To its Natural Vitality and Color.

Advancing years, sickness, care, disappointment, and herditary predisposit ion, all turn the hair gray, and either of them incline it to shed permaturely. on, by long and extensive use, has proven that it stops the falling of the hair immediately;

often renews growth; and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression, falling hair is checked and stablished; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scarp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

Catarrh is a muco-purulent discharge caused AYER'S HAIR VIG- by the presence and development of the vegetable parasite amœba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxomea, from retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood.
