

The Standard.

MARKDALE, SEPT. 6TH, 1883.

NEW FIRM.

Mr. Lucas, has disposed of his Sash & Door Factory, to Geo. Grant & Co. of this place. Mr. Grant is having the machinery set up and will commence operations in about two weeks. The main building is 30x50 feet and two story high, while the sheds which are of substantial frame, are 24x80 ft in the rear. This will make a spacious factory, where Plaining, Sash & Door, and general Furniture manufacturing will be carried on extensively. We wish the new firm every success.

THE COOK FAMILY MURDERER

MONTREAL, Aug. 31.—Frederick Mann, the young Englishman who is charged with the diabolical murder of several members of the Cook family in this province last year, has made several attempts to cheat the executioner by escaping from L'Original jail. His first attempt was nearly successful, as he had scaled the walls surrounding the building, but some boys on the outside commenced stoning the Malefactor, and the noise brought the warden in time to prevent the prisoner making off. The second attempt was also a bold bid for liberty. It appears the warden had gone away for a day, and left a feeble old man to look after the murderer. On the new keeper entering the prisoner's cell the latter saw his opportunity, and got out and locked his attendant in. The incarcerated man called so loudly as to attract the attention of the warden's wife who gave the alarm, which brought the assistance, and made the second trial as unsuccessful as the first. The prisoner occupies his idleness in reading and walking through the corridors and park of the jail, seemingly quite insensible to the peril he is in. His trial will take place in September.

Personals.

Mr. J. Bonnell, was in town last week.
 Dr. Armstrong is away spending his holidays.
 Mrs. Bowes, returned from Georgetown, last week.

Meaford Road.

From a correspondent.

A Success.—We had the privilege this week of witnessing for the first time a self binding reaper, a "Massy Low Down" at work, being on the farm of Mr. Andrew Beattie, Orange Valley. The grain was badly lodged barley yet the machine did its work in an exceedingly satisfactory manner. This improved labor saving machine is a boon to the harvest operations.

The harvest in Cuckoo Valley is about all wound up this week.

THE VOLCANIC ERUPTIONS.

LONDON, Sept. 1.—Despatches from Batavia report that fears of further eruptions in Java have subsided. All efforts are concentrated on the burial of the corpses, which are thickly strewn on the coast. The Vapours issuing from the fissures in the divided Mountains have caused unusually rapid decomposition of exposed parts of the great rocks at the summits of the peaks. A number of them split apart suddenly on Wednesday, releasing tons of depending earth. This caused several huge landslides, carrying destruction and death on the edge of the town of Narra. Fifteen Chinese in a section of the sanitary corps were buried. A vessel which attempted to enter the Straits of Sunda had a hole stove in her bow.

BATAVIA, Sept. 1.—The coffee and sugar crops in Bantam have suffered severely from the eruptions and tidal waves. Several Europeans and officials are among the dead and missing.

AMSTERDAM, Sept. 2.—It is believed that 100,000 persons perished in North Bantam in the recent calamity. It is also believed that the garrison and Fort Anjer were swept away. An extensive plain of volcanic stone has formed in the sea near Lompong, Sumatra, preventing communication with Telkbelong and south-west Java.

THE HAGUE, Sept. 2.—The Governor General of British India has sent two agents to Bantam to ascertain the extent of the calamity in Java and the neighboring islands. Ships have sent to warn vessels approaching the Strait of Sunda of the danger of navigation. A committee with the Prince of Orange at its head has been formed here to collect subscriptions toward the relief of the sufferers by the calamity.

WARNING TO FARMERS.—The following from the Chatham Tribune explains how farmers in that section are being tricked by a sharper.—For some weeks past a tall fine looking gentleman may be seen going to and fro luring up people who had farms to sell something in this way.—You paid him \$2 to commence with, he then drew a plan of your farm, taking down the price you want, and so fourth. He then proposed to advertise your farm throughout the United States, Canada and England and find you a buyer if possible, in which case he retains 2 1/2 per cent. of your price and if he gets more he pockets the same, with the percentage. This agreement lasts for twenty years and you cannot sell yourself during that time without paying him the 2 1/2 per cent. To our mind people making such arrangements as the above are either born fools or entirely blind.

SERVED HIM RIGHT.—On Wednesday of last week a man named Henry Yeo got a horse and buggy from Paterson's livery stable, to go as far as Kilsyth and return. When he got to Kilsyth, instead of returning he picked up a female companion and drove on through Tara, Invermay, and Arkwright to Southampton. Leaving his companion there he started back and got as far as Tara, when the horse dropped on the street, never having been fed or rested the whole way. He left the horse at Tara to be cared for by a hotelkeeper, and coolly started off by train for Hepworth, not returning here till Friday evening, when he found the Chief waiting for him with a warrant. He was brought before the Police Magistrate on Saturday, and sent for six months to the Central Prison, where he will have time to reflect on the proper treatment of horses.—O. S. Times.

The Canada Pacific Railroad is being pushed on with great rapidity. When this year's work is completed only 280 miles of the road will be unfinished. Calgary is now the western terminus. From Oak Lake, sixty-five miles west of Winnipeg, to Calgary the road cost \$100,000,000.

EDUCATION.—The great mistake in the education of girls, and for that matter of boys, is that they master nothing. A little hear and a little there is the plan. The object seems to be to enable the pupil to give a long catalogue of things studied. And for this charlatanism the parents who demand it are chiefly responsible. There are schools which are thorough. It is not for us to point them out, but for parents to be sure that they are not caught with the chaff of an empty pretense. In education, veneering will peel off.

BIRTHS.

EDGE.—At the Methodist Parsonage, Paisley the wife of Rev. J. Edge of a son.

MARRIAGES.

WYLIE—LOGAN.—On the 5th inst. by the Rev. Mr. Casson, at the residence of the bride's parents. Mr. Wm. Wylie, of Owen Sound, to Miss Susan Logan, of Euphrasia.
