LAST Friday's morning train going

AN IMPOTANT ENQUIRY.—Are you
threatened with consumption? If so,
the cause may be in the blood. Im-
pure blood and scrofula are close com-
panions, and scrofula and consump-
tion are still closer related. Rejuvina-
tor Bitters cure all forms of scrofula
by cleansing the blood and regulating
the secretions. Sold by Smith the
Barber.

THE remarks of the editor of the
Advance in last week's issue of that
paper about Mr. T. Hall, of the Dun-
dalk Herald were entirely uncalled for
and most ungentlemanly. Such a
course cannot but recoil, and in this
case lower (if such is possible) the
writer in the estimation of the public,
while it does not affect the interests or
standing of the one for whom the in-
jury was intended.

THE Evangelistic services in the
Methodist Church still continue. The
congregations are increasing this week,
and the interest is in no respect
abating. Last evening 69 testified
that they had been blessed during the
series of meetings. There were a
number of others absent and many
still seeking. All who attend the
meetings seem religiously impressed,
and the order from the beginning has
been very commendable indeed.—
O. S. Advertiser.

A STEAM boiler explosion took place

What about that proposed saw mill
in Markdale. There is a felt want
for one in our midst, and we have no
doubt it would prove a profitable in-
vestment for a pushing man. There
is yet a large quantity of various kinds
of timber within easy reach, all of
which would find a ready market.
The advantages of a mill close to the
railway over those a few miles out
are many. In the first place the
great bulk of timber sawed, is shipped
by rail, and the prices paid for logs
in the village would be but little if any
more than that paid a few miles out,
while there would be a very material
saving in having the lumber con-
venient to load on the car instead of
having to haul it on wagons and per-
haps lose a profitable sale by not
having it ready for shipping. Then
there is the slabs which are almost
valueless in the country, which, when
cut up always find a ready sale in the
village for fuel at a fair price. There
are other advantages and we hope to
see a good business man take advan-
tage of this excellent opening forth-
with.
