

THE STANDARD.
THURSDAY, SEP. 7.

THE ADMINISTRATION OF THE LAW AT MARKDALE.

At the close of the court held to adjudicate on the thirty-two village cases, a general conversation took place on the cases, the method of bringing them up before the court, and the irregularity which caused the dismissal of all the cases under the Health act. Messrs. Elliot and Struthers, magistrates who had decided the cases were present, also Wm. Brown, Esq., J. P. who said that had he issued the summons or adjudicated, the cases would not have come to the conclusion that they had. Mr. Brown admitted nevertheless that the decision was "quite right," still in the first place he would not have issued the summons without advising the plaintiff on the steps he was taking. This puts the magistrate in the position of counsel for the plaintiff, and judge of the case at one and the same time! Surely this is not at all a desirable state of things. The plaintiff has in no case any more right to an exposition of the law than has the defendant, if either are in ignorance of the law, let them abide the consequence. In the second place Mr. Brown said he would have fined every one of the defendants, giving them (what they already possessed) right to appeal, this would have been another undesirable feature in law administration, for the magistrate would be acting without the statutes as no statute provides for a fine in the cases as they were brought forward, in fact the magistrate, by fining the delinquents would be law maker and law administrator. Mr. Brown said that none of the defendants would go to the expenses of appealing although he admitted that if they did appeal the original conviction would be quashed, or very heavy expenses incurred. A magistrate's duty is certainly not to be counsel for plaintiff, nor make a "moral law" and convert upon said moral law, in opposition to the statutes of the country. His duty is rather to administer the law as he finds it and thus the justices of the peace who tried these cases have done, not rashly, but with considerable thought and even the advice of the county attorney.

We are sorry Mr. Brown thus expressed himself and trust that he was actuated by a desire solely to suppress and remove the abominations which have abounded in our village.

FORD'S MILL MARKDALE.

We are always pleased to notice any alterations or improvements which tend to the advancement of our village, either agriculturally, socially, financially, religiously, or from a purely business point of view. Perhaps the greatest improvement, which has been introduced into the village of late is the building of vastly improved machinery to convert grain into flour at Mr Ford's mill. Perhaps many of our readers' knowledge of a miller's business is confined entirely to the information contained in a scripture passage which informs us that two women were grinding in a field when one was taken and the other was left, the process at that time being the simple one of passing the grain between two stones, one of which was turned by the hand. From that system of grinding to that now being carried on at Ford's mill, the leap is a great one, and without puzzling the reader with a list of incomprehensible terms we will endeavour to show our readers the benefit they may derive from improved mill machinery and appliances existing in our thriving town.

The first machine to be noticed is a wheat brushing, polishing, and finishing machine; this takes the wheat after it has left the smut machine, removes from it all remaining dust, and other impurities which heretofore have passed with the grain between the stones; many will say oh! the grain is clean enough: So we thought till we saw a room in one corner of the mill covered some 6 inches deep with dust and dirt which is deposited here by the Machine, and this dirt comes off the wheat before it passes through the stones, hitherto a great part of this passed into the flour bag as flour, henceforth it will be left behind being unfit for human food, while we were in the mill some fall wheat was brought in to be ground, we compared a sample of it as it was brought in with a handful as it passed into the hopper and the difference was great indeed. Another introduction is a dust exhaust, which draws the mois-

ture from the stones, hitherto the moisture which forms about the stones during the grinding process has passed into the flour, and formed into little pasty substances, now it is drawn from the stones by means of this exhaust and passes away.

A third machine is a bran duster. A fourth new feature is a 3-reel bolt chest with double conveyers, Mr. Ford is now laying himself out not only for the manufacture of superior flour for the people of the district but also for a complete merchant trade, and to do this successfully this bolt chest has been introduced. This applies also to a new packing chest, capable of holding 80 barrels of flour, situated in or immediately above a new flour packing machine. This is an apparatus for packing flour for shipment either in barrels or bags, the flour as it enters the barrels is pressed down with an arrangement something like the screw of a steamship, packing the flour into the smallest possible compass. Beyond this Mr. Ford has also put in another run of stones together with turbine wheel, &c., to be used solely for chopping feed.

Before the introduction of these improvements, Mr. Ford's mill was second to none within many miles for the manufacture of flour, but now he is in a position not only to make a better class of flour for those who favour him with their gristing, but also to carry on a large shipping trade. The farmers will have the benefit of the improvements on the grain turned into flour here, and at the same time Mr. Ford will be able to compete successfully with others in the manufacture of flour for foreign markets.

