Hot Water for Insects.

Writer in Gardening Illustrated says water may be employed to great adge in destroying the green fly (and insects) on pot plants, and for those rigging of it?" have but a few plants it will prove convenient than fumigating, There margin of many degrees between the temperature that will destroy the and the highest the plant will bear out injury, but 130 ° is a good medium, hot as the hand can be held in two In some experiments recently

made and reported elsewhere, it has been found that 150° is about as high as any common plant will endure, and some insects may require as great a heat, while on others it may have little effect. The temperature should be such, in using the water for the small pot plants, that they may be plunged in it and withdrawn immediately. It is well to experiment on the plants of less value, and observe the effect on the follow-

Save your Melon Seeds.

When one meets with an especially fine melon upon the table, he is desirous of securing the seeds. Indeed, the only way in which a strain of melon can be kept up to its standard or improved, is to select seeds from the best specimens. In raising melon seed for the market, the growers allow the fruit to get much riper than is desirable for eating; this gives a great yield of plump seeds, which are more perfect than if the fruit were taken in its best condition for eating. In the operations of the kitchen, the contents of the melons are sure to be thrown away, and whoever would save seeds from them, must attend to the opening of the fruit himself. Place the contents of the best melons in a bowl or other convenient vessel, cover them with water, and allow them to stand for a few days to ferment. They should be looked to and stirred every day, and when it is found that the seeds fall from their attachments to the bottom of the vessel, the refuse is to be removed, the seeds washed, and spread out to dry upon boards or a cloth. The seeds of water-melons are much less likely than those of melons to be perfect at the time the fruit is in eating condition; hence seed-growers allow watermelons to get dead-ripe, or rottenripe, before they separate the seeds. Of the seeds separated when the fruit is eaten, a share will grow. Such seeds should be collected, washed, and dried. In sowing watermelon seeds of any kind, it is well to recollect that a large majority are worthless, and to be liberal accordingly. With cucumbers, allow a few of the earliest and best shaped to ripen on the vines for seed. All others, if not wanted for use, should be removed, and not allowed to exhaust the vines uselessly. When thoroughly ripe, gather the cucumbers and cut them lengthwise scrape out the contents into a vessel, and allow them to ferment until the seeds are freed from mucilage which surrounds them, and can be washed and dried.

Cut grass or clover for the hogs that are confined. Parsley, a very succulent weed, is greedily devoured by them. Green food keeps them healthy and makes them fatten m an injury of entle as possible. If you are raising faster. A diet solely of corn is too heating and predisposes them to disease.

It is doing some service to humanity to amuse innocently; and they know very little of society who thinks he can bear to be always employed either in duties or meditations without any relaxation.

Sat Upon by a Wasp.

A party of picnickers were enjoying themselves at High Bridge, They were a party of ever so nice girls and ever such gallant fellows. They had everything in the way of edibles that heart could wish for, and they were having a right royal time. girls talked with their mouths full of pickles and pie, and the fellows made jokes about the ham sandwiches and the other fruit.

Suddenly a huge wasp entered the meeting and became one of the party. He alighted on a buxom girl's shoulder. One of her companions saw it and shricked:

"There's a great big bug on your shoulder!" "It's a wasp! Sit perfectly still or it'll

sting you!" screamed another girl. "Oh, Charley! do come and take it off," pleaded tne girl, as she turned red, white and blue.

Charley had evidently been sat upon by a wasp, for he remarked that "it wasn't his wasp," and went up into the woods to have a smoke. The wasp finally flew away, but the subsequent silence between the erstwhile lovers was so dense that they might have heard their hair grow, and Charley paid his own fare home and one fellow had to pay for

that's a passport into any society. Eve must have had a good deal more time in which to do her housework than the modern woman. She had no looking-glass to be running to every half hour.

The Governor-General.

