THOSE CONTEMPTIBLE ITEMS.

The editor of the Flesherton Adrance clipped last week an item from our news column and part of our Flesherton Station Correspondence, we are pleased that he gave those items as they were—tor, had he ccmmented on them without giving them in full, those who would not have an opportunitty of seeing the items referred to, would really think we had said something worthy of censure in reference to Flesherton. Mr. Fawcett the editor says comment is unnecessary, and then tries to palm off an article as a correspondence from a farmer of Artemesia, we challenge him to give the name of any respectable farmer of Artemesia who will father the correspondence referred to. It is an evidence of weakness when in order to give an article a tone of respect and credibility, the editor endeavours to make it appear from another source. We have never spoken disparagingly in reference to Flesherton or the citizens of that place through the STANDARD, much less given place to items mean and cantemptible. Of course when the editor of the Advance overdraws his pictures (as he often does) we are apt to poke fun at him, and our correspondent at Flesheston Station appears disposed to do likewise. Anything we have said by way of cross-firing with the Advance has been in the defensive. We done." have many warm friends in Flesherton and vicinity who show in a practical manner their appreciation of a respectable journal by the generous support they continue to give the Markdale STANDARD, and it would not be prudent to act in a disrespectful or their interests even we were personaly inclined to do so, but that is not our nature, and we can assure Mr. draw us into any such course.

## HORSESHOEING

A SPECIALTY.

Readers of the Commercial can not well forget that a large space has for years been taken up by Kendall's advertisements-especially of a certain Spavin Cure. We have had dealings with Dr. Kendall for many years, and we know of some large business houses in cities near by, who have also dealt with him for many years, and the truth is fully and faithfully proven, not only that he is a good honest man, and that his celebrated Spavin cure is not only all that it is recommended to be, but that the Engligh language

is not capable of recommending it too highly. Kendall's Spavin Cure will cure spavins. There are hundreds of cases in which that has been proven to our certain knowledge, but, after all, if any person confines the usefulness of his celebrated medicine to curing been to convince the public spavins alone, they make a big mistake. It Moved by Deavitt, Galbraith, that all path- Blakely —In Euphrasia, on the 3rd inst., that it was to their interest application for rheumatism in the family.
