MARKDALE, SEPT. 14th, 1882.

LATEST WAR NEWS.

Nothing very important has transpired the past week, but a general advance of the British was expected to take place yesterday. The British troops are reported in excellent spirits and tidings of a heavy engagement is expected shortly.

OBITUARY.

It becomes our painful duty this week to chronicle the death of a highly respected farmer, in the person of Mr. Samuel Donnelly, who departed this life on Wednesday the 13th Sep, 1882, at the age of 45 years. Deceased has been in poor health during the past year. His illness developed into consumption which hastened him to a premature grave. Mr. Donnelly moved into the township of Glenelg about twenty years ago, and has since made many warm friends; has filled the office of councillor with acceptance, and also other positions of trust. He has long been a constant and worthy member of the Presbyterian church and elder of the same. He leaves a wife and two children who, with a wide circle of friends, mourn their loss. We extend to the sorrowing family our warmest sympathies in their present affliction.

The following is the result of the return match between Markdale and Dundalk, which came off on the grounds of the former on Saturday last.

Our patrons need not be afraid of insinuations or offensive personalities through the columns of the STANDARD in future, as the cause has been removed.
The Advance devoted a column of space last week in abusing the Clerk of Osprey, and ourselves, without making a point however. We do not think it worthy of reply. It is, in our opinion, a poor ploy to endeavour to raise one's self by speaking evil of others.
Miss Thibaudan, second teacher in the Markdale school, was fined \$10 and costs on Monday last for chastising a pupil too severely. It appears four children were being punished alike for misconduct but one of them being determined not to obey was dealt with accordingly and the result was as above.

VENNOR'S WEATHER FOR SEPTEMBER.

Mr Vennor's promises the following weather for September:

There will be excessive heat again during the fore-part of September where heat was experienced during the last of August and entry of July. The month enters on a Friday—an unlucky day, for "so the story goes." Stormy weather probable on both sides of the Atlantic Ocean.

Sep. 1 to 7. Foggy weather along the North Atlantic coast and Gulf of St. Lawrence, with thunder-storms and probably sultry weather over the North Atlantic. Sultry and showery up to the 6th day. Cooler change night of 6th or 7th, with possibly frosts in New York State and Quebec, Canada.

Sep. 7 to 14. Cooler and pleasant weather. Days varying from warm to sultry; evenings and nights generally cool. Favourable week in majority of sections. Cold in mountainous regions; Probably rain in Quebec and Lower Provinces.

Sep. 14 to 21. Rather stormy and unsettled week, with frequent rain-falls. Windy weather probable in Gulf of St. Lawrence and North Atlantic. Fair seasonable weather in majority of sections. Wet in northern sections about 20 and 21. Stormy and cold weather in England and in Scotland.

Sep. 21 to 28. Temperature probably fall-like. Windy with very cool evenings and nights, probably frosty, in north and west states; stormy and wet in Gulf of St. Lawrence and on the North Atlantic coast.

Sep. 28 to 30. In all probability wet and stormy in majority of sections. Crop report less favourable than expected. Wretched weather in Maritime ports and also at Newfoundland.

RISE IN PORK.

It will be good news for farmers, perhaps, but bad news for people who have to buy their provisions, to know that pork is still on the rise; that the article is still very scarce on the Western markets; and that for the first time in the history of pork packing the mammoth concerns at the Chicago stock-yard of Fowler Bros. and Atkinson and Co., packing provision companies, are shut down through the scarcity of hogs. Over 2,500 men are out of employment in consequence. The cause is attributed to the high price of corn for the past few months, farmers selling grain instead of feeding it to their stock. There is not more than half a crop of corn this year in the West, and this will tend to still further increase the price of pork; while the scarcity of pork will cause a great demand for beef, which will be scarce for the same reason.

A copy of the first issue of the Dundalk Herald, under the new proprietor, is before us. It is a 28 column sheet printed on double demy. It is very neatly got up, with a good advertising patronage, and is independent in politics. We wish the proprietor every success.

