JOURNALISTIC CURIOSITY.—We are in receipt of copies of the New York Sun of Sept. 3rd 1883, and Sept. 3rd 1883, being the first copy of the paper which has now attained the ripe age of 50 years. The story of the rise and progress of the Sun from 1833, with a circulation of 500 subscribers, to its present immense circulation of a million copies a week is very interesting. The size of the first issue of the Sun is just about 1/3 the size of the Standard.

A TRAIN ROBBERY.—When the Toronto Grey, & Bruce cashier attempted to open the box containing the remittance from the way stations last Friday, he found that the lock had been tampered with. An examination proved that thieves had opened the box with a "jimmy" and had stolen \$364 therefrom. The box was in charge of the baggageman, who had also to attend to the switching of trains and while he was outside of his car attending to his other duties the thieves are supposed to have opened the box and carried off the money.

A STRIKE.—A number of laborers were employed on Tuesday in loading the propeller Enterprise, getting paid 25c. an hour, but at noon they struck and refused to go on unless they got 35c. Mr. Maughan, the purser, promptly paid them off and engaged a number of colored men to go on with the work. The strikers did not expect to see their places so promptly filled, and came back threatening to prevent the colored men from working; but the Chief coming up with his forces the invaders retreated, leaving the colored men in possession of the ship.—O. S. Times.

Sheguendiah, Manitoulin Island Aug. 31, 1883.—Dear Sir—The buggy you shipped me came to hand to-day almost without a scratch. I must say it is much stronger and much better than I expected as for the painting and trimming, and in every particular it displays the finest workmanship that I have seen since I came to this Island, the only fault that we can find with the buggy is that it is altogether too nice for our roads.—M. L. McGRATH.

MANHOOD

HOW LOST, HOW RESTORED

We have recently published a new edition of Dr. CULVERWELL'S CELEBRATED ESSAY on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical incapacity, Impediments to Marriage, &c., resulting from excesses.

Price, in sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.