The Governor-General certainly deserves credit for the loyal manner in which he has attempted to discharge the duties of his position, and he will leave the Dominion with the respect of all parties for the impartial manner in which he has invariably conducted himself in connection with the many delicate duties he has been called upon to perform. If Canadian life and society has been as unpleasant to him as to his royal wife he certainly had the good sense to conceal his feelings in the matter. The general impression is that he has rather enjoyed his reign in Canada, and he would have cheerfully extended the term had it been the desire of the Imperial Government for him to do so.

The fact that another member of the Queen's family has expressed a willingness, if not a desire, to become the successor of Lord Lorne, gives strong indications that the office has been rather a pleasant one to its present occupant. It was probably a wise decision, however, of Mr. Gladstone not to make another appointment just now from the Royal household. The experiment was rather a venturesome one in the outset, and now that it has proved fairly successful it may be just as well not to venture on it too soon again. The novelty of the situation is now gone, and at least such an appointment is attended with a good deal of embarrassment all round, even when the political waters are flowing smoothly on both sides of the Atlantic. Should a storm occur from other causes, or should any misdeed or mistake of judgement of the person appointed create a storm, the result would be most unfortunate. Probably had Gladstone been at the helm of affairs instead of Disraeli seven years ago the venture would not have been made at all. As it is few have any reasonable grounds to regret it, but it may be better just now to let well enough alone.

The Salvation Army.

The Salvation Army recently had a He is the best accountant who can cast | great display in Toronto. It was their first anniversary, and quite a large number from the localities west of here came by trains to take part in the demonstration. There were street parades, bands of music, the hallalujah lasses, the shouting men, and the other displays common to the "Army." In the evening it was announced that "An exhibition of living wonders" would take place in Shaftesbury Hall, and an admission fee of 10 cents was charged to witness it. These "living wonders" consisted of the "saved" members of the Army, who gave their testimonies. There can be no doubt many of them are wonders to themselves, and to others as well, compared with what they were a year or so ago before the Army found them out, and the moral results in this connection with such a class of people, as many of them were, are certainly creditable to those concerned. It seems a pity, however, that the over zeal of so many prompt them to make exhibitions of themselves as are calculated rather to bring the whole work into ridicule than to favorably impress the people in its favor. At Shaftesbury Hall hundreds of spectators sat by the hour amused, and sometimes convulsed with laughter, the wild speeches, and sometimes wilder antics of the liveliest of the "living wonders." Few, if any, went away with increased respect for the Army there as a religious movement. We regret it much on that account, for any movement tending to reform drunkards, and restore to decency the debased, is a movement in the right direction. It is just possible that some persons whom the churches have not reached, can only be reached by appealing to their highly emotional nature, but surely it is hardly necessary to run the whole thing so deeply into the ground.

were made by some of the men in by-gone days in the saloons and barof "spirit;" and from that stand point it is more desirable to witness them jumping, shouting, swinging chairs, or rubbing each others heads, than after the old fashion, but if it must be done at all the great unsaved had better be spared the sight; it does them more harm than good to witness it. Can it be that it was any thing so wild in appearance as this that caused some in other days to believe that these men were filled with wine?

Maryland to the Front.

The Hon. Oden Bowie, Ex-Governor of Maryland, President of the Baltimore City Passenger Railway Co., also President of the Maryland Jockey Club says: Both in my family, and in my private stables, as well as those of the City Passenger Railway Co., I have for several years used St. Jacobs Oil most satisfactorily." Such a statement ought to convince every reader of this paper.

Mrs. Stowe has it in mind to write a new novel, the scene laid in Florida, and the title Orange Blossoms, purposing to illustrate it herself. She hopes never to be too old to write love stories. She reads none of the modern novels, because the romance is eliminated.

A BONANZA MINE

of health is to be found in Dr. R. V. Pierce's "Favorite Prescription," to the merits of which as a remedy for female weakness and kindred affections thousands testify.

It is as easy to improve five talents as

If you experience bad taste in mouth, sallowness or yellow color of skin, feel stupid and drowsy, appetite unsteady, frequent headache or dizziness, you are "bilious" and nothing will arouse your liver to action and strengthen up your system equal to Dr. Pierce's "Golden Medical Discovery." By druggists.

