OSPREY PRINTING CONTRACT.

This week we publish a letter from time clark of Osprey, on the subject of the recent printing contract. We insert it in Its entirety, not because we agree with the writer, for the matter is no clearer now than before, but to let the public see into the minds of some of our township officials and councilmen .It is impossible for anything inserted in a newspaper in plain black and white to be constructed into an action done "in a sneak-thief kind of a way." It is a pity our councillors and officials don't get on a level a bit above this kind of e ression.

There is certainly something wrong photographic artist Mr. Br.w. has with this printing contract. One of the first signs of a commu-

The printers type has to be artistic the signwriter's lettering has to bear evidence of taste, the cabinet makers goods have to be fashioned by well tutored hauds, but perhaps in no branch of industry has such rapid strides been made as in photography It is but a few mouths ago since the general public of Markdale cared little ship printing and try to make the as to whether their photographs bore people of Osprey believe a lie I think pamphlet, which we desire evidence of taste, style, skill, tone, or stated by yourself that your duty as one.
