The Standard.

MARKDALE, MAY 17TH 1883.

"INDEPENDENT PAPERS."

The Advance displays so much gross ignorance in his remarks on this question that it is needless to try to drive anything else into his crannium, for, the softer the head, the more difficult it is to drive anything into it. And as to Conservatives being disgusted with the peculiar course the Advance has followed on political questions, we could point out liberal Conservative subscribers to that paper who have expressed their utter disgust and disapproval, and though we here withold names, they are among the most respectable men of Flesherton Village, Artemesia and Osprey Townships.

ADDITIONAL MAIL SERVICE.

We have read a letter this week from Dr Sproule, now at Ottawa, stating that the petition of Mr. Thos. Kells, and others asking for increased mail service at Vandeleur P.O. was allowed. Vandeleur is to have three mails per week in the future to and from Fiesherton, Monday, Wednesday and Friday. instead of two as heretofore. This will be a great convenience to that portion of Euphrasia and Artemesia, who get their mail matter at this P.O., and they have reason to thank Dr. Sproule, through whose influence, the desirable change was brought about. We congregulate the neighbourhood in securing this convenience.

ENTERPRISE.

McFarland & Hull's Stave Factory was raised a week ago, and will be pushed to completion with all possible speed. This new manufacturing industry will be a valuable addition to the place. A number of hands will be employed to work up the timber | dering the murderer assistance, succeeded during the summer season, while a market is also created for that class of timber. The factory will be run by steam power from the engine which he was carrying out his father's instructions. operates McFailand's grain elevator. It is said that he wished to get the farm and Such a man as J. W. McFarland is the very heart and soul of a place. Since he came to Markdale, some 22 years ago, he has been always foremost in any movement that tended towards the prosperity of the place. From the very start, Mc. purchased anything in the shape of farm produce which was offered, while there was scarcely an article a farmer or mein stock, thus he built up a business, 1883 which is second to none in Western Ontario. He is shrewd and far seeing yet ventursome, and has suffered many severe losses by fluctuations in feree on school business. the markets on various occasions, yet never a murmur, but rather energized forward to greater efforts. The value of such men as a motive power in the growth and progress of a place is seldom fully appreciated, while the whole community share the benefits thus brought about.

in Markdale.

MR. McNAE'S SASH & DOOR FACTORY BURNED.

On Monday las just as the men employed in Mr. Thos. McNae's Sash & Door Factory, near the Station in this village, had shut off steam and started for their dinners, they were recalled by seeing smoke issuing from the upper story of the building, and found on returning, the upper room so full of flames and smoke as to render it impossible to get anything out, however, some of the machinery on the lower flat was removed, although in a damaged state, by this time the crowd around the scene was very large and some worked vigorously in keeping the flames from the skating rink, which stood only 14 feet distant, and a house, owned by W. F. Doll, and occupied by Mr. Robt. Montgomery. which had already been stripped off it; contents, doors and windows, which they succeeded in doing. Very fortunately the wind was East at the time, or the damage to lumber shingles, etc., of which there is considerable near the site of the building desttroyed, would have been much greater, as it is, Mr. McNae's loss is about \$9,500, insurance \$6,000. Mr. Doll's slight damage to buildings, loss about \$100, no insuranc. Mr. Montgomery's furniture rudely removed. At one time quite a commotion and stampede was caused by the steam from Le boiler noisily escaping, but no explosion took place. Mr. McNae was fortunate in increasing the insurance last summer at the time of the elevator fire, and we are glad to learn that he intends to rebuild as soon as possible. The cause of the fire, no doubt, was accidental and probably to: iginated from the engine house, near which it was first seen. Mr. McNae's loss over the insurance will not be less than from three to four thousand dollurs, besides a great portion of his seasons work

Rev. Mr. Franks. (Methodist.) of Thornbery, preached in Lev. Mr. McDiarmia's propos maracaie, last Sabbat's morning. Though quite a young man Mr. Franks promises to re an abie steaker, he was list cato have been describer by a large congregation.

Brutal by his Son

FOULLY SHOT IN THE BACK.

TO BURY THE ATTEMPT BY MURDERER

On Saturday evening last a murder of an unusually brutal character was committed about a mile and a half East of the village of Williamsford Station, in the Township of Holland. It appears that about 4 o'clock a farmer named George Lambert, about filty years of age, came into his house for supper and whilst in the act of washing his hands was shot through the back by his son Joseph, a young man aged about 20, of eccentric habits but not heretofore looked on as dang erous. The shot was fired through a stovepipe hole from the upstairs. The old man staggered backwards and fell on the floor, when his wife, who was in the house at the time, ran to his assistance but was unable to get him to his feet. Meantime the murderer was loading his gun for the second shot when his mother ran upstairs and implored him to desist. On threatening to shoot her next she rushed down stairs and while in the act of doing so the second shot was fired, taking effect in the dying man's head and killing him outright. The murderer then loaded his gun a third time, came down stairs, took the murdered man by the boot leg and dragged him about 40 yds. to the foot of the garden, where he began to prepare a grave. He then got some lumber, which he commenced to measure and saw up for a coffin. By this time some fifteen or twenty of the neighbours, who were alarmed by the mother, had congregated, but were unable to do anything, as the murderer threatened to shoot the first man who approached him. A warrant was also got for his arrest, but neither was it considered advisable to do anything in the way of enforcing it till other devices for the capture of the murderer were exhausted. At length a man named Hanly, under pretence of renin getting beside him, when he tock him by the legs an threw him to the ground, after which he was handcuffed and taken to the village. He says in committing the murder that the fact of his being kept out of it eninquest was held this afternoon and a ver- \$5 00; Grass Seed, \$2.00 to \$2.10 dict of wilful murder returned. The murderer was taken to Owen Sound, where he will be detained till his trial comes on.

EUPHRASIA COUNCIL.

A meeting of the Township Council of the Township of Euphrasia, was held pursuant chanic required which he did not keep to adjournment on the 4th day of May, A. D.

> Members all present. Minutes of last session of Council read and confirmed.

> James Stru.hers, Esq., was appointed re-

The petetion of William Stewart, and others for opening side road 6 & 7 received, and the Reeve and Mr. Ellis appointed to inspect said read and report at next meet-

ing of Council. The petition of John Kerr, relative to formation of a new school section, laid over until next meeting of Council, and the Clerk to