Time is the most precious of all possessions.

"ENJOY YOUR LIFE"

is good philosophy, but to do so you must have health. If bilious and constipated, or blood is out of order, use Dr. Pierce's "Pleasant Purgative Pellets," which are mild, yet certain in their operation. Of all druggists.

Kind words produce their own image in men's souls, and a beautiful one it is.

Private opinion is weak, but public opinion is almost omnipoteht, and the public opinion is that there is no Hair Dressing like Carboline the only true Petroleum extract.

Of all the evil spirits abroad at this hour in the world, insincerity is the most dangerous.

For beauty and durability of color the Triangle Package Dyes "beat the world." If you never used dyes before, do so now and be convinced. 10 cents.

It has done me good to be somewhat parched by the heat and drenched by the rain of life.

Of all the sweets of which mortals can dream, There is naught to excel strawberries and Neither is there any remedy known to mortals that can excel Dr. Fowler's Extract of Wild Strawberry as a cure for Chol a Morbus, Cholera Infantum and all Bo el

Complaints. (29) To make life's harmony complete, Both joy and sorrow in the strain must meet,

In the summer and the fall, the urchin climbs the garden wall, For green apples, in his frolic:

He will eat his fill, till, very ill, He's doubled up with Colic. The antidote is Dr. Fowler's Extract of Wild Strawberry-an unfailing remedy for Colic, Cholera Morbus, Cholera Infantum

and all Summer Complaints. (30) Trials and sufferings are only to be regretted when they have proved too severe to be borne.

The well-known drug firm of Ormand & Walsh, Peterboro, writes that Dr. Fowler's Extract of Wild Strawberry is one of their "standard summer medicines, and has a good sale." An unfailing remedy for all forms of Bowel Complaint. (26)

He that seeketh liberty and ease shall ever live in disquiet; for one thing or other shall displease him.

Mrs. Partington declared the Neuralgia to be worse than the old Rheumatism; but however bad either may be, Burdock Blood Bitters will conquer it. It also makes pure blood, regulating the Liver, Kidneys and Bowels, and eradicating scrofulous humor from the system. 25,000 bottles sold in the last three months. (25)

The more we drink we still desire the more. So, if we indulge our passions, they become daily more violent.

The fruit merchants strawberries may not fill the measure; but Dr. Fowler's Extract of Wild Strawberry fills the measure every time in the people's requirements for an unfailing remedy for all forms of Summer Complaints. (27)

Silence never shows itself to so great an advantage as when it is made the reply to calumny and defamation,

Mr. W. J. Guppy, of Newbury, informs us that he has used Burdock Blood Bitters in his family with good effect, and adds that the Rev. J. R. Smith has used it and speaks of it in high terms of praise. It is the great system-renovating tonic that cures all diseases of the Blood, Liver and Kidneys, acting harmoniously with Nature's laws, 25,-000 bottles sold during the last three months.

A firm faith is the best divinity; a good life the best philosophy; a clear conscience the best law; honesty the best policy, and temperance the best physic.

From Mr. EDWARD MITCHELL, Manager of the Bank of Commerce, Hamilton, Ont. Hamilton, January 18th, 1883.

J. N. SUTHERLAND, St. Catharines. My Dear Sir, -I am in receipt of your favor of yesterday's date. asking my experience with regard to RHEUMATINE, and I have no hesitation whatever in pronouncing it a success in my case, and in heartily recommending the remedy to those suffering from Rheumatism. I suffered for months with that trouble in my right arm and shoulder, and often was unable to use my hand, and at night the pain was frequently so great as to render sleep an impossibility. It is probable that similar exhibitions I must confess that I entertained a repugnance to "patent" medicines, but some of my friends persuaded me to try "Rheumarooms, stimulated by a very different kind | tine," and although it may be true that I might have got well without it, one thing I do know, that after taking four bottles the pain took its departure, and I have now the full use of my arm. I heartily wish you unbounded success, as I fully believe your remedy is all that you advertise it to be.

