

OUR VILLAGE.

In looking around us we are struck with the close competition in the various lines of business represented in Markdale, and are led to believe that in no place in the county at the present time can purchasers procure as good value for their money as in this town. However, we think there is room for others. There is a first-class opening for a tannery, a stove factory, and a woollen mill, any of which, if properly managed, would no doubt prove a profitable investment to the proprietor, and a valuable addition to our already flourishing business centre.

There is any quantity of soft elm timber a short distance from the village which is of little use for anything, and for which there would be a ready market at good prices if we had a stove factory. There is an almost unlimited demand for staves, which is likely to continue.

The advantages the place offers are equally encouraging for a tannery or wool factory. We hope our business men will be alive to the importance of encouraging and, if necessary, of assisting to establish manufacturing industries in our town. The property owners have also a special interest in the development of the place; we mean those who hold property suitable for sites for such, and we believe it would be to their personal advantage to offer a site for the establishment of such a nominal figure, thereby encouraging public enterprise, which would create a demand for further purchases of village lots. We will refer to this matter again.

OBITUARY.

ANOTHER PIONEER GONE.

It becomes our duty this week to chronicle the death of one of the oldest settlers of our Township, Mr. Mark Armstrong, who departed this life on Saturday, the 14th inst., aged 78 years and 6 months.

Mr. Armstrong was born in Monaghan county, Ireland, on the 4th April, 1804, and married Elizabeth, daughter of Mr. John Strain, of the same place, in October, 1828. In 1846 he and his wife emigrated to this country and settled in the Township of Markham where he remained four years, and again removed to the County of Grey, selecting the present site of Markdale as their future location. There was very few settlers in the Township at the time consequently they had to endure the hardships and privations of a pioneer life.

He has always taken a lively interest in any enterprise that had for its object the advancement of the interests of the village which derived its name (Markdale) from him. He has been a liberal and cheerful supporter of the Methodist Church, of which he was a zealous member for upwards of 50 years, and held the office of a local preacher for nearly the same period, was one of the trustees of the church and parsonage in Markdale, the site of which, comprising over an acre, he generously donated.

The funeral was very largely attended and an appropriate sermon was preached in the Methodist Church by Rev. N. A. McDiarmid, after which the corpse was conveyed to the cemetery where the last rites were performed. We extend to his sorrowing widow our condolence and trust that she may be Divinely sustained in this painful bereavement.

OSPREY FALL SHOW.

The agricultural society of the above township held their fall exhibition in Maxwell on Tuesday, the 10th inst. The day was cool and dry, and there was a good turnout. The exhibit of horses was good, there being a marked improvement in this class. Some good specimens of grade cattle were on the grounds, but we are led to ask ourselves, as well as others, the reason why there are so few cattle exhibited compared with the number of horses at the different local exhibitions, and the general answer we get is this, "the cattle are hard to drive and take too much trouble looking after them, and we do not think it worth the trouble for all we get for it." This is, we think, quite reasonable. There is comparatively little trouble in driving a horse five or ten miles, but when it comes to driving young cattle it is not quite so handy.

There was quite a display of carriages and ploughs exhibited. In the inside department there was a very good display of articles. The display was not as large as last year, but the quality of the articles were very creditable.

It is very evident that a society that has not proper grounds where all can be shown in one enclosure is working at a disadvantage. We are indebted to the Secretary, Mr. Josiah Gamey, for the

HOLLAND SHOW.

(From our own Correspondent.)

The fall show of the Holland Agricultural Society held here on the 10th inst. was the most successful the Society has ever had. The outside department more than held its own, whilst in the inside there was a noticeable improvement. The day was particularly fine and the attendance unusually large, no less than fifteen hundred people being present. In the evening the Judges and Directors and a number of others sat down to dinner at Campbell's Hotel, when a very pleasant time was spent in discussing agricultural matters generally. The following is the prize list:—

A VEXED CLERGYMAN.

Even the patience of Job would become exhausted were he a preacher and endeavoring to interest his audience while they were keeping up an incessant coughing, making it impossible for him to be heard. Yet, how very easy can all this be avoided by simply using Dr. King's New Discovery for Consumption, Coughs and Colds. Trial Bottles given away at A. Turner & Co's Drug Store.

THE "TIN KING" TALKS.

From Maine to Manitoba.—from St. Johns to British Columbia, Mr. Thos. W. McDonald, the Tin King of the Dominion, whose large works extend from 163 to 167 Queen Street, Toronto and cover a solid block in the heart of the city, is recognized and respected. Mr. McDonald's experience with the Great German Remedy is thus announced by him: "It is very gratifying to me to be able to give a written testimonial respecting the unequalled merits of the world renowned remedy, St. Jacobs Oil, as an alleviator of pain. I was for years sorely troubled with a swollen leg. In vain I tried all the prescriptions of medical men. At last in deep despair I resolved to test the virtues of St. Jacobs Oil, the Great German Remedy, and to my great joy before one bottle had been exhausted I found myself completely cured. Trusting that St. Jacobs Oil may meet with the success it deserves, I place this statement, by reiterating my indorsement of its efficacy."

WOMAN'S TRUE FRIEND.

A friend in need is a friend in deed. This none can deny, especially when assistance is rendered when one is sorely afflicted with diseases, more particularly those complaints and weakness so common to our female population. Every woman should know that Electric Bitters are Woman's true friend, and will positively restore her to health, even when all other remedies fail. A single trial always proves our assertion. They are pleasant to the taste, and only cost fifty cents a bottle. Sold by A. Turner & Co.

The great sale now going on at McFarland's. Over \$7,000 worth of goods purchased at 47 1/2 cents on the dollar, to be slaughtered.