The Presbyterian Ladies Aid Society intend holding their Bazaar on show day, Sep. 27th, at the entrance into the Agricultural grounds. There will be a variety of valuable articles offered for sale. Lunch, at 15c, to 4 p. m. In the evening there will be an entertainment in the Dufferin Hall, consisting of an art gallery, music, a variety of scenes, and artistic work. Doors open at 7.30, admission 15 cents.

Correspondence

Notice.—We wish it distinctly understood that we do not hold ourselves responsible for the opinions expressed by our correspondents.

To the Editor of the Standard.

Srs.—Now that the holidays are over, I would like to draw attention to the length of the school vacation; six weeks being far too long. This matter should be fixed by law, and not left to the trustees, who don't care to incur the frown of the teacher. Two or more of the Artemesia teachers have been away sick for four weeks, which with six weeks vacation makes 10 weeks holiday, yet they demand full pay, and one is talking of another week's holiday and a rise in his salary!!!

It is said that the reports of a school in Artemesia are not reliable, and trustees should compare and examine the half-yearly reports.

A RATEPAYER.

To the Editor of the STANDARD.

DEAR SIR,—For the last few months I have noticed some very slanderous remarks by the Flesher on Advance on our Council, and especially on our highly esteemed Clerk, Mr. Milne. I thought to have let the matter pass without interfering, but such slanderous reiterations I can bear no longer. The cause of the dispute, it may be well to notice, is because the Advance did not get the Township printing. I understand from one of the councillors that the Advance puts in a tender, stating he will do the general printing for the Township for a certain sum. Another printer puts in a tender stating what he will do and at what price. I would like to think as some do, that it was ignorance of the Advance that caused him to put in his tender in this way, but he is so quick in calling others crafty and wily that I cannot but think he intended to have quite a nice bill of extras when the account would be sent in, and because our Council was too sharp to be duped by him, hence the abuse he has been heaping at them since. Because the Clerk happens to be a Grit he comes heaviest on him, doubtless thinking the Conservatives of Osprey would be pleased to see a Grit slandered. But, Mr. Editor, I am proud of the Conservatives of Osprey, as they speak of it with supreme contempt. The unfounded statement made by the Advance that Mr. Milne had the promise of 15 per cent. discount on the Township printing I am happy to say is received as utterly untrue, and many I have heard speak say the Advance must have intended to make it a matter of consideration to some of the Council or he would not have thought of charging Mr. Milne with any such thing. The old adage may be very well applied in this case, "evil to him that evil thinks." The editor of the Flesheron paper seems to consider it a crime to be a Grit (of the first water) as he puts it. Does he think the people of Osprey did not know what Mr. Milne was before he was placed in office, and that by a Conservative council? Did not one of the councillors lose his seat in the Council for one year because he voted against Mr. Milne as Clerk? I say such is the case. I would also say, the people of Osprey have known Mr. Milne longer than they have known the editor of the Advance (or ever wish to know him, from what I hear), and they have found him a gentleman in every particular, and as for his honesty and integrity, I venture to say not one in the Township doubts it after all the Advance has said. The people of Osprey know full well if the Council gave the contract to a higher tender than the Flesheron paper they had good reason for it, especially if the Clerk had anything to say in the matter. I will now conclude, hoping the Advance will perceive that his letters so far from changing the confidence of the people in the Clerk is only strengthening it and lowering the editor of the Advance. I am sorry I cannot consider the editor of the above paper a brother Conservative of the first water, nor of anything but dirty water.

VERITAS.

A doctor will sit down and write a prescription; time, five minutes; paper and ink, 1/2 cent, and the patient pays \$1, \$2, \$5, \$10 as the case may be. A lawyer writes ten or twelve lines of advice, and gets from \$10 to \$20 from his client. An editor writes a column puff for a man, pays a man from 50 cents to \$1 for putting it in type, prints it on several dollars' worth of paper sends it to a thousand people, and then surprises the puffed man if he makes any charge.