I am, my dear sir, yours most truly, E. MITCHELL. The great simplicity of the hats of the Princess of Wales has enraged the London

milliners. Catarrh—A New Treatment whereby a Permanent Cure is effected in from one to three applications. Particulars and treatise free on receipt of stamp. A. H. Dixon & Son, 305 King-St. West, Toronto, Canada.

Theatrical item: The "Black Crook" ought to run better than any other piece on the stage. It has more legs. Important.

When you visit or leave New York City, save Baggage Expressage and Carriage Hire, and stop at GRAND UNION HOTEL, opposite Grand Central Depot. 450 elegant rooms fitted up at a cost of one million dollars, reduced to \$1 and upwards per day. European plan. Elevator. Restaurant supplied with the best. Horse cars, stages and elevated railroads to all depots. Families can live better for less money at the Grand Union Hotel than at any other first class hotel in the cit .

What is Catarrh?

Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite amœba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle or tubercle, the germ poison of syphilis, mercury, toxcemea, from the reten-tion of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back of the throat, causing ulceration of the throat; up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalents and other ingenious devices, but none of these treatments can do a particle of good until the amœba are either destroyed or removed from the mucous tissue.

Some time since a well-known physician of forty years' standing after much experimenting, succeeded in discovering the necessary combination of ingredients, which never fails in absolutely and permanently eradicating this horrible disease whether standing for one year or forty years. Those who may be suffering from tae above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp.

What the Rev. E. B. Stevenson, B.A., a Clergyman of the London Conference of the Methodist Church of Canada, has to say in regard to A. H. Dixon & Son's New Treat-

ment of Catarrh. "OAKLAND, ONT., CANADA, March 17, 1883.

"MESSRS. A. H. DIXON & SON. "DEAR SIRS,-Yours of the 13th instant to hand. It seems almost too good to be true that I am cured of Catarrh, but I know that I am. I have had no return of the disease and never felt better in my life. I have tried so many things for catarrh, suffered so much and for so many years, that it is hard for me to realize that I am really better.

"I consider that mine was a very bad case; it was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but I feel fully cured by the two you sent me. and I am thankful that I was ever induced to send to you.

"You are at liberty to use this letter stating that I have been cured at two treatments. and I shall gladly recommend your remedy to some of my friends who are sufferers. "Y urs with many thanks,

"E. B. STEVENSON." The Princess Louise has telepraphed, "What day should pictures be in Boston for

exhibition?" PAINLESS AND PROMP .- Putnam Painless Corn Extractor, the great remedy for corns, is absolutely safe and painless, does its work promptly, without in the least interfering with the comfort of the patients, and is absolutely alone as a safe, painless remedy for corns. DO NOT ALLOW YOUR CHILDREN TO grow up deformed or crippled, but call and examine our appliances for the treatment of Club Feet, and Diseases of the Spine, Hip?, Knee and Ankle. Remember the world is progressing, and more can be done to-day than at any former period. We also manufacture Artificial Limbs, Trusses, and appliances for the relief and cure of all kinds of deformities. Will show at Toronto, Guelph and London Exhibitions. AUTHORS & COX, 91 Church street, Toronto.

CONFIDENTIAL.

THOUSANDS of young Men and Women—married and single—through the effects of vicious youthful habits, or excessive in dulgence in later years, have so undermined their general systems as to induce almost every other disease, and the real cause of these troubles being scarcely ever suspected, they are drugged and doctored for everything but the right one. THE JERUBEBIN COMBINATION REMEDY is offered as a speedy and certain cure, as hundreds afflicted with every form of disease have been restored to complete health by its use, after all other remedies failed. The recuperative powers of this medicine are truly astonishing, and, in troubles arising from imprudence, its continued use for a short time changes the languid, debilitated condition, to one of renewed life and vigour. Forwarded to any address, on receipt of price, Two Dollars per package—sufficient for one month's treatment.

M. FINDLAY & CO., Box 497 Toronto.
