

HE DID.

"Now then, Mr. Ross, are you ever going to get them growers done?" exclaimed the youth entering the establishment of his favorite tailor.

"They'll be done to-morrow, sir," replied the gentleman of fits, quietly.

"That's what you said yesterday."

"Exactly!"

"Well, isn't this to-morrow?"

"Certainly not!"

"Well, wasn't to-day to-morrow yesterday?"

"It was, but it isn't to-morrow to-day."

"Well when in creation will to-morrow be then?"

"Don't you know?"

"No."

"Do you remember the last suit I made you?"

"Yes."

"You remember when I called for my money you always said you would pay to-morrow. I discovered then that to-morrow never comes: Do you understand?"

HAGYARD'S PECTORAL BAL-SAM.

Cures sooths, colds, asthma, croup, whooping cough, sore throat, bronchitis and all lung complaints that lead to consumption. Price 25 cents.

Some thief walked off with \$700 from Campbell's store, Shelburne, on Friday last. The pocket book containing the money was left on the desk in the office, and someone had cut off with it unnoticed. The robbery took place between 12 and 1, and a great many people had been in during that time. No due to the thief.

A CURE FOR CROUP.

Apply flannel saturated with Hagyard's Yellow Oil and administer the Oil internally on a little sugar as directed on the bottle. Yellow Oil cures Rheumatism, Burns, Scalds, chilblains, Lameness, and all flesh wounds. All dealers supply it, price 25 cents.

When Gladstone returns to his residence the small hours of the morning, from the British House of Commons, he sits down to the piano and accompanies himself on the instrument, an old English or Scotch ballad. No matter how prolonged the sitting may be, Mrs. Gladstone waits up for her husband and prepares for him with her own hand the cup of tea with a lemon squeezed in it, which the Prime Minister holds to be the most effective form of refreshment.

WHERE IGNORANCE IS BLISS—  
"TIS FOLLY TO BE WISE.

Dr. Bias, if not a success a prob for bullets, was highly successful in despatching bulletins; but the grand bulletin of success is that which heralds the wonderful cures performed by Burdock Blood-Bitters, that matches tonic and blood purifier which acts at once upon the Bowels, the Skin, the Liver and the kidneys, while it invigorates and strengthens the whole system.

James Hubert Ross, was accidentally shot by Charles Thompson Thursday afternoon at Toronto. Ross had just returned from the Upper Canada College, and Thompson and he were playing with an old gun; the piece went off in Thompson's hand, and a marble with which it was charged entered Ross' right lung, killing him instantly. Thompson was only eight years of age. He was a great friend of the deceased boy. He did not know the gun was loaded. The coroner giving remarkable evidence of accidental death.

INGENIOUS INVENTION.

Some shrewd Yankee has invented a key that will wind any watch, it is the natural attachment to a chain, and it is said to work like a charm. So does that great Key to health—Burdock Blood-Bitters, the greatest discovery of the age. It unlocks all the secretions and cleanses and invigorates the entire system. Strength 100 bottles, 10 cents, large size \$1.00 all medicines dealt with.

There is a man—a distinguished looking fellow—wearing a Middle Eastern dress, who does not go about it more commonly than any other boy we see living in it. He seems to have a well in private—neither is he seen to do it often. He's not a good boy, and it's but little he can put up with in subscription papers for any object. But a new family never moves into the village, but he finds them out to give them a neighborly welcome, and offer them any little service he can render. He usually looks out for the stranger, and finds him a seat at the church. He is always ready to watch with a sly neighbour. He finds time for a pleasant word for the children, with whom he is a favourite. He seems to have a genius for helping folks in various little, and it does me good every day just to meet him on the street."

SORE THROAT.

Apply Hagyard's Yellow Oil and take inwardly according to directions. Yellow Oil is the best remedy for Rheumatism, Neuralgia, Bruises, Frost Bites and all lameness, inflammation and pain. No house should be without it.

There was not much time lost in the trial of Michael O'Rourke for the murder of Maher and his daughter, in the township of Nelson, two months ago. He was found guilty, and sentenced to be hanged at Milton on the 9th of June. The taking of the life of the old man and his daughter was a most revolting act, and seems to have been done through pure devilry. O'Rourke is a young man, but drink has led him to have got the upper hand of him, and makes of a better man. It is a sad thing when the State finds it necessary to take the life of a citizen, but there was a case in which capital punishment was richly deserved; it is this. The condemned man received his sentence unmoved. Mr. J. H. Ross then pronounced the crime as one of the most heinous in criminal trials.

HAVE HOPE.

Please you despair of curing a disease you are just verging on, do not despair, but continue to consume my Hagyard's Pectoral Balsam; it has cured others, why not cure you? All dealers sell it.

#### KENDALL'S SPavin CURE.

The most successful Remedy ever discovered, as it contains in its effects and does not blister. Read Paor Below.

FROM THE ONEONTA PRESS, N.Y.

Oneonta, New York, Jan. 6th, 1881.

Early last summer Messrs. J. R. Kendall & Co. of Oneonta Falls, Vt., made a contract with the publishers of the "Press" for a half page advertisement for their Spavin Cure. At the same time we secured from the firm a quantity of books, entitled Dr. Kendall's Treatise on the Horse and his Diseases, which we will sell at a nominal price for the benefit of the Oneonta Press subscribers of the "Press" as a premium.

About the time the advertisement first appeared in the paper Mr. P. G. Schermerhorn, a well known dealer in horses, had a spavin horse. He read the advertisement, and, although his friends laughed at his credulity, he bought a bottle of Kendall's Cure in accordance with the directions, and he informed us this week that it effected such complete cure that an expert horman, who examined the animal, could find no trace of the disease or the place where it had been located.

Mr. Schermerhorn has since secured a copy of Dr. Kendall's Treatise of the Horse and his Diseases, and is a great admirer of the author, and would be loath to part with any copies, provided he could not obtain another copy. So much for advertising reliable articles.

The lameness is entirely gone after using half a bottle of the cure, and she is like a young horse again.

Yours truly,

J. F. ROSE.

Dr. B. J. Kendall & Co., Gents:—About a year ago I fell in the road onto some ice and was badly hurt in the hip joint, which caused me much trouble for a long time. I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October and received a perfect cure. I have since had no trouble with my hip joint. It is very valuable for man as well as beast.

Yours truly,

CHASER GREEN.
