WILSON BENSON.

Readers of the Commercial can not well forget that a large space has for years been taken up by Kendall's advertisements—especially of a certain Spavin Cure. We have had dealings with Dr. Kendall for many years, and we know of some large business houses in cities near by, who have also dealt with him for many years, and the truth is fully and faithfully proven, not only that he is a good honest man, and that his celebrated Spavin cure is not only all that it is recommended to be, but that the English language is not capable of recommending it too highly.

Kendall's Spavin Cure will cure spavins. There are hundreds of cases in which that has been proven to our certain knowledge, but, after all, if any person confines the usefulness of his celebrated medicine to curing spavins alone, they make a big mistake. It is the best medicine known as an outward application for rheumatism in the family. It is good for pains and aches, swellings and lameness, and is just as safely applied to men, women and children as it is to horses. We know that there are other good ointments, but we do believe this spavin cure to be far better than any ever invented. 133-36.

MAMMOTH Spring Opening!

MAMMOTH HOUSE! MARKDALE.

While presenting our compliments to our hosts of customers and the public at large, we desire to make our very best bow in acknowledgment of the liberal patronage we have received since opening in Markdale, and having passed through a most successful winter campaign, the results of which have surpassed our most sanguine expectations, and so contributed to the consolidation of our commercial basis that we are now better than ever prepared to offer our patrons facilities the equal of which have never before been placed within the reach of the public of this section of country.

Our stock which is already exceptionally large and well assorted is being daily augmented by fresh arrivals of Spring Goods. Our stock of Boots and Shoes just opened out, and now selling like wild fire cannot be beat in the county, and we respectfully invite an inspection by an intelligent public.

MR. TRIMBLE is now on the market for the purpose of personally selecting such goods as are best calculated to suit this section of the country, and neither pains or expense will be spared in order to place before our customers such a spring stock (when complete) as will astonish and please, and at prices that cannot fail to suit.

Having been thoroughly trained to the business from our childhood, and having enlisted our whole interest and attention towards making it a success, and being thoroughly acquainted with the section of the country in which we are placed, we flatter ourselves that we understand something of the wants of the people and also how to buy so as to be able to sell at such prices as will convince the most sceptical. Our motto is—A LARGE BUSINESS ON SMALL PROFITS—on a cash basis, avoiding the necessity of charging good customers extra to make good our losses by bad debts. We are prepared to prove to the satisfaction of every man that the old credit system is not only false in principle ruinous, alike to merchant and customer. Selling for cash we can buy for cash and turn our money over and over, thus securing to our customers goods at prices at which we could not buy them wholesale on the old system, and to ourselves the satisfaction of a prosperous business on a safe footing.

An inspection of our Stock is respectfully invited. No trouble to show goods, being desirous of an opportunity to convince you that we do not advertise for the sake of puffing, but are in a position to back up all our assertions with solid facts.

Win is cheap but not lasting, while truth is indestructible, and in business integrity and honor will win in the end while boastful admiration will fall behind.

To our old customers we would say that we are prepared to surprised even you in quantities, and qualities and prices, while to those who have not yet discovered the advantage of giving us a call we would present a cordial invitation to compare our stock and prices with what they have been used to in the past.

Trimble & Wright.
