DELAY IN THE MAILS.

Our subscribers at Pomona Post Ofpapers not coming to that office reg ularly. We beg to say to them, as well as to all our subscribers, that the STANDARD is mailed every Thursday afternoon, in time for the 4:30 p.m. mail, and we are ignorant as to where the delay is. It is very annoying to subcome regular, and we are of opinion that mail clerks, (at least some of them) are either incapable of properly What did prompt me to write was to say a \$5 00; Grass Seed, \$2.00 to \$2.10 discharging their very important duties or else an extreme carelessness exists on their part.

We very often receive our Owen Sound papers from Toronto, a day or facts. Whether trashy, as he says, or not, later than they should arrive, and occasionally our Toronto mail from Owen Sound. We have mailed matter to Flesherton (six miles) which to confute his first letter. Well, sir, I think did not reach that place for four days, and various instances of equal irregularity and delay could be mentioned. ficient to sustain my position and confute T. We are not given to complaining un- K's statements or not, of course I leave to 20c; eggs. 20c to 21c. less there is a just reason, but we others to judge, but in reading this asserdeem it our duty to call the attention of the public to these matters and hope that good results will follow.

LOST HIS BALANCE.

The Flesherton Advance is quite annoyed because it has been unable to excite the ire of the STANDARD, bless your heart, we are in common with every other farmer (one of only the more amused at the bombast of the Advance in reference to us, and only require to consider where it comes from in order to appreciate his mighty efforts. If the wonderful sheet had a reputation of reliability. we might be led to give serious consideration to the charge it makes last week, but of in controversy. course it has to say something, and it appears that untruth is the easiest of access hence the groundless statement.

THE QUEENS BIRTHDAY IN MARK-DALE.

The committee of management for the celebration of the Queen's Birthday in this place are determined to make it the most successful eyer held here. They have appropriated nearly \$200 in cash prizes alone to horse racing, and the course which is on the Agricultural grounds is being fittted up for that purpose. Then, as may be seen by posters, a large amount is given, all in cash, for atheletic games. These together with the Bazaar by the L. A. S. of the Methodist church will draw an immense crowd.

WHAT THE STANDARD WOULD LIKE TO SEE.

A six feet sidewalk to the station.

And a row of maple trees likewise, and the boys not to destroy them.

McFarland's elevator painted and Hill poned till next assizes. Bros'. finished.

An immense crowd in Markdale on the

24th.

doing. A lockup built, -or the cause for one re-

moved.

Further repairs on the Sidewalk and additional crossings.

Carrespondence.

l'o the Editor of the STANDARD.

DEAR SIR,—I am sorry to be under the necessity of again correcting Mr. K. He states in his letter No. 3 that the Observer of letter No. 1, is not the writer of letter No. 2. If T. K's informant has told this he is certainly very unreliable and untruthful, but if he has depended on his own imagination fice have been complaining of their for his information I must say it possesses the same qualities. In either case he should be more careful in future as he will see they have led him astray and are not to be depended upon as reliable.

The facts are that no other person or company of persons dictated or are in any way respondsible for the letters referred to and Observer of 1 and 2 and this makes 3 are one and the same person. Again, he scribers when their paper does not says if I had written my own name your readers would have known what prompted little in defence of the institutions establish ed for the benefit of the farmers of this Province, which he denounced, but did not attempt to prove his statements and insinuations respecting them, either by arguments I leave that with the intelligent readers to judge, as they are in a better position to do so fairly and impartially than T. K. is. Again, he states that I have never been able that I adduced a few, of the many that could tion of his I was forcibly reminded of the character whom Solomon describes as being wiser in his own conceit than seven men that can render a reason.

In conclusion he says that it is ungentlemanly to not write over my own name. Now sir, this is not true, as the questions discussed are of a public nature and for the general benefit, and I am in no wise personally interested in those institutions, other than which I am). I have endeavored to discuss them as public questions on their own merits, and avoided, as far as possible, private personal matters or things foreign to the subjects discussed. True, some deductions were drawn from the facts and arguments adduced and applied a little closely, but nothing but what was fair and allowable

There were some other points in T. K's second letter which I intended to touch upon, but as he holds out the flag of surrender, I will desist for the present. When he next goes into public print with letters I would advise him to base his assertions on facts and not on his own opinions. With no ill will towards T. K. and wishing him still better success as a farmer, I bid him "good speed" and remain.

Dear Sir, Yours Truly, OBSERVER.

SPRING ASSIZES.
