**MANHOOD
HOW LOST, HOW RESTORED**
We have recently published a new
edition of Dr. CULVERWELL'S CELE-
BRATED ESSAY on the radical and
permanent cure (without medicine) of Ner-
vous Debility, Mental and Physical Incapac-
ity, Impediments to Marriage, &c., resulting
from excesses.
Price, in sealed envelope, only 6 cents,
or two postage stamps.
The celebrated author, in this admirable
Essay, clearly demonstrates, from thirty
years' successful practice, that alarming con-
sequences may be radically cured without the
dangerous use of internal medicines or the
use of the knife; pointing out a mode of cure
at once simple, certain and effectual, by
means of which every sufferer, no matter
what his condition may be, may cure himself
cheaply, privately and radically.
This Lecture should be in the hands of
every youth, and every man in the land.

EARS FOR THE MILLION
FROO CHOO'S BALSAM OF SHARK'S
OIL positively Restores the Hearing,
and is the Only Absolute Cure for Deafness
known. This Oil is abstracted from peculiar
species of small White Shark, caught in the
Yellow Sea, known as CARCHARODON RONDE-
LETTI. Every Chinese fisherman knows it.
Its virtues as a restorative of hearing were
discovered by a Buddhist Priest were dis-
covered about the year 1410. Its cures were
so numerous, and many so seemingly mir-
aculous, that the remedy was officially pro-
claimed over the entire Empire. Its use
became so universal, that for over 300 years
no Deafness has existed among the Chinese
people. Sent, charges prepaid, to any ad-
dress at \$1.00 per bottle.

Hear what the Deaf say:
It has performed a miracle in my case.
I have no unearthly noises in my head, and
hear much better.
I have been greatly benefited.
My deafness helped a great deal—think an-
other bottle will cure me.

Its virtues are unquestionable and its cur-
ative character absolute, as the writer can per-
sonally testify, both from experience and ob-
servation. Write at once to Haylock and
Jenney, 7 Dey Street, New York, enclosing \$1
and you will receive by return a remedy that
will enable you to hear like anybody else, and
whose curative effects will be permanent.
You will never regret doing so.—EDITOR

Osprey.
John Heron and Thos. Gamey, jr.,
left for Manitoba last week.

J. T. Galloway of the 10 con.,
Osprey, has sold his farm and purchas-
ed in Nottawasaga, where he remov-
ed last week.

Maxwell has a tailor in the person
of T. Mordan.

ACCIDENT.—While making square
timber on the farm of Hugh Wright,
10 con., Osprey, in the falling of a
tree, the butt end sprung to one side
striking John Ottwell, a young man
of about 24 yrs., shattering the bones
of his leg between the knee and ankle.
Dr. Kerr was sent for and dressed the
limb, which will take a long time to
recover, as the bone was badly splinter-
ed.

MANTOWANING.
(From the Expositor.)
Burns' steam grist mill is now in
running order.

John Saijohn, resident near Gore
Bay, had the misfortune to have his
house burned recently.

S. Leveratt, of Orillia, and Jos.
Maughan, of Owen Sound, arrived in
town via Parry Sound on Saturday
evening.

\$55 was realized from the tea-meet-
ing and social held in this village un-
der the auspices of the Methodist Sun-
day school.

It is reported that the iron steamers
Passport and Magnet are to run be-
tween Owen Sound and the Sault
next summer.

One noticeable feature in the set-
tlements on this Island is that, in al-
most every case, the barns are much
better buildings than the houses.

A short time ago Louis N. Thibau-
deau advertised his farm for sale in
the Expositor. To day he received a
post-card from an M. D. in Lindsay
requesting a full account of the situa-
tion, soil and price of farm. The
same gentlemen wanted a full descrip-
tion of Rydal Bank, which he will get
by return of mail. No one can tell
when or where a paper is read. A
good local paper does much for the
advancement of the locality in which
it is published; but in many cases
the benefit is not seen or appreciated.
A local paper is worth its cost in the
education of a family, as teachers can
do more work in families where one
is taken.

PRUNING FRUIT TREES.
The Gardener's Monthly advises
fruit growers that the winter is a very
important season in the management
of fruit trees, and adds:
"The winter season is a very im-
portant one for the management of
fruit trees. Pruning is especially
important. Some believe that if the
foundation of a tree be properly laid
in youth, there will be no necessity to
prune an adult tree. This does not
accord for the writer's experience. An
intelligent examination, both with the
saw and good knife in hand, should
be made every winter. Good, hard,
large, healthy leaves in every part of
a tree are of vast importance, and
these can not be had when branches
are close together, smothering one
another.
"It should always be remembered
in pruning that we want sound, healthy
wood to make sound growth, and
nothing is more common than to see
in dwarf pears, especially the
healthy, vigorous shoots, shortened
back, and loaded with weak fruit-spurs
left to make the next season's growth!
Thinning out, not shortening back, is
what such trees require.
"Pruning is very important, but
above all, for both apple and pear or-
chards, we bespeak a liberal dressing
—a top dressing of something or an-
other. If no manure is to be had,
even common road sand will be found
to have a beneficial influence. Pover-
ty of the surface soil is often a cause
of fruit failure than 'grass,' change
of climate, or many imaginable ills
brought up from some ghostly cavern
of thought to cover up the poverty of
pocket or of industrial inclination."—
Canadian Farmer.
