It APPEARS some person has undertaken to diminish the number of dogs in the village by poison. There are doubtless an over stock of the canine kind but some valuable ones are apt to suffer the same fate, as the worse than useless ones by this mode of extermination.

The bribery case is affording American newspapers an excellent opportunity to make comparisons between American and Canadian politics, and they all arrive at the conclusion that there was never anything so corrupt in the history of American politics. The condition of affairs is certainly bad enough here, and should make every honest Canadian blush, but our neighbors shouldn't assume too much virtue. If the story of the witnesses is true, Kirkland said he has already spent \$82,000 in bribing a U. S. legislature.

See those new, stylish and astonishingly low priced Spring and Summer Tweeds at R. J. Sproule's, Flesherton; they are selling fast. Call early and get bargains.

John R. Vert, Hamilton, says: "McGregor's Speedy Cure for Dyspepsia and Indigestion is cheap at fifty cents, the price asked for it. I am a commercial man, and travel continually, and would no more think of leaving home without a bottle of McGregor's Speedy Cure in my valise than I would of leaving my team at home and going on foot." The Chatsworth Debating Society have risen to a very creditable position, their meetings are well conducted, largely attended, highly interesting, and the various subjects are ably handled. Some of our more pretentious villages might greatly profit by such a course during the winter months, and indeed even in summer season.

Our local subscribers, both village and country, who receive their mail matter at Markdale P. O. will in future find the STANDARD paper in the post office after 4 o'clock every Thursday. Those however, who would prefer calling at the printing office for their paper will please let us know and we will make out a special list for them, and they can call as heretofore.

The Dundalk Brass Band gave a concert in the Town Hall, Flesherton, last Thursday evening, 20th inst., and was poorly attended, realizing but very little over what payed expenses. The boys are to be congratulated for the way in which they conducted themselves while holding their series of concerts.

That gigantic piece of patriotic symbolism, the Bartholdi Statue of Liberty, the pedestal for which is now rising out of New York harbor, has been graphically transferred to our office through the courtesy of the Travelers Insurance Company of Hartford, a corporation which is getting famous for good deeds of this character. The company has prepared especially for the American press edition of the official engraving of the great statue and has sent a copy to every newspaper in the land. This engraving being issued under the auspices, and for the benefit of the Pedestal Committee, this act of the "Travelers" involves its contribution of over \$1,700, toward the erection of this splendid national monument.

Last week Mr. Symington received a telegram informing him of his brother's illness in St. Catherines. He went to see him and returned on Friday evening. Now is the time to subscribe and get one free.

They are manufacturing something new in closed wash-stands, which is the most convenient and complete we have yet seen. Mr. Grant is a practical cabinet maker, and a man of undoubted integrity: two very desirable requisites in business. Give them a call.

TO DRIVE AWAY RATS.—Mary Hadlem writes that rats have so strong an aversion to the odor of peppermint, they will not enter rooms or bins where it prevails. She says of the peppermint plant: "We place it in the oats, rye and corn, when they are brought in, and some goes under the pig-stye." Though we no longer have any rats, we continue to use the plant, for fear they might make us a visit." If this is so, in the absence of the plant, probably a few drops of the oil of peppermint would answer the same purpose.—*American Agriculturist* for April.

RE-ORGANIZATION OF GYMNASIUM CLUB.—A meeting was held at the Revere House, on the 21st inst. Mr. John Hill, the resigning President, was voted to the chair. The club greatly regret at losing Mr. Hill as their President. After a brisk discussion by some of the most prominent members, some light was thrown on the matter in a brief speech by the resigning Secretary, W. J. Benson, after which the following officers were elected:—President, John Teiford; Vice-President, Simon Plewis; Sec. Treasurer, W. L. Young; Manager, D. J. Shanahan.

"WAR NOTES."—Such is the marvellous title of a weekly campaign paper just started for the benefit of the general Scott Act Campaign inaugurated by the Dominion Alliance. It is issued by the *Witness* Publishing House, Montreal, at barely cost price—20 copies weekly for six months for one dollar. *War Notes* has in fact as well as in name the ring of battle, its articles being crisp and keen, its news got up in pointed style, and its headings trumpet blasts well designed to rally the temperance clans. It gives news of the working of the Scott Act where it is in operation, as well as campaign news.

AN ACKNOWLEDGED CONVENIENCE.—It is very convenient to have local newspapers to announce marriages and deaths; it is nice to have them speak well of enterprises that will help to build up the town; it is very convenient to have them to assist in suppressing evils that every now and then break out in the community; it is very convenient to have them do a thousand and one things which they are always doing to benefit the public, and for which they get no pay; but it is not convenient for some who are abundantly able to support and encourage their home papers, to do so oven to the extent of becoming subscribers and paying for the same.

An alarming occurrence took place in Arthur Village last week, which had it happened a little earlier, might have been attended with disastrous consequences. At the hour named a tremendous crash was heard, there was a strong gale blowing at the time, and it was soon discovered that the cause of the terrible crash was the fall of the furnace chimney on the south side of the Catholic church. It tumbled right in upon the roof, and breaking about the centre, burst through, carrying a large portion of the roof, beams, etc., down into the church, with such force as to smash through the floor, breaking planks and joists, like twigs. The *Enterprise* says it was providential the funeral party, which had occupied the building a short time previously, had left, otherwise the consequences would certainly have been serious.—*Mt. Forest Advocate*.