A leak in the mill dam which has baffled all endeavours to remedy for some years, has been overcome and thus increased power obtained.

The machinery is from Mr J. G. Grey, of Toronto, and is the best obtainable.

Mr E. P. Caye, of this town has executed the millwright's work. Messrs Moffat Bros. of our own town have constructed all the shafting, pulleys, fittings, &c. This has all been done by Messrs. Moffat in a highly satisfactory manner. Mr J. W. Ford is loud in his praises of the execution of the work done for him at our Markdale Foundry.

CHATSWORTH.

From our own Correspondent.

A young son of Mr Daniel Black, received a severe cut on the head by being thrown off a young horse on which his father had placed him to see how he could ride.

Mr Heming, merchant, leaves here about the 15th to open grocery store at Meaford. Mr Wm. Ross, of Owen Sound, will start branch store at Mr Heming's old stand.

At a public meeting held here last Friday evening, it was decided to buy one of Dobbin's fire engines to cost about \$125.

Whether John Charlton did or did not leave 63 cents of his school taxes unpaid in 1875, sure enough his lot of 50 acres was advertised for sale for taxes, unawares to him, in 1878, and 40 acres of it sold, the purchaser being the well-known McLellan, formerly of Durham, and who recently decamped from Toronto, leaving many creditors to sigh for him. McLellan mortgaged the property for \$800, and the first that Charlton knows of it was the other day when he received notice from the loan company to give up possession peacefully, rather than be forcibly ejected. Mr Charlton claims that he holds receipt in full for school taxes 1775, and the collector for that year says he remembers distinctly having received them. There will doubtless be some trouble about it; and here is proof how important a thing it is to take the local paper, and be interested in its contents.

A span of horses belonging to Mr. W. Ferguson, con. 6. Sullivan, ran away on Wednesday last, coming in contact with a grain cradle, cut itself so badly about the fetlock as to bleed to death in half-an-hour.

Rev. Jas. Cameron returned home from his trip to the South on Thursday last, after an absence of four weeks.

BERKELEY.

Spring wheat rather rusty. Oats and peas are an average crop.

In threshing fall wheat, the yield has proved 30 to 35 bushels per acre. Daily mail at Berkeley; this is another hit for the village.

Mr W. Kargant is exhibiting his load lifter at Toronto.

PRICEVILLE.

From our own Correspondent.

Quietness prevails.

Large quantity of grain out yet. A Wedding party passed through here on Tuesday.

Rev. D. McLeod is very ill. He is on the mend however.

R. Robertson is buying grain; a few loads were delivered last week at \$1 per bushel.

We compliment you on the great improvement you have made in the Standard.

Mr A. Webster has sold his new brick grist and flour mill to Mr Robert McGowan, of the Ontario Mills, Oshawa for \$1,000. Mr McGowan will put in the machinery at once, and push the mill to completion with all possible speed.

FLESHERTON.

From our own Correspondent.

Mr McPherson is spending a few days east. Flesherton Hotel is vastly improved by its new coat of veneer. The outbuildings have also been painted, and the hotel made attractive and an ornament to the village.

The Cheese Factory business is increasing. Sidewalks have had a share of attention.

On Saturday last at Dundalk a base ball match was played between the 'Stars' of Markdale, and 'Odd & Even' Dundalk, resulting in a victory for the visitors.

Stars	r. o.	Odd & Even	r. o.
McDougal	4 4	Glazier	3 4
Sproule	4 3	Melaney	3 3
Brown	5 1	McGregor	4 2
Richardson	5 2	Mercer	4 2
Hill	2 4	McKay	3 3
Munshaw	3 2	Morgan	2 4
Gibson	2 2	Malby	3 2

Rose	1 5	Booth	0 5

And by innings:
1 2 3 4 5 6 7 8 9
Stars 1 0 3 5 6 1 2 6 3 - 27
O & E 4 1 2 7 5 0 0 1 - 26
Scor.—Peterson and Benson.
Ump.—H. Telford.

A New Catechism in Drayton.

