foregoing varieties (of Iowa, Minnesota, or Dakota growth) will be sent post or express paid to any Canadian address.
For TWO DOLLARS one pound each of five varieties as above will be sent with the "Loyal Nation" and "Spring Wheat" (quarterly) for 1882. The TRAVELLER has been enlarged to a 24-column size and its circulation of 10,000 copies will be largely increased if the farmers of Canada now sustain me by a liberal patronage of I. (S) W. E.
For THREE DOLLARS per bushel (as Ontario distributing points) any of the above varieties will be supplied. Each order must state the nature of the soil to be grown upon. Delivery will be made at Markdale in April, and orders received through W. J. McFarland, Esq., will have prompt attention. In order to be home in April I must have all orders before end of March. I want every farmer to give me a cordial support, and a cash order. I want no one to invest in it who will not give the grain so ordered a fair trial on good soil.
CHAS. T. DOYLE, CEDAR RAPIDS, IOWA.
ARTEMUS WARD AND THE MICHIGAN REGIMENT.
In a Louisville, Ky., hotel one day, Artemus Ward was introduced to a Colonel who had commanded a Mississippi regiment in the war. Artemus, in his way that "childish and ignorant" said, "What Michigan regiment and you, Colonel?" Then it was that the colonel spun like a top and swore like a sailor, until he pacified sufficiently to hear an explanation. Artemus, with surprise observed that "the war was going on" and "Michigan" was "in the war." It is always unfortunate to get mixed up but never more so than when one is sick. Then it is that the right thing in the right place is wanted more than at any other time in life, or at almost any other circumstances. It is a pleasure for us to note in this connection, the experience of our esteemed fellow-citizen, Colonel Samuel H. Taylor, who, as is well known, does not get things mixed. In a recent communication he writes: "I do hereby certify that I suffered from rheumatism and neuralgia during the fall of 1879, and tried many remedies with little if any hope of good result. I can wish that the reason that I know is cured me." Such an emphatic endorsement coming from one of the very foremost lawyers of our state, well and widely known, carries with it a degree of importance and suggestiveness, that cannot be over-estimated.—Washington (Ind.) Gazette.