Q.—What is rheumatism?
A.—Rheumatism is a humorous sensation that causes men to rub their joints with St. Jacobs Oil, play practical jokes, throw things around, wear crutches and stay indoors, swathed in red flannel.—*Drayton (C.) New Era.*
Q.—What is St. Jacobs Oil?
A.—A peculiar substance of a very penetrating nature, which causes rheumatism to leave the system astonishingly quick,—insuring evenness of temper thereby, and ability to do one's work satisfactorily. It banishes crutches, retires flannels, produces happiness, and brings us down to a serene old age without the martyrdom of pain.—*Exchange.*

EARS FOR MILLION

HO CHOO'S BALSAM OF SHARK'S OIL positively Restores the Hearing, and is the Only Absolute Cure for Deafness known. This Oil is abstracted from peculiar species of small White Shark, caught in the Yellow Sea, known as CARCHARON RONDLETTI. Every Chinese fisherman knows it. Its virtues as a restorative of hearing were discovered by a Buddhist Priest were covered about the year 1410. Its cures were so numerous, and many so seemingly miraculous, that the remedy was officially proclaimed over the entire Empire. Its use became so universal, that for over 300 years no Deafness has existed among the Chinese people. Sent, charges prepaid, to any address at \$1.00 per bottle.

Hear what the Deaf say:
It has performed a miracle in my case. I have no unearthly noises in my head, and hear much better. I have been greatly benefited. My deafness helped a great deal—think another bottle will cure me.
Its virtues are unquestionable and its curative character absolute, as the writer can personally testify, both from experience and observation. Write at once to Haylock and Jenney, 7 Dey Street, New York, enclosing \$1 and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so.—*Edron or Mercantile Review.*
To avoid loss in the mails, please send money by Registered Letter.
Only imported by HAYLOCK & JENNEY, late Haylock & Co., Sole Agents for America. 7 Dey St New York 93-145.

GEORGE NOBLE, INSURANCE AND LAND AGENT, LICENSED AUCTIONEER
For the County of Grey.

AGENT for the following reliable Companies: CITIZENS', of Montreal, AGRICULTURAL, of Watertown, and TRADE & COMMERCE, (Mutual) of Toronto.

A number of Choice Farms for sale, also Village Lots.
Auction Sales conducted in Town or Country on Short Notice. Charges moderate. Bills, Blank Notes, and Stamps provided.

GEO. NOBLE, MARKDALE, May 20th, 1881.

A WORD OF CAUTION.

Beware of Opium and powerful astringent drugs in the treatment of Bowel Complaints they may lull the pain and check Diarrhoea, etc., but are liable to produce inflammation. Dr. Fowler's Extract of Wild Strawberry is guaranteed safe and reliable even for infants, and is a specific for Cholera Morbus, Dysentery, Colic, Acute or Chronic Diarrhoea and summer complaints generally.

John Reid, police inspector, has stopped his paper and paid up. If in all things he did his duty thusly, he would do well. But as in many things he does his duty spitefully, he does ill. Friend Reid, we shall not cease to speak freely on your account.

DYSPEPSIA.

Is the most common of all diseases, and under ordinary drug treatment the most difficult to cure, it is a chronic weakness of the stomach with indigestion. The sensitive mucous membrane coating the stomach becomes irritated, and nearly all that enters the stomach continues to add fuel to the fire. Heartburn and sour eructations, belching of wind, Nausea, headache, variable Appetite, Costive Bowels, etc., are its prominent symptoms. Burdock Blood Bitters is a positive cure for this miserable disease.

We regret to learn that a child of Mr. Campbell's of Flesherton, was run over by Rev. N. A. McDiarmid, of Markdale, and had its leg broken. Mr. McDiarmid did his best to save the little one.

Robert A. Wilson, Dispensing Chemist, Brockville, says under date of June 5th, '82, "I have not the slightest hesitation in saying that Dr. Fowler's Extract of Wild Strawberry has given my customers more satisfaction than any medicine in my store for the cure of summer complaints; Diarrhoea, Dysentery, pain in the stomach, sea sickness, Piles etc., you can use my name etc."

WILL YOU EXCHANGE

a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you. ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures. It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver. Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

SEEING IS BELIEVING.

GENTLEMEN,— If you want a first-class Buggy or Wagon call at

MCKENNA & MASON'S CARRIAGE WORKS MARKDALE.

They can supply you with anything from a Lumber Wagon up to Extension Top Phaeton.

To buy from them is to **SAVE MONEY!**

They are both practical workmen, and employ none but **PRACTICAL WORKMEN**

They guarantee their work Second to none for Lightness of Draught and Superiority of Finish.

They use nothing but First-class White Oak for Wagons, and thrice Extra Second Growth Hickory for light work. The immense amount of work turned out of McKenna & Mason's shop is sufficient proof of the wide reputation they enjoy for doing good work.

THE BEST IS THE CHEAPEST IN THE END Poor cheap work we positively will not take.

Special attention given to Re-Trimming and Re-painting all classes of Carriage Work.

Satisfaction guaranteed (or No Pay) in **HORSESHOEING** SHOP—On Mill Street opposite to Sproule's Hotel. **MCKENNA & MASON,**
